Office of the State Treasurer	Cindy Shave

Table of Contents

INTRODUCTORY SECTION

- 3 Message from the Director
- 4 Department of Retirement Systems' Organization
- 5 Pension System Roles and Responsibilities
- 10 Letter of Transmittal
- 14 Professional Awards
- 16 Legislative Actions

FINANCIAL SECTION

- 19 Independent Auditors' Report
- 20 Management's Discussion and Analysis

Basic Financial Statements (BFS)

- 26 Statement of Plan Net Assets – Pension and Other Employee Benefit Trust Funds by Plan
- 30 Statement of Changes in Plan Net Assets – Pension and Other Employee Benefit Trust Funds by Plan

Notes to the Financial Statements

- 34 Note 1: Summary of Significant Accounting Policies and Plan Asset Matters
- 49 Note 2: General Description of the Retirement Systems

Required Supplementary Information

- 78 Schedules of Funding Progress
- 82 Schedule of Contributions from Employers and Other Contributing Entities

Supporting Schedules

- 83 Schedule of Administrative Expenses
- 84 Schedule of Investment Expenses – Pension Trust Funds
- 85 Schedule of Payments to Consultants

INVESTMENT SECTION

- 89 Report on Investment Activity
- 93 Summary of Investment Policies
- 95 Schedule of Investment Management Fees and Commissions
- 96 Schedule of Broker Volume and Equity Commissions Paid
- 103 Summary of Investments Owned – Pension Trust Funds

ACTUARIAL SECTION

- 113 State Actuary's Certification Letter
- 116 Summary of Plan Provisions
- 118 Summary of Actuarial Assumptions and Methods

Additional Actuarial Schedules

- 129 Schedules of Active Member Valuation Data
- 133 Schedules of Retirees and Beneficiaries Added to and Removed from Rolls
- 137 Solvency Tests
- 141 Analyses of Selected Experience

STATISTICAL SECTION

- 147 Contents
- 149 Schedules of Changes in Plan Net Assets
- 160 Distribution of Membership
- 162 Principal Participating Employers
- 168 Employers Covered By DRS-Administered Retirement Systems
- 180 Schedules of Benefit Recipients by Type of Benefit
- 187 Schedules of Average Benefit Payments to Service Retirees in Year of Retirement
- 199 Schedules of Benefit Expenses and Refunds by Type

Deferred Compensation Program

- 207 Background
- 208 Status Report
- 210 Performance
- 211 Net Investment Asset Growth
- 211 Participation

Introductory Section

Message from the Director

This year has been one of significant economic challenges, for our state and for the nation as a whole. In every challenge, however, there is opportunity.

At the Washington State Department of Retirement Systems, we've long made a habit of fiscally lean operations – while maintaining a high level of accuracy and customer care. CEM Inc., an international firm that benchmarks the performance of public pension plans, found once again this year that our administrative cost per member is significantly lower than would be expected, given the complexity of Washington's 15 different plans within eight retirement systems.

We are proud of this accomplishment, yet we can strive to do even better. When resources are tight, innovation becomes a core part of daily business.

Over this last year, we implemented cost savings by reducing printed copies of member materials while simplifying our online services. We streamlined our retirement application and began a project to develop an electronic version of the application that will both save money and save our customers time. And we launched the first of what we anticipate will be many online informational videos.

Even as we continue to enhance online options, however, our team makes certain we maintain the personal connection our customers value. Retirement Services Analysts answer more than 90 percent of telephone calls in less than 30 seconds and walk-in customers are met by a trained, knowledgeable team member within an average of two minutes.

This quick, responsive service consistently garners praise, but we want to know more. Over this last year we piloted a project internally that will lay the groundwork for reaching out to our more than 400,000 customers to ask, "What can we do to ensure you are not only well-served, but also 100 percent satisfied with the service you receive from DRS?"

In 2010 we also reenergized our efforts to heighten awareness of the State's Deferred Compensation Program (administered by DRS). A pension benefit is only one part of what a public servant will need in retirement and we're pleased to report that enrollment in this retirement savings program continues to rise.

It is a privilege to work with you throughout your career and retirement. We are mindful of the responsibility that entails and will continue to work hard to meet your needs.

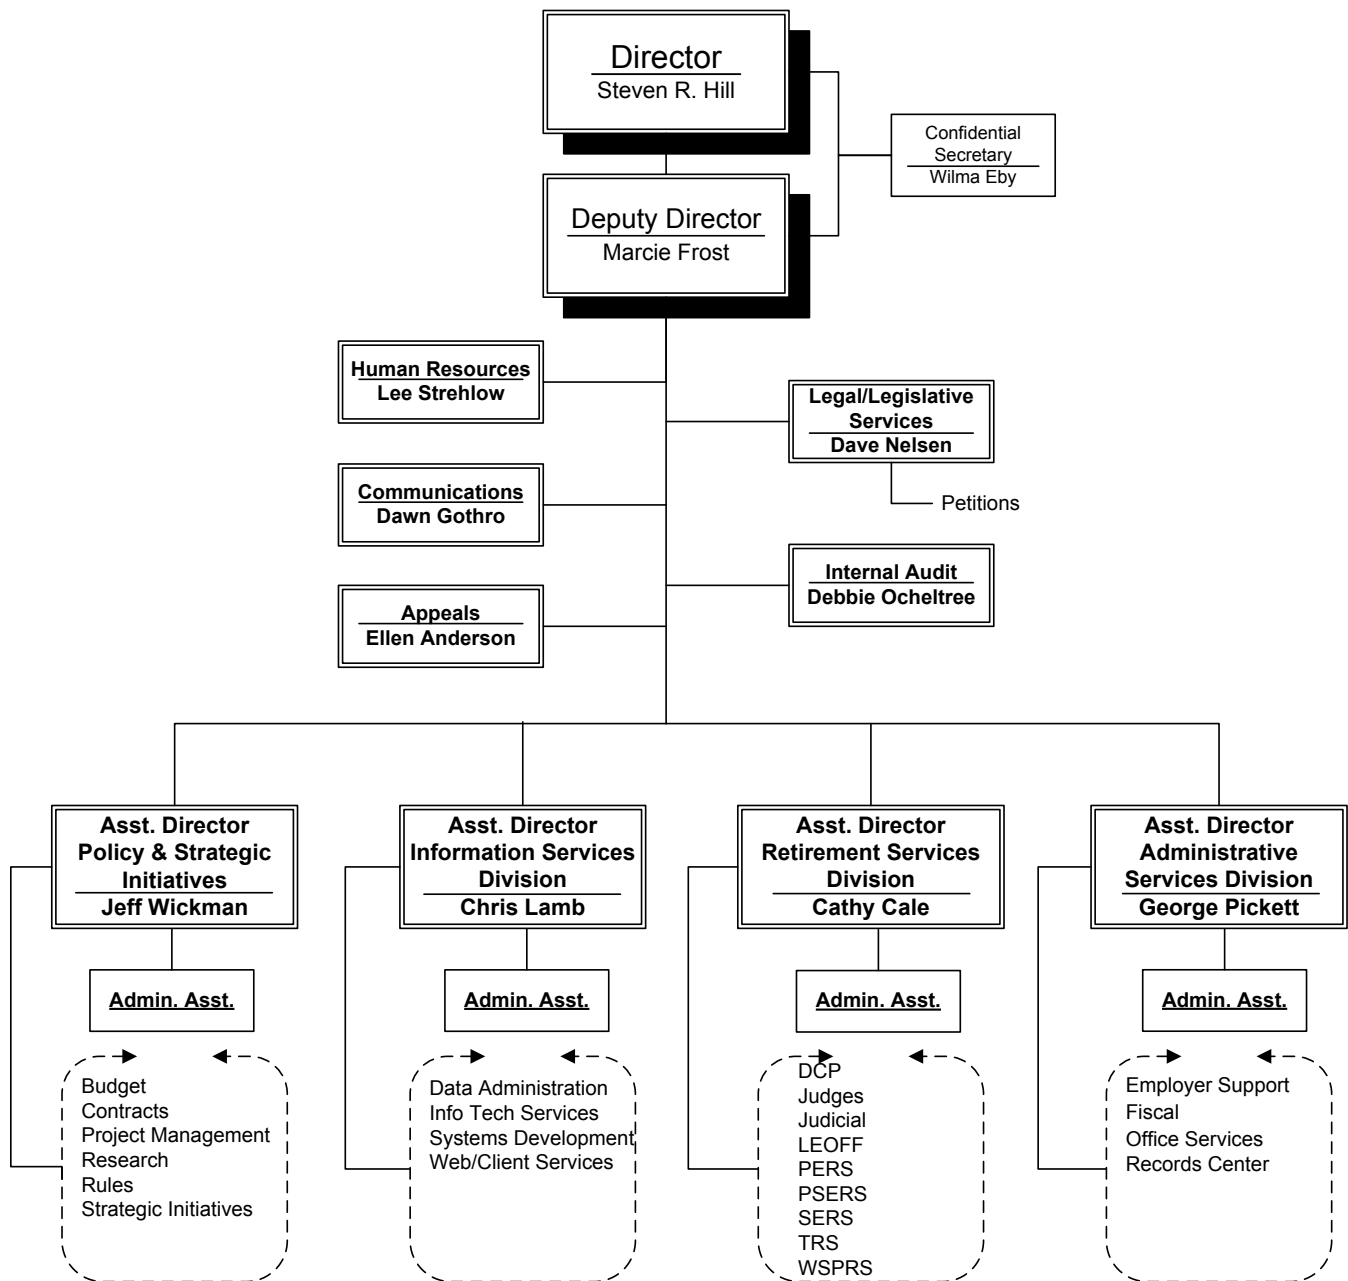

We offer our 2010 annual financial report for your review.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Hill", written in a cursive, flowing style.

Steven R. Hill
Director
November 2010

Department of Retirement Systems' Organization – June 2010

Pension System Roles and Responsibilities

DEPARTMENT OF RETIREMENT SYSTEMS

Collects and accounts for employer and employee contributions; maintains retirement records; pays benefits; communicates pension information; provides investment education; and administers the Deferred Compensation Program.

The governor appoints the director of DRS.

PO Box 48380 Olympia, WA 98504-8380
Telephone: (360) 664-7000 in Olympia or toll free at 1-800-547-6657
Web site: *www.drs.wa.gov*

LEGISLATIVE FISCAL COMMITTEES

Review and report on retirement bills to the full Legislature.

The legislative fiscal committees are the House Ways and Means Committee and the Senate Ways and Means Committee.

House Ways and Means Committee
PO Box 40600, Olympia, WA 98504-0600
Telephone: (360) 786-7155 or toll-free at 1-800-562-6000
(Legislative Hotline)
Web site: *www.leg.wa.gov*

Senate Ways and Means Committee
PO Box 40482, Olympia, WA 98504-0482
Telephone: (360) 786-7715 or toll-free at 1-800-562-6000
(Legislative Hotline)
Web site: *www.leg.wa.gov*

SELECT COMMITTEE ON PENSION POLICY

Studies pension issues and retirement finances. Develops pension policies and recommends pension legislation.

The Select Committee on Pension Policy is composed of four members of the Senate, four members of the House of Representatives, four representatives of active state retirement system members, two representatives of retired members, four employer representatives and the directors of the Office of Financial Management and the Department of Retirement Systems.

Committee Membership (June 30, 2010)

Representative Barbara Bailey	Don Carlson – TRS Retirees
Representative Steve Conway (Vice Chair)	Charles Cuzzetto – SERS and TRS Employers
Representative Larry Crouse	Randy Davis – TRS Actives
Representative Larry Seaquist	Bob Keller – PERS Actives
Senator Steve Hobbs	Corky Mattingly – PERS Employers
Senator Janea Holmquist	Doug Miller – PERS Employers
Senator Joe McDermott	Glenn Olson – PERS Employers
Senator Mark Schoesler (Chair)	J. Pat Thompson – PERS Actives
Marty Brown – Director, Office of Financial Management	Bob Thurston – WSPRS Retirees
Steven R. Hill – Director, Department of Retirement Systems	David Westberg – SERS Actives

Can be contacted through the State Actuary's Office
PO Box 40914, Olympia, WA 98504-0914
Telephone: (360) 786-6140
Web site: www.leg.wa.gov/scpp

PENSION FUNDING COUNCIL

Adopts economic assumptions for pension funding and member and employer pension contribution rates for LEOFF Plan 1, PERS, PSERS, SERS, TRS and WSPRS.

Membership consists of the directors of DRS and the Office of Financial Management, and the Chairs and Ranking Minority Members of the Senate Ways and Means Committee and the House Ways and Means Committee.

Council Membership

Marty Brown – Director, Office of Financial Management
Steven R. Hill – Director, Department of Retirement Systems, Chairperson
Representative Gary Alexander – Ranking minority member, Ways and Means Committee
Representative Kelli Linville – Chair, Ways and Means Committee
Senator Margarita Prentice – Chair, Ways and Means Committee
Senator Joseph Zarelli – Ranking minority member, Ways and Means Committee

Can be contacted through DRS. See information on preceding page.

OFFICE OF FINANCIAL MANAGEMENT

Advises the governor on pension and funding policies and issues.

The governor appoints the director of OFM.

PO Box 43113, Olympia, WA 98504-3113
Telephone: (360) 902-0555
Web site: www.ofm.wa.gov

WASHINGTON STATE INVESTMENT BOARD

Invests and accounts for pension funds. The Board consists of ten voting members.

Membership consists of the director of DRS; the state treasurer; the director of the Department of Labor and Industries; a state senator; a state representative; an active member of LEOFF, PERS, SERS, and TRS; and a retired member of one of the seven systems.

Board Membership (Voting Members, June 30, 2010)

Lisa Brown
State Senator

Steven R. Hill
Director, Department of Retirement Systems

George Masten
Representative of Retired Members

Patrick McElligott (Chair)
Representative of LEOFF

James L. McIntire (Vice Chair)
State Treasurer

Judi Owens
Representative of SERS

Mason A. Petit
Representative of PERS

Mike Ragan
Representative of TRS

Sharon Tomiko Santos
State Representative

Judy Schurke
Director, Department of Labor and Industries

(Nonvoting Members, June 30, 2010)

William A. Longbrake
Investment Professional

Richard Muhlebach
Investment Professional

Robert S. Nakahara
Investment Professional

Letter of Transmittal

STATE OF WASHINGTON
DEPARTMENT OF RETIREMENT SYSTEMS
P.O. Box 48380 • Olympia, Washington 98504-8380

November 15, 2010

The Honorable Christine Gregoire, Governor
Members of the Sixty-First Legislature
Members of the Select Committee on Pension Policy
State of Washington
Olympia, Washington 98504

We are pleased to present to you the Department of Retirement Systems' Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2010. This CAFR is designed to comply with the requirements of RCW 41.50.050(4) and RCW 41.50.780(9).

Responsibility for the accuracy of the data and the fairness and completeness of this presentation, including all disclosures, rests with the management of the Department of Retirement Systems (DRS). To the best of our knowledge, the enclosed data is accurate in all material respects and is reported in a manner designed to provide a fair representation of the financial position and results of the operations of the department.

Peterson Sullivan LLP, Certified Public Accountants, have issued an unqualified ("clean") opinion on DRS' basic financial statements for the year ended June 30, 2010. The independent auditor's report is located at the front of the Financial Section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Agency Description and History

As of June 30, 2010, DRS administered eight statewide public employee retirement systems, which were comprised of 12 defined benefit pension plans and three combination defined benefit/defined contribution plans.

The purpose of DRS is to administer pension plan coverage for state employees, teachers and classified educational employees, law enforcement officers and fire fighters, and other employees of participating political subdivisions. As of June 30, 2010, there were 1,315 covered employers participating in multiple systems and/or plans administered by DRS. The eligibility requirements and provisions of each plan can be found in Note 2 of the Notes to the Financial Statements. DRS also administers a deferred compensation program. Additionally, DRS is responsible for all accounting and reporting services and the collection of contributions for the Judicial Retirement Account (JRA), a defined contribution pension plan administered by the State of Washington Administrative Office of the Courts.

The Washington State Legislature created the Department of Retirement Systems in 1976 to administer the Public Employees' (PERS), Teachers' (TRS), Law Enforcement Officers' and Fire Fighters' (LEOFF), Washington State Patrol (WSPRS), and Judicial (JRS) retirement systems, and the Judges' Retirement Fund (Judges).

Significant events in DRS history are listed below:

1930s-1940s

The PERS, TRS, WSPRS, Judges and many local police and fire fighters' retirement systems were created.

1950s-1960s

Independent administration of individual retirement systems continued.

1960s-1970s

Local police and fire fighters' retirement systems were consolidated into LEOFF.

1976

The Department of Retirement Systems was created to administer state retirement systems.

The Office of the State Actuary was created to provide pension cost estimates.

1977

The LEOFF Plan 2, PERS Plan 2 and TRS Plan 2 were created.

1981

The Washington State Investment Board was created to handle the investment of all state trust funds.

1987

The Joint Committee on Pension Policy was created.

1995

The TRS Plan 3 was created effective July 1, 1996.

1996

The state Deferred Compensation and Dependent Care programs were transferred to DRS.

DRS assumed accounting and reporting responsibility for the Judicial Retirement Account (JRA) defined contribution plan.

1998

The School Employees' Retirement System (SERS) Plans 2 and 3 were created effective September 1, 2000.

The Pension Funding Council was created.

1999

The PERS Plan 3 was created effective March 1, 2002, for state and higher education employees, and effective September 1, 2002, for local government employees.

2001

The WSPRS Plan 2 was created effective January 1, 2003.

2003

The LEOFF 2 Board was established effective July 1, 2003.

The Joint Committee on Pension Policy became the Select Committee on Pension Policy effective July 27, 2003.

2004

The Public Safety Employees' Retirement System (PSERS) was created effective July 1, 2006.

2007

The Judges' Benefit Multiplier bill, effective January 1, 2007, gave justices and judges in PERS and TRS a one-time irrevocable option to increase their contributions in order to fund a larger retirement benefit.

2009

The transfer of the Dependent Care program to the Health Care Authority was completed.

2010

E2SHB 2617 eliminated the Employee Retirement Benefits Board (ERBB) effective June 30, 2010. The duties of the ERBB transferred to the Director of DRS.

Accounting System and Internal Control

This report has been prepared to conform with the principles of accounting and reporting established by the Governmental Accounting Standards Board (GASB). The basic financial statements are presented in accordance with guidelines established by GASB Statement No. 25, *Financial Reporting for Defined Benefit Plans and Note Disclosures for Defined Contribution Plans*, and other GASB statements, as appropriate. Specific accounting treatments are detailed in the Notes to the Financial Statements found in the Financial Section of this report.

In June 2008, the GASB issued Statement No. 53 (GASB 53) *Accounting and Financial Reporting for Derivative Instruments*. Effective for Fiscal Year 2010 reporting, DRS implemented the provisions of GASB 53. GASB 53 had no monetary impact on the financial statements of DRS, but does require additional disclosure. As a result of this implementation, the Derivatives section of Note 1 to the Financial Statements has been expanded.

Management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management. In addition, budgetary controls are maintained by the Office of Financial Management and the Washington State Legislature.

Funding

The intent of public pension funding in Washington state is to provide a dependable and systematic process

for financing the benefits provided by the retirement systems. Measurements of funding status indicate how well a retirement plan is accomplishing that goal. There are two standard indicators of funding status: the funding ratio and the existence of an unfunded liability. Both measure the benefit obligations, or liabilities, of a plan against its assets. If the funding level is adequate, the ratio of total accumulated assets to total liabilities will be larger and more funds will be available for investment purposes. Also, an adequate funding level gives the participants assurance that their pension benefits are secure.

The actuarial value of assets available as of the latest actuarial date for all systems was \$56,996 million. The accrued liability is \$61,823 million. The accrued liability exceeds the net actuarial value of assets available for benefits by \$4,827 million. The ratio of assets to liabilities is 92 percent, compared to 91 percent last year. Current contribution rates remain in keeping with the goal of attaining a funding ratio of 100 percent by the amortization dates applicable to each plan (June 30, 2024 for LEOFF Plan 1, and a rolling ten year period for PERS Plan 1 and TRS Plan 1), as required by chapter 41.45 RCW. Valuations are performed for all DRS-administered retirement systems on a yearly (July 1 through June 30) basis. These calculations are prepared by the Office of the State Actuary and reflect the latest valuation results. Additional actuarial information is included in the Actuarial Section of this report.

Investments

The Washington State Investment Board (WSIB) has sole authority and responsibility for the investment of all state and local pension fund assets. The enabling statute requires the WSIB to "...establish investment policies and procedures designed exclusively to maximize return at a prudent level of risk." The policies adopted by the WSIB include provisions for the setting of strategic asset allocation objectives, as well as strategies and return objectives for individual asset classes. A summary of the asset allocation can be found in the Investment Section of this report. For

Fiscal Year 2010, the commingled trust fund (CTF) investments provided a 13.22 percent rate of return. The CTF annualized rate of return over the last three years was a negative 4.80 percent and positive 4.08 percent over the last five years.

The day-to-day management of pension fund assets is the responsibility of WSIB staff. Further investment information is included in the Investment Section of this report.

Departmental Initiatives

The department's activities are highlighted in the "Message from the Director" on page 3 of this Introductory Section.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to DRS for its comprehensive annual financial report for the fiscal year ended June 30, 2009. This was the sixteenth consecutive year that DRS has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In 2010, DRS also received the Public Pension Standards 2010 Recognition Award for Administration from the Public Pension Coordinating Council (PPCC). The PPCC is a coalition of three national associations that serve public pension funds. It represents substantially all employees of state and local government in the United States. Eligibility for this award entails meeting the professional standards for plan administration as set forth in the Public Pension Standards. These standards are intended to reflect minimum expectations for public retirement system administration.

Acknowledgments

This report was made possible by the staff of DRS based in part on information provided by the Office of Financial Management, the Office of the State Actuary, the Office of the State Treasurer and the Washington State Investment Board. Each member of these agencies has our sincere appreciation. The report will be provided to the Governor, the members of the Select Committee on Pension Policy, and other interested parties.

This report is intended to provide complete and reliable information that can be used to make management decisions, determine compliance with legal provisions, and evaluate responsible stewardship of DRS-administered retirement system funds.

Respectfully submitted,

Steven R. Hill
Director

Certificate of Achievement for Excellence in Financial Reporting

Presented to
Washington State
Department of Retirement Systems

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

A stylized, handwritten signature in black ink.

Alan H. Winkle
Program Administrator

2010 Washington State Legislative Actions

The 2010 Washington State Legislature passed seven pension-related bills that were signed into law by Governor Gregoire. These bills are described below:

BILLS THAT APPLY TO MORE THAN ONE SYSTEM

- House Bill 1541 grants half-time service credit to qualifying members of PERS and SERS Plans 2 and 3 who worked for an educational employer before January 1, 1987.
- House Bill 1679 allows LEOFF Plan 2 members who retired because of catastrophic disability and WSPRS members who are totally disabled in the line of duty to be reimbursed for the cost of their medical insurance premiums.
- House Bill 2519 expands the benefits available for survivors of LEOFF and WSPRS members killed in the line of duty.
- Senate Bill 6546 gives a Director of Fire Protection, if he/she was a previous member of LEOFF Plan 2, the choice to continue membership in LEOFF Plan 2 while employed in this role. Otherwise, the Director of Fire Protection would be a PERS covered position.

LAW ENFORCEMENT OFFICERS' AND FIRE FIGHTERS' RETIREMENT SYSTEM

- Senate Bill 6453 allows shared leave to be treated as reportable compensation for all members of LEOFF Plan 2. Earnings can be used in the calculation of a member's benefit and service credit will be earned according to hours reported.

PUBLIC EMPLOYEES' RETIREMENT SYSTEM

- House Bill 2196 allows a PERS Plan 1 member who retired on or after January 1, 1998 to use any service transferred from LEOFF Plan 1 to qualify for military service credit at no cost.

PENSION RELATED

- House Bill 1545 bill allows eligible employees of the Higher Education Coordinating Board to participate in a Higher Education Retirement Plan instead of the Public Employees' Retirement System.

SEATTLE, WASHINGTON 98101

INDEPENDENT AUDITORS' REPORT

Mr. Steve Hill, Director
 Washington State Department of Retirement Systems
 Olympia, Washington

We have audited the accompanying financial statements (including the individual fund financial statements) of the Washington State Department of Retirement Systems as of and for the year ended June 30, 2010. The Department of Retirement Systems is a part of the State of Washington's primary government. These financial statements are the responsibility of the Department of Retirement Systems' management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from the Washington State Department of Retirement Systems' June 30, 2009, financial statements and in our report dated November 27, 2009, we expressed an unqualified opinion on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 2010 financial statements referred to above present fairly, in all material respects, the financial position of the Washington State Department of Retirement Systems as of June 30, 2010, and the results of its operations for the year then ended in conformity with accounting principles generally accepted in the United States. Also, in our opinion, the financial statements present fairly, in all material respects, the financial position of each of the individual funds of the Washington State Department of Retirement Systems as of June 30, 2010, and the results of operations of such funds for the year then ended in conformity with accounting principles generally accepted in the United States.

The accompanying management discussion and analysis and required supplementary information listed in the accompanying table of contents is not a required part of the basic financial statements, but is supplementary information required by the Government Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supporting schedules (administrative expenses, investments expenses – pension trust funds, and payments to consultants) as listed in the accompanying table of contents are presented for the purposes of additional analysis and are not a required part of the financial statements of the Washington State Department of Retirement Systems. Such information has been subject to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

The introductory, actuarial, investment, and statistical sections of this report are not required parts of the financial statements, and we did not audit or apply limited procedures to such information and do not express any assurance on such information.

November 1, 2010

Management's Discussion and Analysis

This discussion and analysis of the Washington State Department of Retirement Systems' (DRS) financial performance provides an overview of DRS' financial activities for the fiscal year ended June 30, 2010. Please read it in conjunction with the Letter of Transmittal beginning on page 10 and DRS' financial statements, which begin on page 26 of this report.

DRS' overall financial position improved during the year ended June 30, 2010.

FINANCIAL HIGHLIGHTS

The following financial highlights occurred during the fiscal year ended June 30, 2010:

- The combined plan net assets of all the pension funds administered by DRS increased \$5,706.5 million during Fiscal Year 2010.
- The covered payroll requiring both employee and employer pension contributions reported during the year totaled \$16,681.8 million, representing an increase of 0.6%.
- Employer contributions totaled \$919.0 million and member contributions (including restorations) totaled \$941.6 million, representing decreases of 27% and 10%, respectively, from the previous fiscal year.
- Net investment earnings (net appreciation/depreciation in the fair value of investments, plus interest and dividend income, less investment expenses) increased \$21,551.4 million to \$6,639.5 million in Fiscal Year 2010.
- Pension benefits paid to retirees and beneficiaries increased \$133.5 million bringing the total benefit payments to \$2,744.1 million. Refunds of contributions paid to former retirement system members increased slightly from \$310.2 million to \$310.8 million.

- Administrative expenses totaled \$29.4 million and represented no change from last fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to the DRS basic financial statements, which consist of the following components: basic financial statements, notes to the financial statements, required supplementary information, and other supporting schedules.

Basic Financial Statements

The basic financial statements presented for the fiduciary funds are fund financial statements and include a Statement of Plan Net Assets and a Statement of Changes in Plan Net Assets. The fiduciary funds include defined benefit and defined contribution pension trust funds and the deferred compensation program trust fund. The Statement of Plan Net Assets presented on pages 26–29 reports the assets, liabilities and resulting net assets available for pension and other benefits as of June 30, 2010. The Statement of Changes in Plan Net Assets presented on pages 30–33 reports the additions to, deductions from, and resulting net change in net assets for the fiscal year ended June 30, 2010.

Notes to the Financial Statements

The notes to the financial statements presented on pages 34–77 of this report are an integral part of the financial statements and include additional information not readily evident in the statements themselves. Note 1 provides a summary of significant accounting policies and plan asset matters including the reporting entity, measurement focus, basis of accounting, investments, reserves, capital assets, leases, long-term liabilities, transfers, financial statement formatting, accounting and reporting changes and contingencies. Note 2 provides a general description of DRS, plan descriptions and funding policy. Section D of this note also provides current year funded status and funding progress information

as well as a summary of the actuarial and economic methods and significant assumptions used.

Required Supplementary Information

Because of the long-term nature of a defined benefit pension plan, financial statements alone cannot provide sufficient information to properly reflect the plan's ongoing plan perspective. The required supplementary information consists of two historical trend schedules. The Schedules of Funding Progress presented on pages 78-81 include historical trend information about the actuarially funded status of each plan from a long-term, ongoing plan perspective and the progress made in accumulating sufficient assets to pay benefits when due. The Schedule of Contributions from Employers and Other Contributing Entities presented on page 82 includes historical trend information about the annual required contributions of employers and the contributions made by employers in relation to this requirement. These schedules provide information that contributes to understanding the changes over time in the funded status of the plans.

Supporting Schedules and Other Financial Information

These schedules are presented on pages 83-85 and provide additional detailed information useful in evaluating the condition of the plans administered by DRS. These schedules include information on administrative expenses, investment expenses, payments to consultants and other additional information.

FINANCIAL ANALYSIS OF DRS FUNDS

Analysis of Net Assets – Fiduciary Funds (dollars in millions)

	Fiscal Year 2010	Fiscal Year 2009	Increase (Decrease) Amount	Increase (Decrease) Percentage
Net Assets				
Assets				
Cash and Pooled Investments	\$ 32.7	\$ 33.7	\$ (1.0)	(3)%
Receivables	2,081.4	739.6	1,341.8	181%
Capital Assets, Net of Depreciation	0.5	0.4	0.1	25%
Investments, Noncurrent	61,280.2	54,592.4	6,687.8	12%
Other Assets	1.4	1.4	–	0%
Total Assets	<u>63,396.2</u>	<u>55,367.5</u>	<u>8,028.7</u>	<u>15%</u>
Liabilities				
Obligations Under Security Selling and Lending Agreements	3,659.0	2,911.4	747.6	26%
Other Short-Term Liabilities	2,105.7	531.1	1,574.6	296%
Long-Term Obligations	1.4	1.4	–	0%
Total Liabilities	<u>5,766.1</u>	<u>3,443.9</u>	<u>2,322.2</u>	<u>67%</u>
Total Net Assets	<u>\$57,630.1</u>	<u>\$51,923.6</u>	<u>\$ 5,706.5</u>	<u>11%</u>

Net trust assets increased by \$5,706.5 million in Fiscal Year 2010 and totaled \$57,630.1 million as of June 30, 2010. The increase was largely the result of investment portfolio realized and unrealized gains that totaled \$4,912.0 million and were the result of positive returns in all investment assets classes, except real estate.

Total trust fund assets as of June 30, 2010 were \$63,396.2 million, representing an increase of \$8,028.7 million, or 15%, over the previous fiscal year. This increase was primarily due to increases in investments and in receivables which were themselves largely investment-related, as described below:

- Total investments increased by \$6,687.8 million, or 12%, and reflected unrealized gains in the fixed income securities category due to the fall of interest rates; unrealized gains in the equities category due to equity market appreciation, improved returns and reinvestment of income within the

portfolio; and positive returns in all capital markets, except real estate, in the alternative investments portfolio.

- Receivables increased \$1,341.8 million, or 181%, to \$2,081.4 million, and reflected a \$1,347.8 million increase in investment trades pending receivables. This increase was caused in part by international managers having fewer open trades at June 30, 2010 compared to the prior year, resulting in fewer open exchange contracts available to cover the settlement currency of those trades. Offsetting this amount was a net decrease of \$6.0 million in all other receivable categories resulting from reduced payroll and contribution rates (a decrease in due from other governments), reduced transfer activity at year-end (a decrease in due from other funds), and improved market conditions (an increase in interest and dividends receivable).

Total trust fund liabilities as of June 30, 2010 were \$5,766.1 million, representing an increase of \$2,322.2 million, or 67%, over the previous year. As with the assets, this increase was largely due to investments (obligations under securities lending agreements) and to short-term liabilities which were themselves investment-related, as described below:

- Obligations under securities lending/selling agreements rose \$747.6 million, or 26%, to \$3,659.0 million. During Fiscal Year 2010, WSIB ceased lending corporate bonds due to an increase in failed sale transactions. The market environment made it difficult to recall these loaned securities in a timely fashion to settle the trades. However, lending of public equities and U.S. Government securities, which are in high demand in the lending marketplace, continued. The increase in this category directly reflects the overall increase in the value of the underlying securities lent.
- Other short term liabilities rose \$1,574.6 million, or 296%, over the previous year and reflected a \$1,576.5 million increase in

investment trades pending payables, resulting largely from the currency settlement coverage issues experienced by the international managers that was explained previously. Offsetting this amount was a net decrease of \$1.9 million in all other short-term liability categories resulting from an increase in benefit payments (an increase in accounts payable), reduced transfer activity at year-end (a decrease in due to other funds) and reduced miscellaneous costs (a decrease in other short-term liabilities).

Analysis of Changes In Net Assets – Fiduciary Funds
(dollars in millions)

¹ 2009 figures have been adjusted to reflect reclassification of \$0.8 million from investment costs to administrative expenses.

Additions to the retirement trust funds primarily consist of contributions from employers, active system members and the state, and from investment earnings. Additions to the deferred compensation trust fund consist of participant contributions and investment earnings.

Total trust fund additions (excluding plan transfers) for Fiscal Year 2010 amounted to \$8,791.8 million, an increase of \$21,074.3 million from Fiscal Year 2009. This increase was primarily due to the \$21,551.4 million increase in net income from investment activities, which yielded an annual 13.2% return for the Retirement Funds. Specifically, this increase was the result of realized and unrealized gains due to the positive investment returns in almost all investment classes, as evidenced by the significant returns of 12.5% in the fixed income portfolio, 13.5% in the global equity portfolio, and of 24.0% in the private equity portfolio; in addition to increased income distributions received from private equity and real estate partnerships and from increased income in the cash overlay program.

Net income from investment selling and lending activities decreased 67% to \$13.9 million in Fiscal Year 2010. This decrease was the result of decisions made by WSIB and the Office of the State Treasurer (OST) to limit their exposure in this market. As indicated previously, WSIB decided to cease lending corporate bonds in Fiscal Year 2010 due to the inability to recall these loaned securities in a timely fashion to settle the trades. In a somewhat similar manner, the OST opted not to participate at all in securities lending transactions during Fiscal Year 2010.

Employer contributions decreased \$348.3 million, or 27%, and totaled \$919.0 million for the Fiscal Year ended June 30, 2010. This decrease was the result of reduced contribution rates and a modest increase in covered payroll. Total covered payroll increased from \$16,582.0 million in the previous year to \$16,681.8 million in Fiscal Year 2010. The decrease in contribution rates varied among the systems, ranging from 0.22% to 3.00%, and averaged 1.75% among all the plans.

Member contributions include both regular contributions and the “restoration and arrears” contributions of those members that have returned to public employment after having previously withdrawn their plan contributions. While total contributions decreased 10% from the previous year and totaled \$941.6 million for Fiscal Year 2010, regular member contributions actually decreased \$111.4 million (11%) and restoration and arrears contributions increased \$7.1 million (35%). The decrease in regular contributions was the result of a reduced workforce (down 5,142 from June 2009) and of reduced contribution rates. The decrease in member contribution rates varied among the systems, ranging from 0.02% to 1.57%, and averaged 0.99% among all the plans.

State contributions rose slightly, 3%, from \$61.3 million last year to \$63.0 million in Fiscal Year 2010 and reflected the slightly higher allocations out of the State General Fund for LEOFF Plan 2 and JRS.

Participant contributions to the Deferred Compensation Program (DCP) increased a slight \$0.6 million to \$185.1 million over the prior year. The weakened economic conditions, combined with the voluntary nature of this program’s participation, which allows participants the option to stop or lower their contributions, were the likely causes of this modest growth. As of June 30, 2010, the number of active and contributing DCP participants was 33,193 and represented a 205 decrease from the prior year.

Transfers from and to other pension plans increased 131% to \$19.9 million, an increase largely resulting from the passage of SB5303 (Chapter 209, Laws of 2009). This bill allowed SERS Plan 2 members who had previously had service credit automatically transferred out of PERS Plan 2 into SERS Plan 2 after September 1, 2000, to reverse their automatic transfers back into PERS Plan 2. These transfers made up fully \$7.7 million of this increase in Fiscal Year 2010, with the remaining \$3.6 million representing normal transfer activity among the pension funds.

Other additions increased \$0.6 million to \$1.6 million in Fiscal Year 2010. This increase was the

result of a \$0.4 million increase in record-keeper fee rebates on two DCP and JRA investment products, and a \$0.2 million reversal of a penalty fee accrual.

Deductions to the retirement trust funds consist of the payment of benefits to retirees and beneficiaries, the refund of contributions to former retirement system members, and the cost of administering the retirement systems. Benefit payments to members include both pension and annuity benefits. Expenses for the management of trust funds are incurred by the Washington State Investment Board and funded from earnings on investments. Deductions to the deferred compensation trust fund consist of refunds paid to plan participants and administrative expenses.

Total trust fund deductions (excluding plan transfers) for Fiscal Year 2010 were \$3,085.3 million, an increase of \$123.9 million or 4% over Fiscal Year 2009. This was primarily due to an increase in benefits paid to retirees and beneficiaries. Benefit payments increased \$133.5 million or 5% due to an increase in the number of retirees during the year, the annual cost of living adjustments that increased benefit payouts, and the higher salaries of those newly retired.

Total refunds for Fiscal Year 2010 were \$310.8 million, representing a modest \$0.6 million increase and no significant change from the previous year.

Transfers to other funds decreased \$10.2 million to \$1.0 million in Fiscal Year 2010 and represented a reduced operating state budget transfer into the State General Fund.

CAPITAL ASSETS

DRS' investment in capital assets for its fiduciary activities includes furnishings, equipment and improvements other than buildings. As of June 30, 2010, total investment was \$2.9 million, with accumulated depreciation of \$2.4 million, leaving a net book value of \$0.5 million. This amount represents an increase of 20% from the previous year,

resulting from the purchase of computer equipment. Additional information on DRS' capital assets can be found in section I of Note 1 to the financial statements.

OTHER LONG-TERM OBLIGATIONS

At year-end, DRS had \$1.4 million in outstanding general long-term obligations, which represented no significant change from the prior year. These long-term obligations represent DRS' liability for accumulated annual and sick leave. Additional information on DRS' long-term debt obligations can be found in section K of Note 1 to the financial statements.

CONTACTING DRS' FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of DRS' finances. If you have questions about this report or need additional financial information, contact the Department of Retirement Systems' Administrative Services Division, P. O. Box 48380, Olympia, WA 98504-8380.

Notes to the Financial Statements

For the Fiscal Year Ended June 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PLAN ASSET MATTERS

A. Reporting Entity

The Department of Retirement Systems (DRS) is a part of the primary government of the state of Washington. The Governmental Accounting Standards Board has developed criteria relating to elements of financial accountability to be used to determine the reporting entity. Financial accountability is manifest when the primary government appoints a voting majority of an organization's governing body and is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government regardless of whether the organization has a separately elected governing board, a governing board appointed by a higher level of government, or a jointly appointed board. An organization is fiscally dependent if it is unable to determine its budget without another government having the substantive authority to approve or modify that budget, or to set rates or charges without substantive approval by another government. Based on this criteria, DRS is considered part of the state of Washington financial reporting entity and is included in the state's comprehensive annual financial report as the administrator of the pension trust funds.

The state of Washington's Comprehensive Annual Financial Report may be obtained from the Washington State Office of Financial Management's website at:

<http://www.ofm.wa.gov/cafr/default.asp>

The state of Washington, through DRS, administers eight retirement systems for public employees of the state and political subdivisions: the Public Employees' Retirement System, the School Employees' Retirement System, the Public Safety Employees' Retirement System, the Teachers' Retirement

System, the Law Enforcement Officers' and Fire Fighters' Retirement System, the Washington State Patrol Retirement System, the Judicial Retirement System, and the Judges' Retirement Fund. The Director of DRS is appointed by the Governor. The state Legislature establishes laws pertaining to the creation and administration of all public retirement systems. The members of the public retirement systems together with their employers and the state provide funding for all costs of the systems based upon actuarial valuations. The state establishes benefit levels and approves the actuarial assumptions used in determining contribution levels. Based upon these criteria, DRS views itself as part of the state of Washington's primary government.

B. Basic Financial Statements

The financial statements provided in this report are fiduciary statements.

Fiduciary funds report assets held for others in a trustee or agency capacity and therefore, cannot be used to support the government's own programs. DRS' fiduciary funds are the retirement pension trust funds. The statements presented for these funds include a Statement of Plan Net Assets and a Statement of Changes in Plan Net Assets. The statements provide a separate column for each plan administered by DRS. The Statement of Plan Net Assets includes information about the assets, liabilities, and net assets for each plan. The Statement of Changes in Plan Net Assets includes information about the additions to, deductions from, and net increase (or decrease) in net assets for each plan for the year.

C. Measurement Focus and Basis of Accounting

DRS' financial statements have been prepared in conformity with accounting principles generally accepted in the United States (GAAP). The retirement plans are accounted for in pension trust funds using the flow of economic resources measurement focus

and the accrual basis of accounting. Plan member contributions are recognized as revenues in the period in which the contributions are due. Employer contributions to each plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

The deferred compensation plan is accounted for in a pension trust fund using the flow of economic resources measurement focus and the accrual basis of accounting. Participant contributions are recognized as revenues in the period in which the contributions are due. Refunds are recognized when due and payable in accordance with the terms of the plan. DRS maintains an administrative fund to account for the administrative revenues and operating expenditures incurred in administering the deferred compensation plan. Since these costs are incurred in the administration of the deferred compensation plan, they have been reported within the deferred compensation plan.

D. Method Used to Value Investments

Investments are reported at fair value. Unrealized gains and losses are included as investment earnings in the statement of changes in net assets. The net assets of the Retirement Funds are valued on a monthly basis using the following sources:

Publicly Traded Securities (corporate stock, commingled funds, and fixed income): Fair values are based on published market prices, quotations from national security exchanges and security pricing services as of each month end closing of the New York Stock Exchange.

Limited Partnerships: The fair value of investments that are organized as limited partnerships and have no readily ascertainable fair value (such as private equity, real estate, innovation and tangible assets) has been determined by management based on the individual investment's capital account balance, reported at fair value by the general partner, at the closest available reporting period, adjusted for subsequent contributions, distributions, management fees,

and changes in value of foreign currency and published market prices for certain securities. The June 30, 2010 values reported in the accompanying financial statements are the capital account balances at March 31, 2010, adjusted for subsequent cash flows through June 30, 2010.

The limited partnerships' annual financial statements are audited by independent auditors. These investments are valued at \$21.6 billion as of June 30, 2010. Because of the inherent uncertainties in estimating fair values, it is at least reasonably possible that the estimates will change in the near-term.

Private Equity Limited Partnerships: The fair value of individual capital account balances is based on the valuations reported by private equity partnerships using the following methodologies to value the underlying portfolio companies:

- Valuations of publicly traded portfolio companies are based on active exchanges using quoted market prices as of the close of trading for each month end.
- When a portfolio company investment does not have a readily available market price, but has a return that is determined by reference to an asset for which a market price is readily available, valuations are based on the closing market price of the reference asset on the valuation date, adjusted for factors that affect the fair value of the investment held.
- When the portfolio company investments are private holdings and are not traded on active security exchanges, valuation methodologies used consist primarily of income and market approaches. The income approach involves a discounted cash flow analysis based on a portfolio company's projections. The market approach involves valuing a company at a multiple of a specified financial measure (generally EBITDA) based on multiples at which comparable companies trade.

Real Estate Limited Partnerships: Real estate partnerships provide the Washington State Investment Board (WSIB) management with quarterly valuations based on the most recent capital account balances. Individual properties are valued by the partnerships at least annually, and are adjusted as frequently as quarterly if material market or operational changes have occurred. Properties are generally externally valued every one to five years, depending upon the partnership. Structured finance investments receive quarterly value adjustments by the partners, generally applying the assumption that all such positions will be held to maturity. Annual audits of most partnerships include a review of compliance with the company's valuation policies.

E. Revenue Recognition

Interest and dividend income is recognized when earned. Capital gains and losses are recognized on a trade-date basis. Purchases and sales of investments are also recorded on a trade-date basis.

F. Allocation

DRS maintains an administrative fund to account for the administrative additions and deductions incurred in administering the pension plans (excluding any fees incurred while protecting the pension plans). All additions received are based on a legislatively approved percent of employer contributions. These additions and deductions have been allocated to the pension plans based on asset balance.

DRS maintains a general capital assets fund to account for the capital assets used in administering the pension plans. These capital assets have been allocated to the pension plans based on asset balance. DRS also maintains a general long-term obligation fund to account for accumulated compensated absences incurred in administering the pension plans. These general long-term obligations have also been allocated to the pension plans based on asset balance.

G. Deposits, Investments, and Securities Lending

Deposits: DRS' deposits are managed by the Office of the State Treasurer (OST) and consist of securities issued by AAA rated issuers or deposits in financial institutions partially insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by the Washington Public Deposit Protection Commission (PDPC) up to statute limitations. The PDPC constitutes a multiple financial institution collateral pool. Pledged securities under the PDPC collateral pool are held by the PDPC's agent in the name of the collateral pool. State law (chapter 43.84.080 RCW) specifies that whenever there is a fund or cash balance in the state treasury more than sufficient to meet the current expenditures properly payable therefrom, the OST may invest or reinvest such portion of such funds or balances as the OST deems expedient. Statute authorizes the OST to buy and sell the following types of instruments: U.S. Government and Agency securities, bankers' acceptances, commercial paper and deposits with qualified public depositories. Securities underlying repurchase and reverse repurchase agreements are limited to those stated above. DRS receives its proportionate share of investment earnings from surplus balances in the state treasury based upon its daily balance for the period. DRS' deposits are separately displayed on the Statement of Plan Net Assets as cash and pooled investments.

Deposits – Custodial Credit Risk: Custodial credit risk is the risk that deposits may not be returned to a depositor in the event of the failure of a financial institution. The OST minimizes custodial credit risk by restrictions set forth in state law. Statutes restrict the OST to deposit funds in financial institutions that are physically located in Washington unless otherwise expressly permitted by statute and authorized by the PDPC. As of June 30, 2010, the carrying amount of DRS' cash and pooled investment deposits is \$32.8 million, all of which are insured or collateralized.

Investments: The WSIB has been authorized by statute as having the investment management

responsibility for Retirement and Deferred Compensation Funds. The WSIB is authorized to invest as provided by statute (chapter 43.33A RCW) and WSIB policy. The WSIB is authorized and invests in the following: U.S. Treasury Bills; discount notes; repurchase agreements; reverse repurchase agreements; bankers' acceptances; commercial paper; guaranteed investment contracts; U.S. Government and Agency (government sponsored corporations eligible for collateral purposes at the Federal Reserve) securities; non-U.S. dollar bonds; investment grade corporate bonds; non-investment grade corporate bonds; publicly traded mortgage-backed securities; privately placed mortgages; private placements of corporate debt; U.S. and foreign common stock; U.S. preferred stock; convertible securities; private equity including but not limited to: investment corporations, partnerships, and limited liability companies for venture capital, leveraged buy-outs, real estate and other tangible assets, or other forms of private equity; asset backed securities; and derivative securities including futures, options, options on futures, forward contracts, and swap transactions.

There were no violations of these investment restrictions during Fiscal Year 2010.

Investments – Interest Rate Risk: Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The WSIB does not have a formal policy regarding interest rate risk. Effective duration is the measure of a debt investment's exposure to fair value changes arising from changes in interest rates. Effective duration uses the present value of cash flows, weighted for those flows as a percentage of the investments' full price. Increases in prevailing interest rates generally translate into decreases in the fair values of those investments, and decreases in interest rates result in increases in valuations. The Retirement Funds' fixed income investments are to be actively managed to exceed the return of the Barclays Capital Universal Index with a duration that is not twenty percent higher or lower than the duration of the index. As of June 30, 2010 the Retirement Funds' durations of the various fixed income classes were within the duration targets of this index.

The schedule on page 38 provides information about the interest rate risks associated with the Retirement Trust Funds' categorized investments in the Commingled Trust Fund (CTF) as of June 30, 2010. The schedule displays various asset classes held by maturity in years, effective durations, and credit ratings. Residential mortgage backed, commercial mortgage backed, and asset backed securities are reported using the average life within the portfolio. The average life is a calculated estimate of the average time (in years) until maturity for these securities, taking into account possible prepayments of principal. All other categorized securities on this schedule are reported using the stated maturity date.

Investments – Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The WSIB does not have a formal policy regarding credit risk but mitigates said risk through active management and credit analysis. The Retirement Funds' rated debt investments as of June 30, 2010, were rated by Moody's and/or an equivalent national rating organization. Credit ratings for the Retirement Funds' rated debt investments as of June 30, 2010 are presented in the schedule on page 38. Investment types with multiple credit ratings are presented in the schedule on page 39.

Investments – Concentration of Credit Risk: Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. The WSIB's policy states that no corporate fixed income issue shall exceed three percent of cost at the time of purchase or six percent of fair value of the fund thereafter, and that no high yield issues shall exceed one percent of cost or two percent of the fair value of the fund. There was no concentration of credit risk exceeding these policy guidelines as of June 30, 2010. Additionally, no single investment (other than any issued or explicitly guaranteed by the U.S. government, or involving mutual funds or investment pools) comprised more than five percent of DRS' net investments at the end of Fiscal Year 2010.

Investments – Custodial Credit Risk: Custodial credit risk is the risk that, in the event of failure of the counterparty, the WSIB would not be able to recover the value of the investments that are in the possession of an outside counterparty. The WSIB has no formal policy regarding custodial credit risk.

Investments – Foreign Currency Risk: Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The WSIB does not have a formal policy to limit the Retirement Funds' foreign currency risk.

The WSIB manages its exposure to fair value loss by requiring its international securities investment managers to maintain diversified portfolios by sector and by issuer to limit foreign currency and security risk. The Retirement Funds' exposure to foreign currency risk as of June 30, 2010, is presented in the schedule on page 40. The schedule, stated in U.S. dollars, provides information on deposits and investments held in various foreign currencies.

Source: Washington State Investment Board

Securities Lending: Securities lending management responsibilities as authorized by statute are as follows:

WSIB—Washington State law and WSIB policy permit the WSIB to participate in securities lending transactions to augment the investment income of the Retirement Funds. The WSIB has entered into an agreement with JP Morgan (JPM) to act as agent for the WSIB in securities lending transactions. As JPM is the custodian bank for the WSIB, it is a counterparty to these transactions.

In accordance with GASB Statement No. 28, the Retirement Funds report securities lent (the underlying securities) as assets in the Statement of Plan Net Assets. Cash received as collateral on securities lending transactions and investments made with that cash are reported as assets. Securities received as collateral are also reported as assets if the WSIB has the ability to pledge or sell them without a borrower default. Liabilities resulting from these transactions are reported in the Statement of Plan Net Assets. Securities lending transactions collateralized by securities that the WSIB does not have the ability to pledge or sell unless the borrower defaults are not reported as assets and liabilities.

Securities (consisting of fixed income and equities) were loaned and collateralized by the WSIB's agent with cash and U.S. government securities (exclusive of mortgage backed securities and letters of credit), and irrevocable letters of credit. When the loaned securities had collateral denominated in the same currency, the collateral requirement was 102% of the fair value, including accrued interest, of the securities loaned. All other securities were required to be collateralized at 105% of the fair value, including accrued interest, of the loaned securities.

Credit Risk: The WSIB mitigates credit risk in securities lending with a policy that strictly limits the types of collateral that may be used to secure these transactions.

Custodial Credit Risk: At June 30, 2010, the fair value of securities on loan was \$3,851.2 million. The corresponding collateral held totalled \$3,962.1 million. At year-end, since the amounts that the Retirement Funds owed the borrowers exceeded the amounts the borrowers owed the Retirement Funds, there was no credit risk exposure.

During Fiscal Year 2010, securities lending transactions could be terminated on demand by either the WSIB or the borrower. The weighted average maturity of loans for Fiscal Year 2010 was 2.2 days.

Cash collateral was invested by the WSIB's agents in the WSIB's separately managed short term investment pool (average final maturity of 30 days). Because the securities lending agreements were terminable at will, their duration did not generally match the duration of the investments made with the cash collateral. Non-cash collateral could not be pledged or sold absent borrower default. Accordingly, non-cash collateral held under securities lending contracts with a value of \$303.0 million has not been included in the Statement of Plan Net Assets. There are no restrictions on the amount of securities that can be lent.

Securities were lent with the agreement that they would be returned in the future for exchange of the collateral. JPM indemnified the WSIB by agreeing to purchase replacement securities or return the cash collateral in the event a borrower failed to return the loaned securities or pay distributions thereon. JPM's responsibilities included performing appropriate borrower and collateral investment credit analyses, demanding adequate types and levels of collateral, and complying with applicable federal regulations concerning securities lending.

During Fiscal Year 2010, there were no significant violations of legal or contractual provisions nor failures by any borrowers to return loaned securities or to pay distributions thereon. Further, the Retirement Funds incurred no losses during Fiscal Year 2010.

resulting from a default by either the borrowers or the securities lending agents.

OST—Statute authorizes the OST to buy and sell the following types of instruments: U.S. Government and Agency securities, bankers' acceptances, commercial paper, and deposits with qualified public depositaries. Securities underlying repurchase and reverse repurchase agreements are limited to those stated above.

The OST has statutory authority to lend its securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. The OST contracted with a third party securities lending agent, Union Bank (UB), to lend the U.S. Government and Agency securities portfolio. The agent lends securities for collateral in the form of cash or other securities at 102 percent of the loaned securities value. The collateral for the loans is maintained at 102 percent. On June 30, 2010, there were no repurchase agreements outstanding.

State law also permits OST to enter into reverse repurchase agreements, that is, a sale of securities with a simultaneous agreement to repurchase them in the future at the same price plus a contract rate of interest. The fair value of the securities underlying reverse repurchase agreements normally exceeds the cash received, providing the dealers margin against a decline in the fair value of the securities. If the dealers default on their obligations to resell these securities to the OST or provide securities or cash of equal value, the Retirement Funds would suffer an economic loss equal to the difference between the fair value plus accrued interest of the underlying securities and the agreement obligation, including accrued interest. The OST generally does not match maturities. Securities purchased from proceeds of reverse repurchase agreements are not used to liquidate the agreements. During Fiscal Year 2010, the OST incurred no losses by default, nor recovered prior period losses, from these transactions. At June 30, 2010, there were no obligations under reverse repurchase agreements.

Credit Risk: The OST limits its credit risk with an investment policy that restricts the types of investments in which the OST can participate. Additionally, the OST investment policy requires that any securities on loan be made available by the lending agent for next day liquidity at the option of the OST. The contract with the agent requires it to indemnify the OST if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or if the borrower fails to pay OST for income distributions by the securities' issuers while the securities are on loan.

All securities loans can be terminated on demand by either the OST or the borrower. Cash collateral is invested in accordance with the investment guidelines approved by the OST. The OST cannot pledge or sell collateral securities received unless the borrower defaults. Generally, the maturity of the securities on loan is matched with the term of the investment of the cash collateral. The OST did not participate in securities lending transactions during Fiscal Year 2010. As a result, on June 30, 2010, the OST had no securities on loan.

Custodial Credit Risk: The OST investment policy requires that securities purchased be held by the master custodian, acting as an independent third party, in its safekeeping or trust department. Securities accepted as collateral for repurchase agreements are subject to additional restrictions. These restrictions are designed to limit the OST's exposure to risk and ensure the safety of the investment.

During Fiscal Year 2010, there were no violations of legal or contractual provisions nor any losses resulting from a default by either the borrowers or the securities lending agent.

Derivatives: Derivative management responsibilities as authorized by statute are as follows:

WSIB – is authorized to utilize various derivative financial instruments, including mortgage-backed securities, financial futures, forward contracts,

interest rate swaps, credit default swaps, equity swaps and options. Derivative transactions involve, to varying degrees, market and credit risk. In connection with the international and domestic active equity strategy, at June 30, 2010, the Retirement Funds held investments in financial futures, forward currency contracts and other derivative securities that are recorded at fair value with changes in value recognized in investment income in the Statement of Changes in Plan Net Assets in the period of change.

Derivatives are generally used to achieve the desired market exposure of a security, index or currency, adjust portfolio duration, or rebalance the total portfolio to the target asset allocation. Derivative contracts are instruments that derive their value from underlying assets, indices, reference interest rates, or a combination of these factors. A derivative instrument could be a contract negotiated on behalf of the Retirement Funds and a specific counterparty. This would typically be referred to as an “over the counter (OTC) contract” such as forward contracts and to be announced (TBA) securities. Alternatively, a derivative instrument, such as futures, could be listed and traded on an exchange and referred to as “exchange traded”.

Inherent in the use of OTC derivatives, the Retirement Funds are exposed to counterparty credit risk on all open OTC positions. Counterparty credit risk is the risk that a derivative counterparty may fail to meet its payment obligation under the derivative contract. As of June 30, 2010, the Retirement Funds’ counterparty risk was not deemed to be significant, whether evaluating counterparty exposure outright or netting collateral against net assets positions on contracts with each counterparty.

Mortgage TBAs are used to achieve the desired market exposure of a security or asset class or adjust portfolio duration. A TBA is a contract for the purchase or sale of agency mortgage-backed securities to be delivered at a future agreed-upon date. TBAs carry future settlement risk due to the possibility of not receiving the asset or associated gains specified in the

contract. Such loss upon failure by counterparties to deliver under contracts would not be material at June 30, 2010. The fair value of TBA derivatives is included in residential mortgage-backed securities on page 40.

Futures contracts are standardized, exchange-traded contracts to purchase or sell a specific financial instrument at a predetermined price. Gains and losses on futures contracts are settled daily based on a notional (underlying) principal value and do not involve an actual transfer of the specific instrument. The exchange assumes the risk that the counterparty will not pay and generally requires margin payments to minimize such risk. Futures are generally used to achieve the desired market exposure of a security or index or rebalance the total portfolio.

Forward currency contracts are agreements to exchange the currency of one country for the currency of another country at an agreed-upon price and settlement date. These forward commitments are not standardized and carry credit risk due to the possible nonperformance by one of the counterparties. The maximum potential loss is the aggregate face value in U.S. dollars at the time the contract was opened; however, the likelihood of such loss is remote. At June 30, 2010, the Retirement Funds had outstanding forward currency contracts to purchase foreign currencies with a fair value of \$1,631.0 million and outstanding contracts to sell foreign currencies with a fair value of \$1,629.2 million included within the Investment Trades Pending payable and receivable categories in the accompanying Statement of Plan Net Assets. The net unrealized loss of \$1.79 million is included within the Net Appreciation (Depreciation) in Fair Value of Investments category in the accompanying Statement of Changes in Plan Net Assets. The contracts have varying maturity dates ranging from July 1, 2010 to November 10, 2010.

At June 30, 2010, the Retirement Funds’ fixed income portfolio held derivative securities consisting of collateralized mortgage obligations of \$1,077.9

million. Domestic and foreign passive equity index fund managers may also utilize various derivative securities to manage exposure to risk and increase portfolio returns. Information on the extent of use and holdings of derivative securities by passive equity index fund managers is unavailable.

Derivatives which are exchange traded are not subject to credit risk. The maximum loss that would be recognized at June 30, 2010, if all counterparties fail to perform as contracted is \$1.81 million of unrealized gain on TBA securities. This maximum exposure is reduced by \$1.79 million of unrealized losses (recorded as liabilities) on forward currency contracts, resulting in *de minimis* exposure to credit risk. At June 30, 2010, the counterparties' credit ratings for forward currency contracts that are subject to credit risk had a credit rating of no less than A2 using the Moody's rating scale.

The following schedule presents the significant terms for derivatives held as investments by WSIB:

	Changes in Fair Value	Fair Value at June 30, 2010	
	Amount	Amount	Notional
	(expressed in thousands)

Total	<u>\$ 4,039</u>	<u>\$ (1,790)</u>	<u>\$ 4,818,568</u>

Certain investment types in DRS' portfolio cannot be categorized within the guidelines established by GASB Statement Number 3. These investments total approximately \$49.5 billion in both carrying value and fair value.

OST – The OST did not engage in derivative transactions during Fiscal Year 2010.

Management Fees: The fees paid by the WSIB are accounted for as a reduction of investment income to the trust funds. These fees include investment management fees and commissions, investment

consultant fees and legal fees. As of June 30, 2010, total investment management fees were \$226.2 million. For a detailed disclosure, refer to the Schedule of Investment Expenses in the Supporting Schedules of the Financial Section of this report.

Unfunded Commitments: The WSIB has entered into agreements that commit the DRS pension funds, upon request, to make additional investment purchases up to a predetermined amount. As of June 30, 2010, the Retirement Funds had the following unfunded investment commitments in millions of dollars:

Private Equity Partnerships	\$7,571.8
Real Estate	\$7,369.4
Tangible Assets	\$480.8

H. Reserves

Member Reserves: The member reserves reflect the total liability for all contributions made by members. These reserves are increased by employee contributions and interest earnings and are decreased by contributions refunded and contributions transferred to the benefit reserves for current year retirees. The member reserves are considered fully funded.

Because the PERS Plan 3, SERS Plan 3 and TRS Plan 3 defined contribution plans each offer two separate investment programs to members, DRS is required to maintain two separate member reserves for each defined contribution plan. The “PERS Plan 3—WSIB,” “SERS Plan 3—WSIB” and “TRS Plan 3—WSIB” reserves account for members who participate in the investment programs offered by the Washington State Investment Board (WSIB). The “PERS Plan 3—SELF,” “SERS Plan 3—SELF” and “TRS Plan 3—SELF” reserves account for members who participate in the self-directed investment offerings previously established by the Employee Retirement Benefits Board (ERBB).

Member reserves as of June 30, 2010 and 2009 are as follows:

	June 30, 2010	June 30, 2009
(expressed in thousands)		
PERS Plan 1	\$ 1,042,297	\$ 1,123,509

Judges	—	—
Total Member Reserves	\$ 15,793,329	\$ 14,481,862

Benefit Reserves: The benefit reserves reflect the funded liability associated with all retired members of DRS administered systems. These reserves are increased by employer contributions, state contributions, investment earnings, and employee contributions which are attributable to current year retirees. These reserves are decreased by the amounts of pensions actually paid in the current year, interest payments transferred to the member reserves, and administrative expenses in support of the trust funds.

Benefit reserves as of June 30, 2010 and 2009 are as follows:

	June 30, 2010	June 30, 2009
(expressed in thousands)		
PERS Plan 1	\$ 6,581,534	\$ 6,441,632
PERS Plan 2/3	11,479,178	9,609,786
SERS Plan 2/3	1,913,246	1,634,651
PSERS Plan 2	41,840	21,392
TRS Plan 1	5,693,001	5,533,611
TRS Plan 2/3	5,051,396	4,317,287
LEOFF Plan 1	4,534,925	4,298,667
LEOFF Plan 2	3,376,726	2,766,301
WSPRS Plan 1/2	689,825	628,554
JRS	1,626	(1,837)
Judges	2,812	3,250
Total Benefit Reserves	\$ 39,366,109	\$ 35,253,294

The funded status of each of the benefit reserves is the same as the funded status of each of the respective pension plans. The funded status of the pension plans is shown in the Solvency Test schedules in the Actuarial Section of this report.

I. Capital Assets

All capital assets with a unit cost (including ancillary costs) of \$5,000 or greater are capitalized and reported in the accompanying financial statements. Capital leases with a net present value or fair market value, whichever is less, of \$10,000 or more are capitalized and also included in these financial statements. All purchased capital assets are valued at cost where historical records exist. Donated capital assets are valued at their estimated fair market value on the date of donation. Where necessary, estimates of original cost and fair market value are derived by factoring price levels from the current period to the time of acquisition.

Capital asset costs include the purchase price or construction cost, plus those costs necessary to place the asset in its intended location and condition for use. Normal maintenance and repair costs that do not materially add to the value or extend the life of the asset are not capitalized.

Depreciation is calculated using the straight-line method with estimated useful lives of 5 to 50 years for buildings, and 3 to 50 years for furnishings and equipment, other improvements and miscellaneous capital assets.

Following is a summary of changes in capital assets for Fiscal Year 2010:

Assets	Beginning Balance	Acquisition/ Increase Depreciation	Disposal	Ending Balance
(amounts expressed in thousands)				
Improvements				
Other Than Buildings	\$ 634	\$ —	\$ —	\$ 634
Furnishings & Equipment	1,991	299	(15)	2,275
Accumulated Depreciation	(2,242)	(221)	15	(2,448)
Total	\$ 383	\$ 78	\$ —	\$ 461

J. Leases

DRS leases land, office facilities, office and computer equipment. Lease terms vary. Leases are considered non-cancelable for financial reporting purposes. All DRS leases are classified as operating leases with the lease payments recorded as expenditures or expenses during the life of the lease. Certain operating leases are renewable for specified periods. In most cases, management expects that the leases will be renewed or replaced by other leases.

The following schedule presents future minimum payments for operating leases as of June 30, 2010:

Operating Leases		
(expressed in thousands)		
By Fiscal Year:	2011	\$ 1,557
	2012	1,470
	2013	1,344
	2014	1,400
	2015	1,548
	2016 and beyond	5,677
Total Future Minimum Payments		<u>\$12,996</u>

The total operating lease rental expenditure for Fiscal year 2010 was \$1.6 million.

K. Other Long-Term Obligations

Annual leave: DRS employees accrue annual leave at a variable rate based on years of service. In general, accrued annual leave cannot exceed 30 days at the employee's anniversary date. The expense and accrued liability is recognized when the annual leave is earned. DRS' liability for accumulated annual leave was \$1.0 million as of June 30, 2010.

Sick leave: Employees accrue sick leave at the rate of one day per month without limitation on the amount that can be accumulated. Sick leave is not vested; i.e. the department does not pay employees for unused sick leave upon termination except upon employee death or retirement, at which time DRS is liable for 25 percent of the employee's accumulated sick leave. In addition, the department has a "sick leave buyout option" in which each January, employees who accumulate sick leave in excess of 60 days may redeem sick leave earned but not taken during the previous year at the rate of one day's pay in exchange for each four days of sick leave. The expense and accrued liability is recognized when the sick leave is earned. DRS' liability for accumulated sick leave was \$0.4 million as of June 30, 2010.

Following is a summary of changes in compensated absences for the fiduciary funds for Fiscal Year 2010:

Compensated Absences	Beginning Balance	Additions	Deletions	Ending Balance
(amounts expressed in thousands)				
Annual Leave	\$ 964	\$ 1,049	\$ (1,026)	\$ 987
Sick Leave	440	148	(188)	400
Total	\$ 1,404	\$ 1,197	\$ (1,214)	\$ 1,387

L. Transfers

Transfers from and to other pension plans, as reported in the financial statements, typically reflect routine transfers among the various trust funds resulting from plan membership changes and member-directed defined contribution plan

selections. In Fiscal Year 2010, these transfers totaled \$19.9 million and represented an increase of \$11.3 million over the previous year. This increase was largely the result of the passage of SB5303 (Chapter 209, Laws of 2009). This bill allowed SERS Plan 2 members who had previously had service credit automatically transferred out of PERS Plan 2 into SERS Plan 2 after September 1, 2000, to reverse their automatic transfers back into PERS Plan 2. These transfers made up fully \$7.7 million of the increase in Fiscal Year 2010, with the remaining \$3.6 million representing normal transfer activity among the pension plans.

Transfers to other funds totaled \$1.0 million in Fiscal Year 2010 and represented an operating state budget transfer into the State General Fund (Chapter 37, Laws of 2010).

M. Accounting and Reporting Changes -- Reclassification

Certain items previously reported in the financial statements have been reclassified to conform to the current financial statement presentation.

N. Contingencies--Litigation

As a state agency, DRS is party to legal proceedings that normally occur in governmental operations. There are pending legal actions involving DRS. For each pending legal action, DRS has good defenses and will continue to vigorously defend each case.

In the case of *WEA, et al., v. Dept. of Retirement Systems & State of Washington*, King County Superior Court No. 07-2-17203-3 SEA, plaintiffs challenge the 2007 Legislature's repeal of gainsharing and the repeal of replacement benefits if gainsharing is restored. Three cases were filed in King County Superior Court and have been consolidated into one case. The case is brought as a class action.

The superior court has preliminarily ruled for the plaintiffs on the issue of the repeal of gainsharing after hearing partial summary judgment arguments

in July 2010. The parties are discussing next steps in the litigation.

Plaintiffs do not request damages. Instead, they ask for the return of gainsharing and they ask that they retain the benefits that were enacted by the Legislature to replace gainsharing.

The management of DRS is unable to estimate the potential loss should the State defendants ultimately be unsuccessful in this litigation.

NOTE 2: GENERAL DESCRIPTION OF THE RETIREMENT SYSTEMS

A. General

The Department of Retirement Systems (DRS) administers retirement systems covering eligible employees of the state and local governments. The state Legislature establishes laws pertaining to the creation and administration of all public retirement systems, and the Governor appoints the Director of DRS to manage the systems. Information pertinent to each system is provided later in this section.

Administration of the PERS, SERS, PSERS, TRS, LEOFF and WSPRS systems and plans was funded by an employer rate of .16 percent of employee salaries. Administration of the JRS and Judges' plans was funded by means of legislative appropriations.

As established in the Revised Code of Washington (RCW) chapter 41.50, DRS administers eight retirement systems comprising of 12 defined benefit pension plans and three combination defined benefit/defined contribution plans as follows:

Public Employees' Retirement System (PERS)

- Plan 1—defined benefit
- Plan 2—defined benefit
- Plan 3—defined benefit/defined contribution

School Employees' Retirement System (SERS)

- Plan 2—defined benefit
- Plan 3—defined benefit/defined contribution

Public Safety Employees' Retirement System (PSERS)

- Plan 2—defined benefit

Teachers' Retirement System (TRS)

- Plan 1—defined benefit
- Plan 2—defined benefit
- Plan 3—defined benefit/defined contribution

Law Enforcement Officers' and Fire Fighters' Retirement System (LEOFF)

- Plan 1—defined benefit
- Plan 2—defined benefit

Washington State Patrol Retirement System (WSPRS)

- Plan 1—defined benefit
- Plan 2—defined benefit

Judicial Retirement System (JRS)

- Defined benefit

Judges' Retirement Fund (Judges)

- Defined benefit

Number of Participating Members

Plan	Retirees and Beneficiaries Receiving Benefits	Terminated Members Entitled to But Not Yet Receiving Benefits	Active Plan Members Vested	Active Plan Members Nonvested	Total

Employers can participate in multiple systems and/or plans. The actual total number of participating employers as of June 30, 2010 is 1,315.
For a listing of the covered employers, refer to the Statistical Section of this report.

B. Plan Descriptions

Public Employees' Retirement System (PERS):

The Legislature established PERS in 1947. Membership in the system includes: elected officials; state employees; employees of the Supreme, Appeals, and Superior Courts (other than judges currently in a judicial retirement system); employees of legislative committees; community and technical colleges, college and university employees not participating in national higher education retirement programs; judges of district and municipal courts; and employees of local governments. Approximately 50 percent of PERS salaries are accounted for by state employment. PERS retirement benefit provisions are established in chapters 41.34 and 41.40 RCW and may be amended only by the state Legislature.

PERS is a cost-sharing multiple employer retirement system comprised of three separate plans for membership purposes: Plans 1 and 2 are defined benefit plans and Plan 3 is a defined benefit plan with a defined contribution component. PERS members who joined the system by September 30, 1977 are Plan 1 members. Those who joined on or after October 1, 1977 and by either, February 28, 2002 for state and higher education employees, or August 31, 2002 for local government employees, are Plan 2 members unless they exercise an option to transfer their membership to Plan 3. PERS members joining the system on or after March 1, 2002 for state and higher education employees, or September 1, 2002 for local government employees have the irrevocable option of choosing membership in either PERS Plan 2 or PERS Plan 3. The option must be exercised within 90 days of employment. An employee is reported in Plan 2 until a choice is made. Employees who fail to choose within 90 days default to PERS Plan 3. Notwithstanding, PERS Plan 2 and Plan 3 members may opt out of plan membership if terminally ill, with less than five years to live.

PERS is comprised of and reported as three separate plans for accounting purposes: Plan 1, Plan 2/3, and Plan 3. Plan 1 accounts for the defined benefits of

Plan 1 members. Plan 2/3 accounts for the defined benefits of Plan 2 members and the defined benefit portion of benefits for Plan 3 members. Plan 3 accounts for the defined contribution portion of benefits for Plan 3 members. Although members can only be a member of either Plan 2 or Plan 3, the defined benefit portions of Plan 2 and Plan 3 are accounted for in the same pension trust fund. All assets of this Plan 2/3 defined benefit plan may legally be used to pay the defined benefits of any of the Plan 2 or Plan 3 members or beneficiaries, as defined by the terms of the plan. Therefore, Plan 2/3 is considered to be a single plan for accounting purposes.

PERS Plan 1 and Plan 2 defined benefit retirement benefits are financed from a combination of investment earnings and employer and employee contributions. PERS Plan 3 defined benefits are financed by employer contributions and investment earnings. Employee contributions to the PERS Plan 1 and 2 defined benefit plans accrue interest at a rate specified by DRS. During Fiscal Year 2010, the DRS-established rate on employee contributions was five and one-half percent compounded quarterly. Employees in PERS Plan 1 and 2 can elect to withdraw total employee contributions and interest thereon upon separation from PERS-covered employment.

PERS Plan 3 defined contribution benefits are financed from employee contributions and investment earnings. Employees in PERS Plan 3 can elect to withdraw total employee contributions adjusted by earnings and losses from the investment of those contributions upon separation from PERS-covered employment.

PERS Plan 1 members are vested after the completion of five years of eligible service. Plan 1 members are eligible for retirement after 30 years of service, or at the age of 60 with five years of service, or at the age of 55 with 25 years of service. The monthly benefit is two percent of the average final compensation (AFC) per year of service. AFC is the monthly average of the 24 consecutive highest-paid service credit months. The retirement benefit may not exceed 60% of AFC.

The monthly benefit is subject to a minimum for PERS Plan 1 retirees who have 25 years of service and have been retired 20 years, or who have 20 years of service and have been retired 25 years. Plan 1 members retiring from inactive status prior to the age of 65 may receive actuarially reduced benefits. If a survivor option is chosen, the benefit is further reduced. A cost-of-living adjustment (COLA) is granted at age 66 based upon years of service times the COLA amount, which is increased three percent annually. Plan 1 members may also elect to receive an optional COLA that provides an automatic annual adjustment based on the Consumer Price Index. The adjustment is capped at three percent annually. To offset the cost of this annual adjustment, the benefit is reduced.

PERS Plan 1 provides duty and non-duty disability benefits. Duty disability retirement benefits for disablement prior to the age of 60 consist of a temporary life annuity payable to the age of 60. The allowance amount is \$350 a month, or two-thirds of the monthly AFC, whichever is less. The benefit is reduced by any worker's compensation benefit and is payable as long as the member remains disabled or until the member attains the age of 60. A member with five years of covered employment is eligible for non-duty disability retirement. Prior to the age of 55, the allowance amount is two percent of the AFC for each year of service reduced by two percent for each year that the member's age is less than 55. The total benefit is limited to 60 percent of the AFC and is actuarially reduced to reflect the choice of a survivor option. A cost-of-living allowance is granted at age 66 based upon years of service times the COLA amount which is set at three percent annually. Plan 1 members may also elect to receive an optional COLA amount (based on the Consumer Price Index), capped at three percent annually. To offset the cost of this annual adjustment, the benefit is reduced.

PERS Plan 1 members can receive credit for military service while actively serving in the military, if such credit makes them eligible to retire. Members can also purchase up to 24 months of service credit lost because of an on-the-job injury.

PERS Plan 2 members are vested after the completion of five years of eligible service. Plan 2 members are eligible for normal retirement at the age of 65 with five years of service. The monthly benefit is two percent of the AFC per year of service. AFC is the monthly average of the 60 consecutive highest-paid service months.

PERS Plan 2 members who have at least 20 years of service credit and are 55 years of age or older are eligible for early retirement with a reduced benefit. The benefit is reduced by an early retirement factor (ERF) that varies according to age, for each year before age 65.

PERS Plan 2 members who have 30 or more years of service credit and are at least 55 years old, can retire under one of two provisions:

- With a benefit that is reduced by three percent for each year before age 65; or
- With a benefit that has a smaller (or no) reduction (depending on age) that imposes stricter return-to-work rules.

PERS Plan 2 retirement benefits are also actuarially reduced to reflect the choice, if made, of a survivor option. There is no cap on years of service credit; and a cost-of-living allowance is granted (based on the Consumer Price Index), capped at three percent annually.

The surviving spouse or eligible child or children of a PERS Plan 2 member who dies after leaving eligible employment having earned ten years of service credit may request a refund of the member's accumulated contributions. Effective July 22, 2007, said refund (adjusted as needed for specified legal reductions) is increased from 100 to 200 percent of the accumulated contributions if the member's death occurs in the uniformed service to the United States while participating in *Operation Enduring Freedom* or *Persian Gulf*, *Operation Iraqi Freedom*.

PERS Plan 3 has a dual benefit structure. Employer contributions finance a defined benefit component, and member contributions finance a defined

contribution component. The defined benefit portion provides a monthly benefit that is one percent of the AFC per year of service. AFC is the monthly average of the 60 consecutive highest-paid service months.

Effective June 7, 2006, PERS Plan 3 members are vested in the defined benefit portion of their plan after ten years of service; or after five years of service if 12 months of that service are earned after age 44; or after five service credit years earned in PERS Plan 2 by June 1, 2003. Plan 3 members are immediately vested in the defined contribution portion of their plan.

Vested Plan 3 members are eligible for normal retirement at age 65, or they may retire early with the following conditions and benefits:

- If they have at least ten service credit years and are 55 years old, the benefit is reduced by an ERF that varies with age, for each year before age 65;
- If they have 30 service credit years and are at least 55 years old, they have the choice of a benefit that is reduced by three percent for each year before age 65; or a benefit with a smaller (or no) reduction factor (depending on age) that imposes stricter return-to work rules.

PERS Plan 3 benefits are also actuarially reduced to reflect the choice, if made, of a survivor option. There is no cap on years of service credit; and Plan 3 provides the same cost-of-living allowance as Plan 2. See section E of Note 2 for a description of the defined contribution component of PERS Plan 3.

PERS Plan 2 and Plan 3 provide disability benefits. There is no minimum amount of service credit required for eligibility. The Plan 2 monthly benefit amount is two percent of the AFC per year of service. For Plan 3, the monthly benefit amount is one percent of the AFC per year of service.

These disability benefit amounts are actuarially reduced for each year that the member's age is less than 65, and to reflect the choice of a survivor

option. There is no cap on years of service credit, and a cost-of-living allowance is granted (based on the Consumer Price Index), capped at three percent annually.

PERS Plan 2 and Plan 3 members may have up to ten years of interruptive military service credit; five years at no cost, and five years that may be purchased by paying the required contributions. Effective July 24, 2005, a member who becomes totally incapacitated for continued employment while serving in the uniformed services, or a surviving spouse or eligible children, may apply for interruptive military service credit. Additionally, PERS Plan 2 and Plan 3 members can also purchase up to 24 months of service credit lost because of an on-the-job injury.

PERS members may also purchase up to five years of additional service credit once eligible for retirement. This credit can only be purchased at the time of retirement and can be used only to provide the member with a monthly annuity that is paid in addition to the member's retirement benefit.

Beneficiaries of a PERS Plan 2 or Plan 3 member with ten years of service who is killed in the course of employment receive retirement benefits without actuarial reduction, if the member was not at normal retirement age at death. This provision applies to any member killed in the course of employment, on or after June 10, 2004, if found eligible by the Director of the Department of Labor and Industries.

A one-time duty-related death benefit is provided to the estate (or duly designated nominee) of a PERS member who dies in the line of service as a result of injuries sustained in the course of employment, or if the death resulted from an occupational disease or infection that arose naturally and proximately out of said member's covered employment, if found eligible by the Department of Labor and Industries.

From January 1, 2007 through December 31, 2007, judicial members of PERS were given the choice to participate in the Judicial Benefit Multiplier (JBM) Program enacted in 2006. Justices and judges in PERS Plan 1 and Plan 2 were able to make a one-time

irrevocable election to pay increased contributions that would fund a retirement benefit with a three and one-half percent multiplier. The benefit would be capped at 75% of average final compensation. Judges in PERS Plan 3 could elect a one and six-tenths percent of pay per year of service benefit, capped at 37.5% of AFC.

Members who chose to participate would:

- Accrue service credit at the higher multiplier beginning with the date of their election.
- Be subject to the benefit cap of 75% of AFC.
- Stop contributing to the Judicial Retirement Account (JRA).
- Pay higher contributions.
- Be given the option to increase the multiplier on past judicial service.

Members who did not choose to participate would:

- Continue to accrue service credit at the regular multiplier (i.e., one, two or three percent).
- Continue to participate in JRA, if applicable.
- Never be a participant in the JBM Program.
- Continue to pay contributions at the regular PERS rate.

Newly elected or appointed justices and judges who chose to become PERS members on or after January 1, 2007, or who had not previously opted into PERS membership, were required to participate in the JBM Program. Members required into the JBM program would:

- Return to prior PERS Plan if membership had previously been established.
- Be mandated into Plan 2 and not have a Plan 3 transfer choice, if a new PERS member.
- Accrue the higher multiplier for all judicial service.
- Not contribute to JRA.
- Not have the option to increase the multiplier for past judicial service.

Changes to the PERS plans resulting from recent years' legislation can be found on the table immediately following this section on pages 66 and 67. Besides those included in the table, there were no other material changes in PERS benefit provisions for the Fiscal Year ended June 30, 2010.

School Employees' Retirement System (SERS): The Legislature created SERS in 1998 to be effective in 2000. Membership in the system includes classified employees of school districts or educational service districts. SERS is comprised principally of non-state-agency employees. SERS retirement benefit provisions are established in chapters 41.34 and 41.35 RCW and may be amended only by the state Legislature.

SERS is a cost-sharing multiple-employer retirement system comprised of two separate plans for membership purposes: Plan 2 is a defined benefit plan and Plan 3 is a defined benefit plan with a defined contribution component. As of September 1, 2000, the membership of classified school employees in PERS Plan 2 was transferred to SERS Plan 2. Those who joined on or after October 1, 1977 and by August 31, 2000 are SERS Plan 2 members unless they exercised an option to transfer their membership to Plan 3. Until June 30, 2007, SERS members joining the system on or after September 1, 2000, and those who exercised their transfer option, became members of SERS Plan 3. Legislation passed in 2007 now gives SERS members hired on or after July 1, 2007 ninety days to make an irrevocable choice to become a member of either SERS Plan 2 or Plan 3. At the end of the ninety days, any member who has not chosen either Plan 2 or Plan 3 membership, becomes a member of Plan 3. Notwithstanding, SERS Plan 2 and Plan 3 members may opt out of plan membership if terminally ill, with less than five years to live.

SERS is comprised of and reported as two separate plans for accounting purposes: Plan 2/3 and Plan 3. Plan 2/3 accounts for the defined benefits of Plan 2 members and the defined benefit portion of benefits

for Plan 3 members. Plan 3 accounts for the defined contribution portion of benefits for Plan 3 members. Although members can only be a member of either Plan 2 or Plan 3, the defined benefit portions of Plan 2 and Plan 3 are accounted for in the same pension trust fund. All assets of this Plan 2/3 defined benefit plan may legally be used to pay the defined benefits of any of the Plan 2 or Plan 3 members or beneficiaries, as defined by the terms of the plan. Therefore, Plan 2/3 is considered to be a single plan for accounting purposes.

SERS Plan 2 defined benefit retirement benefits are financed from a combination of investment earnings and employer and employee contributions. Employee contributions to the SERS Plan 2 defined benefit plan accrue interest at a rate specified by DRS. During Fiscal Year 2010, the DRS-established rate on employee contributions was five and one-half percent compounded quarterly. Members in SERS Plan 2 can elect to withdraw total employee contributions and interest thereon upon separation from SERS-covered employment.

SERS Plan 2 members are vested after the completion of five years of eligible service. Plan 2 members are eligible for normal retirement at the age of 65 with five years of service. The monthly benefit is two percent of the average final compensation (AFC) per year of service. AFC is the monthly average of the 60 consecutive highest-paid service credit months.

SERS Plan 2 members who have at least 20 years of service credit and are 55 years of age or older are eligible for early retirement with a reduced benefit. The benefit is reduced by an early retirement factor (ERF) that varies according to age, for each year before age 65.

SERS Plan 2 members who have 30 service credit years and are at least 55 years old can retire under one of two provisions:

- With a benefit that is reduced by three percent for each year before age 65; or

- With a benefit that has a smaller (or no) reduction (depending on age) that imposes stricter return-to-work rules.

SERS Plan 2 retirement benefits are also actuarially reduced to reflect the choice, if made, of a survivor option. There is no cap on years of service credit; and a cost-of-living allowance is granted (based on the Consumer Price Index), capped at three percent annually.

SERS Plan 3 has a dual benefit structure. Employer contributions finance a defined benefit component, and member contributions finance a defined contribution component. The defined benefit portion provides a monthly benefit that is one percent of the AFC per year of service. AFC is the monthly average of the 60 consecutive highest-paid service credit months.

SERS Plan 3 defined contribution benefits are financed from employee contributions and investment earnings. Employees in SERS Plan 3 can elect to withdraw total employee contributions adjusted by earnings and losses from the investment of those contributions upon separation from SERS-covered employment.

Effective June 7, 2006, SERS Plan 3 members are vested in the defined benefit portion of their plan after ten years of service; or after five years of service if 12 months of that service are earned after age 44; or after five service credit years earned in PERS Plan 2 by September 1, 2000. Plan 3 members are immediately vested in the defined contribution portion of their plan.

Vested SERS Plan 3 members are eligible for normal retirement at age 65, or they may retire early with the following conditions and benefits:

- If they have at least ten service credit years and are 55 years old, the benefit is reduced by an ERF that varies according to age, for each year before age 65;

- If they have 30 service credit years and are at least 55 years old, they have the choice of a benefit that is reduced by three percent for each year before age 65; or a benefit with a smaller (or no) reduction factor (depending on age) that imposes stricter return-to-work rules.

SERS Plan 3 retirement benefits are also actuarially reduced to reflect the choice, if made, of a survivor option. There is no cap on years of service credit; and Plan 3 provides the same cost-of-living allowance as Plan 2. See section E of Note 2 for a description of the defined contribution component of SERS Plan 3.

SERS Plan 2 and Plan 3 provide disability benefits. There is no minimum amount of service credit required for eligibility. The Plan 2 monthly benefit amount is two percent of the AFC per year of service. For Plan 3, the monthly benefit amount is one percent of the AFC per year of service. These disability benefit amounts are actuarially reduced for each year that the member's age is less than 65, and to reflect the choice of a survivor option.

SERS Plan 2 and Plan 3 members may have up to ten years of interruptive military service credit; five years at no cost, and five years that may be purchased by paying the required contributions. Additionally, SERS members who become totally incapacitated for continued employment while serving in the uniformed services, may apply for interruptive military service credit. Should any such member die during this active duty, the member's surviving spouse or eligible child(ren) may purchase service credit on behalf of the deceased member.

SERS members may purchase up to 24 consecutive months of service credit for each period of temporary duty disability. SERS members may also purchase up to five years of additional service credit once eligible for retirement. This latter credit can only be purchased at the time of retirement and can be used only to provide the member with a monthly annuity that is paid in addition to the member's retirement allowance.

Beneficiaries of a SERS Plan 2 or Plan 3 member with ten years of service who is killed in the course of employment receive retirement benefits without actuarial reduction, if the member was not at normal retirement age at death. This provision applies to any member killed in the course of employment, on or after June 10, 2004, if found eligible by the Director of the Department of Labor and Industries.

A one-time duty-related death benefit is provided to the estate (or duly designated nominee) of a SERS member who dies in the line of service as a result of injuries sustained in the course of employment, or if the death resulted from an occupational disease or infection that arose naturally and proximately out of said member's covered employment, if found eligible by the Department of Labor and Industries.

Changes to the SERS plans resulting from recent years' legislation can be found on the table immediately following this section on pages 66 and 67. Besides those included in the table, there were no other material changes in SERS benefit provisions for the Fiscal Year ended June 30, 2010.

Public Safety Employees' Retirement System (PSERS): PSERS was created by the 2004 legislature and became effective July 1, 2006. PSERS retirement benefit provisions have been established by chapter 41.37 RCW and may be amended only by the state Legislature.

PSERS is a cost-sharing multiple-employer retirement system comprised of a single defined benefit plan, PSERS Plan 2.

PSERS Plan 2 membership includes:

- full-time employees of a covered employer on or before July 1, 2006, who met at least one of the PSERS eligibility criteria and elected membership during the election period of July 1, 2006 to September 30, 2006; and
- full-time employees, hired on or after July 1, 2006 by a covered employer, that meet at least one of the PSERS eligibility criteria.

A “covered employer” is one that participates in PSERS. Covered employers include:

- State of Washington agencies: Department of Corrections, Gambling Commission, Liquor Control Board, Parks and Recreation Commission, Washington State Patrol, and effective July 22, 2007, the Department of Natural Resources;
- Washington state counties; and
- Washington state cities except for Seattle, Tacoma and Spokane.

To be eligible for PSERS, an employee must work on a full time basis and:

- have completed a certified criminal justice training course with authority to arrest, conduct criminal investigations, enforce the criminal laws of Washington, and carry a firearm as part of the job; or
- have primary responsibility to ensure the custody and security of incarcerated or probationary individuals; or
- function as a limited authority Washington peace officer, as defined in RCW 10.93.020; or
- have primary responsibility to supervise eligible members who meet the above criteria.

PSERS defined benefit retirement benefits are financed from a combination of investment earnings and employer and employee contributions. Employee contributions to the PSERS Plan 2 defined benefit plan accrue interest at a rate specified by DRS. During Fiscal Year 2010, the DRS established rate on employee contributions was five and one-half percent compounded quarterly. Members in PSERS Plan 2 can elect to withdraw total employee contributions and interest thereon upon separation from PSERS-covered employment.

PSERS Plan 2 members are vested after completing five years of eligible service. PSERS Plan 2 members may retire at the age of 65 with five years of service,

or at the age of 60 with at least ten years of PSERS service credit, with an allowance of two percent of the average final compensation (AFC) per year of service. The AFC is the monthly average of the member’s 60 consecutive highest-paid service credit months, excluding any severance pay such as lump-sum payments for deferred sick leave, vacation or annual leave. Plan 2 members who retire prior to the age of 60 receive reduced benefits. If retirement is at age 53 or older with at least 20 years of service, a three percent per year reduction for each year between the age at retirement and age 60 applies. There is no cap on years of service credit; and a cost-of-living allowance is granted (based on the Consumer Price Index), capped at three percent annually.

PSERS Plan 2 provides disability benefits. There is no minimum amount of service credit required for eligibility. Eligibility is based on the member being totally incapacitated for continued employment with a PSERS employer and leaving that employment as a result of the disability. The disability allowance is two percent of the average final compensation (AFC) for each year of service. AFC is based on the member’s 60 consecutive highest creditable months of service. Service credit is the total years and months of service credit at the time the member separates from employment. Benefits are actuarially reduced for each year that the member’s age is less than 60 (with ten or more service credit years in PSERS), or less than 65 (with fewer than ten service credit years).

PSERS Plan 2 members can purchase service credit for military service that interrupts employment. Additionally, PSERS members who become totally incapacitated for continued employment while serving in the uniformed services, may apply for interruptive military service credit. Should any such member die during this active duty, the member’s surviving spouse or eligible child(ren) may purchase service credit on behalf of the deceased member.

PSERS members may also purchase up to 24 consecutive months of service credit for each period of temporary duty disability.

Beneficiaries of a PSERS Plan 2 member with ten years of service who is killed in the course of employment receive retirement benefits without actuarial reduction, if the member was not at normal retirement age at death. This provision applies to any member killed in the course of employment, if found eligible by the Director of the Department of Labor and Industries.

A one-time duty-related death benefit is provided to the estate (or duly designated nominee) of a PSERS member who dies as a result of injuries or illness sustained in the course of employment, if found eligible by the Department of Labor and Industries.

Changes to the PSERS plan resulting from recent years' legislation can be found on the table immediately following this section on pages 66 and 67. Besides those included in the table, there were no other material changes in PSERS benefit provisions for the Fiscal Year ended June 30, 2010.

Teachers' Retirement System (TRS): TRS was legislatively established in 1938. Eligibility for membership requires service as a certificated public school employee working in an instructional, administrative or supervisory capacity. TRS is comprised principally of non-state-agency employees. TRS retirement benefit provisions are established in chapters 41.32 and 41.34 RCW and may be amended only by the state Legislature.

TRS is a cost-sharing multiple-employer retirement system comprised of three separate plans for membership purposes: Plans 1 and 2 are defined benefit plans and Plan 3 is a defined benefit plan with a defined contribution component. TRS members who joined the system by September 30, 1977 are Plan 1 members. Those who joined on or after October 1, 1977 and by June 30, 1996 are Plan 2 members unless they exercised an option to transfer their membership to Plan 3. TRS members joining the system on or after July 1, 1996 through June 30, 2007 and those who exercised their transfer option, became members of TRS Plan 3. Legislation passed in 2007 now gives TRS members hired on or

after July 1, 2007 ninety days to make an irrevocable choice to become a member of either TRS Plan 2 or Plan 3. At the end of the ninety days, any member who has not chosen either Plan 2 or Plan 3 membership, becomes a member of Plan 3. Notwithstanding, TRS Plan 2 and Plan 3 members may opt out of plan membership if terminally ill, with less than five years to live.

TRS is comprised of three separate plans for accounting purposes: Plan 1, Plan 2/3, and Plan 3. Plan 1 accounts for the defined benefits of Plan 1 members. Plan 2/3 accounts for the defined benefits of Plan 2 members and the defined benefit portion of benefits for Plan 3 members. Plan 3 accounts for the defined contribution portion of benefits for Plan 3 members. Although members can only be a member of either Plan 2 or Plan 3, the defined benefit portions of Plan 2 and Plan 3 are accounted for in the same pension trust fund. All assets of this Plan 2/3 defined benefit plan may legally be used to pay the defined benefits of any of the Plan 2 or Plan 3 members or beneficiaries, as defined by the terms of the plan. Therefore, Plan 2/3 is considered to be a single plan for accounting purposes.

TRS defined benefit retirement benefits are financed from a combination of investment earnings and employer and employee contributions. Employee contributions to the TRS Plan 1 and Plan 2 defined benefit plans accrue interest at a rate specified by DRS. During Fiscal Year 2010, the DRS-established rate on employee contributions was five and one-half percent compounded quarterly. Members in TRS Plan 1 and Plan 2 can elect to withdraw total employee contributions and interest thereon upon separation from TRS-covered employment.

TRS Plan 3 defined contribution benefits are financed from employee contributions and investment earnings. Members in TRS Plan 3 can elect to withdraw total employee contributions adjusted by earnings and losses from the investment of those contributions upon separation from TRS-covered employment.

TRS Plan 1 members are vested after the completion of five years of eligible service. Plan 1 members are eligible for retirement at any age after 30 years of service, or at the age of 60 with five years of service, or at the age of 55 with 25 years of service. The monthly benefit is two percent of the average final compensation (AFC), for each year of service credit, up to a maximum of 60 percent, divided by twelve. AFC is the total earnable compensation for the two consecutive highest-paid fiscal years, divided by two.

The monthly benefit is subject to a minimum for TRS Plan 1 retirees who have at least 25 years of service and have been retired 20 years, or who have 20 years of service and have been retired 25 years. A cost-of-living allowance is granted at age 66 based upon years of service times the COLA amount, increased by three percent annually. Plan 1 members may also elect to receive an additional COLA amount (based on the Consumer Price Index), capped at three percent annually. To offset the cost of this annual adjustment, the benefit is reduced.

TRS Plan 1 provides death, as well as, permanent and temporary disability benefits. TRS Plan 1 members receive the following additional lump sum death benefits: retired members-\$400 (if retired with ten years of full-time membership), \$400 (if inactive with ten years of membership), active members-\$600 (if employed full-time at time of death). TRS Plan 1 members on temporary disability receive a monthly payment of \$180 payable for up to two years, for the same occurrence. After five years of service, members on a disability retirement receive an allowance based on their salary and service to date of disability. Members enrolled in TRS prior to April 25, 1973, may elect a benefit based on the formula in effect at that time.

TRS Plan 2 members are vested after the completion of five years of eligible service. Plan 2 members are eligible for normal retirement at the age of 65 with five years of service. The monthly benefit is two percent of the average final compensation (AFC) per year of service. AFC is the monthly average of the 60 consecutive highest-paid service credit months.

TRS Plan 2 members who have at least 20 years of service credit and are 55 years of age or older can retire with a reduced benefit. The benefit is reduced by an early retirement factor (ERF) that varies according to age, for each year before age 65.

TRS Plan 2 members who have 30 or more years of service credit and are at least 55 years old, can retire under one of two provisions:

- With a benefit that is reduced by three percent for each year before age 65; or
- With a benefit that has a smaller (or no) reduction (depending on age) that imposes stricter return-to-work rules.

There is no cap on years of service credit; and a cost-of-living allowance is granted (based on the Consumer Price Index), capped at three percent annually. TRS Plan 2 retirement benefits are also actuarially reduced to reflect the choice, if made, of a survivor option.

TRS Plan 3 has a dual benefit structure. Employer contributions finance a defined benefit component, and member contributions finance a defined contribution component. The defined benefit portion provides a monthly benefit that is one percent of the AFC per year of service. AFC is the monthly average of the 60 consecutive highest-paid service credit months.

TRS Plan 3 members are vested in the defined benefit portion of their plan after ten years of service; or after five years of service if 12 months of that service are earned after age 44; or after five service credit years earned in TRS Plan 2 by July 1, 1996 and transferred to Plan 3. Plan 3 members are immediately vested in the defined contribution portion of their plan.

Vested Plan 3 members are eligible for normal retirement at age 65, or they may retire early with the following conditions and benefits:

- If they have at least ten service credit years and are 55 years old, the benefit is reduced by an ERF that varies according to age, for each year before age 65;

- If they have 30 service credit years and are at least 55 years old, they have the choice of a benefit that is reduced three percent for each year before age 65, or a benefit with a smaller (or no) reduction factor (depending on age) that imposes stricter return-to-work rules.

There is no cap on years of service credit; and Plan 3 provides the same cost-of-living allowance as Plan 2. TRS Plan 3 retirement benefits are also actuarially reduced to reflect the choice, if made, of a survivor option. See section E of Note 2 for a description of the defined contribution component of TRS Plan 3.

TRS Plan 2 and Plan 3 provide disability benefits. There is no minimum amount of service credit required for eligibility. The Plan 2 monthly benefit amount is two percent of the AFC per year of service. For Plan 3, the monthly benefit amount is one percent of the AFC per year of service. These disability benefit amounts are actuarially reduced for each year that the member's age is less than 65, and to reflect the choice of a survivor option.

TRS members can purchase service credit for military service that interrupts employment. Additionally, TRS members who become totally incapacitated for continued employment may apply for interruptive military service credit. Should any such member die during this active duty, the member's surviving spouse or eligible child(ren) may purchase service credit on behalf of the deceased member.

TRS members may purchase up to 24 consecutive months of service credit for each period of temporary duty disability.

TRS members may also purchase up to five years of additional service credit, once eligible for retirement. This credit can only be purchased at the time of retirement and can be used only to provide the member with a monthly annuity that is paid in addition to the member's retirement allowance.

Beneficiaries of TRS members killed in the course of employment receive survivor benefits without actuarial reduction, if the member was not at normal

retirement age at death. This provision applies to any member killed in the course of employment, on or after June 10, 2004, if found eligible by the Director of the Department of Labor and Industries.

A one-time duty-related death benefit is provided to the estate (or duly designated nominee) of a TRS member who dies in the line of service as a result of injuries or illness sustained in the course of employment, if found eligible by the Department of Labor and Industries.

From January 1, 2007 through December 31, 2007, judicial members of TRS were given the choice to participate in the Judicial Benefit Multiplier (JBM) Program enacted in 2006. Justices and judges in TRS Plan 1 were able to make a one-time irrevocable election to pay increased contributions that would fund a retirement benefit with a three and one-half percent multiplier. The benefit is capped at 75% of average final compensation.

Members who chose to participate would:

- Accrue service credit at the higher multiplier beginning with the date of their election.
- Be subject to the benefit cap of 75% of AFC.
- Stop contributing to the Judicial Retirement Account (JRA).
- Pay higher contributions.
- Be given the option to increase the multiplier on past judicial service.

Members who did not choose to participate would:

- Continue to accrue service credit at the regular multiplier (i.e., two percent).
- Continue to participate in JRA, if applicable.
- Never be a participant in the JBM Program.
- Continue to pay contributions at the regular TRS rate.

Newly elected or appointed justices and judges who chose to become TRS members on or after January 1, 2007, or who had not previously opted into TRS Plan 1 membership, were required to participate in the JBM Program. Members required into the JBM program would:

- Return to prior TRS Plan if membership had previously been established.
- Accrue the higher multiplier for all judicial service.
- Not contribute to JRA.
- Not have the option to increase the multiplier for past judicial service.

Changes to the TRS plans resulting from recent years' legislation can be found on the table immediately following this section on pages 66 and 67. Besides those included in the table, there were no other material changes in TRS benefit provision for the Fiscal Year ended June 30, 2010.

Law Enforcement Officers' and Fire Fighters' Retirement System (LEOFF): LEOFF was established in 1970 by the Legislature. Membership includes all full-time, fully compensated, local law enforcement commissioned officers, firefighters, and as of July 24, 2005, those emergency medical technicians who were given the option and chose LEOFF Plan 2 membership. LEOFF membership is comprised primarily of non-state employees, with Department of Fish and Wildlife enforcement officers who were first included prospectively effective July 27, 2003, being an exception. LEOFF retirement benefit provisions are established in chapter 41.26 RCW and may be amended only by the state Legislature.

LEOFF is a cost-sharing multiple-employer retirement system comprised of two separate defined benefit plans. LEOFF members who joined the system by September 30, 1977 are Plan 1 members. Those who joined on or after October 1, 1977 are Plan 2 members.

Effective July 1, 2003, the LEOFF Plan 2 Retirement Board was established by Initiative 790

to provide governance of LEOFF Plan 2. The Board's duties include adopting contribution rates and recommending policy changes to the Legislature for the LEOFF Plan 2 retirement plan.

LEOFF defined benefit retirement benefits are financed from a combination of investment earnings, employer and employee contributions, and a special funding situation in which the state pays through state legislative appropriations. Employee contributions to the LEOFF Plan 1 and Plan 2 defined benefit plans accrue interest at a rate specified by DRS. During Fiscal Year 2010, the DRS-established rate on employee contributions was five and one-half percent compounded quarterly. Members in LEOFF Plan 1 and Plan 2 can elect to withdraw total employee contributions and interest earnings upon separation from LEOFF-covered employment.

LEOFF Plan 1 members are vested after the completion of five years of eligible service. Plan 1 members are eligible for retirement with five years of service at the age of 50. The benefit per year of service calculated as a percent of final average salary (FAS) is as follows:

Term of Service	Percent of FAS
20+	2.0%
10 – 19	1.5%
5 – 9	1.0%

The FAS is the basic monthly salary received at the time of retirement, provided a member has held the same position or rank for 12 months preceding the date of retirement. Otherwise, it is the average of the highest consecutive 24 months' salary within the last ten years of service. A cost-of-living allowance is granted (based on the Consumer Price Index).

LEOFF Plan 1 provides death and disability benefits. Death benefits for survivors of Plan 1 members on active duty consist of the following: (1) If eligible spouse, 50 percent of the FAS, plus five percent of FAS for each eligible surviving child, with a limitation on the combined allowances of 60 percent of the FAS;

or (2) If no eligible spouse, eligible children receive 30 percent of FAS for the first child plus ten percent for each additional child, subject to a 60 percent limitation of FAS, divided equally.

A one-time duty-related death benefit is provided to the estate (or duly designated nominee) of a LEOFF Plan 1 member who dies as a result of injuries or illness sustained in the course of employment, if found eligible by the Department of Labor and Industries.

The LEOFF Plan 1 disability allowance is 50 percent of the FAS plus five percent for each child up to a maximum of 60 percent. Upon recovery from disability before the age of 50, a member is restored to service with full credit for service while disabled. Upon recovery after the age of 50, the benefit continues as the greater of the member's disability allowance or service retirement allowance.

LEOFF Plan 1 members may purchase up to five years of additional service credit once eligible for retirement. This credit can only be purchased at the time of retirement and can be used only to provide the member with a monthly annuity that is paid in addition to the member's allowance.

LEOFF Plan 2 members are vested after the completion of five years of eligible service. Plan 2 members may retire at the age of 50 with 20 years of service, or at the age of 53 with five years of service, with an allowance of two percent of the FAS per year of service (FAS is based on the highest consecutive 60 months). Plan 2 members who retire prior to the age of 53 receive reduced benefits. Benefits are actuarially reduced for each year that the benefit commences prior to age 53 and to reflect the choice of a survivor option. If the member has at least 20 years of service and is age 50, the reduction is three percent for each year prior to age 53. A cost-of-living allowance is granted (based on the Consumer Price Index), capped at three percent annually.

LEOFF Plan 2 provides disability benefits. There is no minimum amount of service credit required for eligibility. The Plan 2 allowance amount is two

percent of the FAS for each year of service. Benefits are actuarially reduced for each year that the member's age is less than 53, unless the disability is duty-related, and to reflect the choice of a survivor option. If the member has at least 20 years of service and is age 50, the reduction is three percent for each year prior to age 53. A catastrophic disability benefit equal to 70 percent of their FAS, subject to offsets for workers' compensation and Social Security disability benefits received, is also available to those LEOFF Plan 2 members who are severely disabled in the line of duty and incapable of future substantial gainful employment in any capacity.

Effective June 2010, benefits to LEOFF Plan 2 members who are catastrophically disabled include payment of eligible health care insurance premiums.

Members of LEOFF Plan 2 who leave service because of a line of duty disability are allowed to withdraw 150 percent of accumulated member contributions. This withdrawal benefit is not subject to federal income tax. Alternatively, members of LEOFF Plan 2 who leave service because of a line of duty disability may be eligible to receive a retirement allowance of at least ten percent of final average salary and two percent per year of service beyond five years. The first ten percent of the FAS is not subject to federal income tax.

LEOFF Plan 2 retirees may return to work in an eligible position covered by another retirement system, choose membership in that system and suspend their pension benefits, or not choose membership and continue receiving pension benefits without interruption.

LEOFF Plan 2 members who apply for retirement may purchase up to five years of additional service credit. The cost of this credit is the actuarial equivalent of the resulting increase in the member's benefit.

LEOFF Plan 2 members can purchase service credit for military service that interrupts employment. Additionally, LEOFF Plan 2 members who become totally incapacitated for continued employment while serving in the uniformed services may apply for

interruptive military service credit. Should any such member die during this active duty, the member's surviving spouse or eligible child(ren) may purchase service credit on behalf of the deceased member.

LEOFF Plan 2 members may also purchase up to 24 consecutive months of service credit for each period of temporary duty disability.

Beneficiaries of a LEOFF Plan 2 member who is killed in the course of employment receive retirement benefits without actuarial reduction, if found eligible by the Director of the Department of Labor and Industries.

Benefits to eligible surviving spouses and dependent children of LEOFF Plan 2 members killed in the course of employment include the payment of ongoing health care insurance premiums paid to the Washington state Health Care Authority.

A one-time duty-related death benefit is provided to the estate (or duly designated nominee) of a LEOFF Plan 2 member who dies as a result of injuries or illness sustained in the course of employment, if found eligible by the Department of Labor and Industries.

Changes to the LEOFF plans resulting from recent years' legislation can be found on the table immediately following this section on pages 66 and 67. Besides those included in the table, there were no other material changes in LEOFF benefit provisions for the Fiscal Year ended June 30, 2010.

Washington State Patrol Retirement System (WSPRS): WSPRS was established by the Legislature in 1947. Any commissioned employee of the Washington State Patrol is eligible to participate. WSPRS retirement benefit provisions are established in chapter 43.43 RCW and may be amended only by the state Legislature.

WSPRS is a single-employer defined benefit retirement system. WSPRS members who joined the system by December 31, 2002 are Plan 1 members. Those who joined on or after January 1, 2003 are Plan 2 members. For financial

reporting and investment purposes, however, both plans are accounted for in the same pension fund.

WSPRS retirement benefits are financed from a combination of investment earnings and employer and employee contributions. Employee contributions to WSPRS accrue interest at a rate specified by DRS. During Fiscal Year 2010 the DRS-established rate on employee contributions was 5.364 percent annually, compounded monthly. Members in WSPRS can elect to withdraw total employee contributions and interest earnings upon separation from WSPRS-covered employment.

There is no vesting requirement for active WSPRS members. Inactive WSPRS members are vested after the completion of five years of eligible service. Members are eligible for retirement at the age of 55 with five years of service, or after 25 years of service, and must retire at age 65. This mandatory requirement, however, does not apply to the chief of the Washington State Patrol.

The monthly allowance is two percent of the average final salary (AFS) per year of service, capped at 75 percent. A cost-of-living allowance is granted (based on the Consumer Price Index), capped at three percent annually.

For WSPRS Plan 1 members, AFS is based on the average of the 24 highest-paid service credit months and excludes voluntary overtime. Death benefits for these members, if on active duty, consist of the following: (1) If eligible spouse, 50 percent of the AFS, plus five percent of the AFS for each eligible surviving child, with a limitation on the combined allowances of 60 percent of the AFS; or (2) If no eligible spouse, 30 percent of AFS for the first child plus ten percent for each additional child, subject to a 60 percent limitation of AFS.

For WSPRS Plan 2 members, AFS is based on the average of the 60 consecutive highest-paid service credit months and excludes both voluntary overtime and cash-outs of annual and holiday leave. At retirement, these members also have the option of selecting an actuarially reduced benefit in order to

provide for post-retirement survivor benefits. Death benefits for these members, if on active duty, consist of the following: (1) If the member is single or has less than ten years of service, the return of the member's accumulated contributions; or (2) If the member is married, has an eligible child, or has completed ten years of service, a reduced benefit allowance reflecting a joint and 100 percent survivor option or 150 percent of the member's accumulated contributions, at the survivor's option.

WSPRS Plan 2 members can purchase service credit for military service that interrupts employment. Additionally, WSPRS Plan 2 members who become totally incapacitated for continued employment while serving in the uniformed services may apply for interruptive military service credit. Should any such member die during this active duty, the member's surviving spouse or eligible child(ren) may purchase service credit on behalf of the deceased member.

Beneficiaries of a WSPRS Plan 2 member who is killed in the course of employment receive retirement benefits without actuarial reduction, if found eligible by the Director of the Department of Labor and Industries.

Benefits to eligible surviving spouses and dependents of WSPRS members killed in the course of employment include the payment of on-going health care insurance premiums paid to the Washington state Health Care Authority.

WSPRS members may purchase up to five years of additional service credit once eligible for retirement. This credit can only be purchased at the time of retirement and can be used only to provide the member with a monthly annuity that is paid in addition to the member's retirement allowance.

WSPRS benefit provisions include death benefits; however, the system provides no disability benefits. Disability benefits may be available from the Washington State Patrol (WSP). If disability benefits are received, the member may be eligible to acquire service credit for the period of disability.

A one-time duty-related death benefit is provided to the estate (or duly designated nominee) of a WSPRS member who dies as a result of injuries or illness sustained in the course of employment, if found eligible by the Director of the Department of Labor and Industries.

Changes to the WSPRS plans resulting from recent years' legislation can be found on the table immediately following this section on pages 66 and 67. Besides those included in the table, there were no other material changes in WSPRS benefit provisions for the Fiscal Year ended June 30, 2010.

Judicial Retirement System (JRS): JRS was established by the Legislature in 1971. Membership includes judges elected or appointed to the Supreme Court, Court of Appeals, and Superior Courts on or after August 9, 1971. The system was closed to new entrants on July 1, 1988, with new judges joining PERS. JRS retirement benefit provisions are established in chapter 2.10 RCW and may be amended only by the state Legislature.

JRS is an agent multiple-employer retirement system comprised of a single defined benefit plan. JRS retirement benefits are financed on a pay-as-you-go basis from a combination of investment earnings, employer contributions, employee contributions, and a special funding situation in which the state pays the remaining contributions.

During Fiscal Year 2010, the DRS-established rate on employee contributions was five and one-half percent, compounded quarterly. JRS members who are vested in the plan may not elect to withdraw their contributions upon termination. However, any JRS member that left the system before July 1, 1988, or his/her spouse, who was ineligible to receive a benefit at that time, may apply and receive a refund of such contributions from DRS, if said contributions have not been already refunded via a sundry claims appropriation from the state Legislature.

JRS members are eligible for retirement at the age of 60 with 15 years of service, or after 12 years of service (if the member left office involuntarily) with at least 15 years after beginning judicial service.

The benefit per year of service calculated as a percent of average final compensation (AFC) is shown in the table below. This benefit is capped at 75% of AFC, exclusive of cost of living increases.

Term of Service	Percent of AFC
15+	3.5%
10 – 14	3.0%

Death and disability benefits are also provided. Eligibility for death benefits while on active duty requires ten or more years of service. A monthly spousal benefit is provided which is equal to 50 percent of the benefit that the member would have received if retired. If the member is retired, the surviving spouse receives the greater of 50 percent of the member's retirement benefit or 25 percent of the AFC. For members with ten or more years of service, a disability benefit of 50 percent of AFC is provided.

There were no material changes in JRS benefit provisions for the fiscal year ended June 30, 2010.

Judges' Retirement Fund: The Judges' Retirement Fund was created by the Legislature on March 22, 1937, pursuant to chapter 2.12 RCW, to provide retirement benefits to judges of the Supreme Court, Court of Appeals, or Superior Courts of the state of Washington. Subsequent legislation required that all judges first appointed or elected to office on or after August 9, 1971, enter the Judicial Retirement System. Judges' retirement benefit provisions are established in chapter 2.12 RCW and may be amended only by the state Legislature.

The Judges' Retirement Fund is an agent multiple-employer retirement system comprised of a single defined benefit plan. There are currently no active members in this plan. Retirement benefits are financed on a pay-as-you-go basis from a combination of past employee and employer contributions, and a special funding situation in which the state contributes to the plan. Members did not earn interest on their contributions, nor could they elect to withdraw their contributions upon termination.

Judges' members were eligible for retirement at the age of 70 with ten years of service, or at any age with 18 years of service. Members were eligible to receive a partial retirement allowance after 12 years of credited service as a judge. With the exception of a partial retirement allowance, the member receives a benefit equal to one-half of the monthly salary being received as a judge at the time of retirement, or at the end of the term immediately prior to retirement if retirement occurs after the expiration of the member's term in office. A partial retirement allowance is based on the proportion of the member's 12 or more years of service in relation to 18 years of service.

There were no material changes in Judges' benefit provisions for the fiscal year ended June 30, 2010.

Recent Legislation Affecting Pension Systems/Plans Administered by DRS During Fiscal Year 2010 (page 1 of 2)

(Arranged Chronologically by Effective Date)

Legal Reference	Effective Date	Systems/Plans Affected	Description
Chapter 99, Laws of 2008 (ESSB 6573)	6/12/08	LEOFF 2	Beginning in 2011, when state General Fund revenues increase by at least five percent over the prior biennium's revenues, the State Treasurer will transfer, subject to legislative appropriation, specific amounts into a Local Public Safety Enhancement Account. Half of this transfer will be proportionately distributed to all jurisdictions with LEOFF 2 members. The other half will be transferred to a LEOFF Retirement System Benefits Improvement Account to fund benefit enhancements for LEOFF 2 members.
Chapter 101, Laws of 2008 (HB 3024)	6/12/08	TRS 2 and 3	TRS 2 and TRS 3 members need now have only two years of service credit in order to be eligible to purchase up to seven years of service credit for public education experience earned in another state or with the federal government.
Chapter 142, Laws of 2008 (HB 2510)	6/12/08	LEOFF	Active LEOFF members can choose whether or not to obtain and pay for Medicare coverage through a "divided referendum" process.
Chapter 175, Laws of 2008 (SB 6657)	6/12/08	TRS	The definition of "earnable compensation" for TRS members no longer excludes bonuses paid to teachers certified by the National Board for Professional Teaching Standards.
Chapter 204, Laws of 2008 (HB 3019)	6/12/08	SERS 2 and 3, and TRS 2 and 3	SERS 2, SERS 3, TRS 2, and TRS 3 members who work for at least five months of a six-month period, from September through August, and earn 630 hours or more within that six-month period now receive six months of service credit.
Chapter 300, Laws of 2008 (HB 2887)	6/12/08	PERS	Justices and judges who are members of PERS may purchase prior judicial service at a higher multiplier at retirement. Also, during the period of January 1, 2009 through June 30, 2009, active and inactive PERS members who are not then serving as justices or judges, but who have served as such in the past, may request an increase in their benefit multiplier for past periods of judicial service and pay a cost that is the actuarial equivalent of the increase.
Chapter 561, Laws of 2009 (SSB 6161)	7/1/09	LEOFF 1, PERS, PSERS, SERS, TRS and WSPRS	The actuarial method of funding the unfunded liability of PERS 1 and TRS 1 is restructured. Changes are also made to the demographic assumptions for, and pension contribution rates of, the state retirement systems/plans (with the exception of LEOFF 2). Additionally, the implementation of minimum contribution rates for WSPRS and the Plans 2 and 3 (except LEOFF 2) is delayed until the beginning of the 2011-13 biennium.
Chapter 95, Laws of 2009 (HB 1678)	7/26/09	LEOFF 2	Eligible service and disability retirements are now classified as Occupational Disability retirements for the purpose of allowing affected retirees to take advantage of favorable tax treatment on their pension benefit based on the first 10% of the member's salary.
Chapter 111, Laws of 2009 (SB 5315)	7/26/09	PERS 1	The survivor of any PERS 1 member who qualifies for retirement but has not applied, or who has 10 years of service credit, now has the option of either a monthly survivor benefit or the lump sum of contributions plus interest, upon the member's death.
Chapter 157, Laws of 2009 (SHB 1953)	7/26/09	LEOFF 2	Department of Fish and Wildlife Enforcement Officers can transfer service credit earned as an enforcement officer in PERS 2 or PERS 3 to LEOFF 2. Member, employer and state contribution rates will increase to the extent necessary to fund the difference in the value of the service credit transferred between the plans and the member contributions transferred into LEOFF 2.
Chapter 205, Laws of 2009 (HB 1548)	7/26/09	LEOFF 2, PERS 2 and 3, PSERS, SERS 2 and 3, TRS 2 and 3, and WSPRS 2	Up to five years of no-cost service credit is available for members who can provide proof to DRS that their public employment was interrupted by military service that occurred during a period of war (as defined in statute), and that they initiated the process for re-employment with the same employer no later than 90 days from the date of their honorable discharge. Members who previously purchased military service credit are eligible to receive a refund of their contributions.

Recent Legislation Affecting Pension Systems/Plans Administered by DRS During Fiscal Year 2010 (page 2 of 2)

(Arranged Chronologically by Effective Date)

Legal Reference	Effective Date	Systems/Plans Affected	Description
Chapter 209, Laws of 2009 (SB 5303)	7/26/09	PERS 2 and SERS 2	The automatic transfer of prior PERS 2 service credit to SERS 2 when the member becomes employed in an eligible SERS position on or after August 1, 2009 is ended. Current and inactive SERS 2 members who had prior PERS service credit transferred to SERS 2 can request, beginning September 1, 2009 through November 30, 2009, that their service credit be moved back to PERS 2.
Chapter 226, Laws of 2009 (HB 1551)	7/26/09	LEOFF, PERS, PSERS, SERS, TRS and WSPRS	The eligibility for an unreduced benefit to survivors of members who leave an employer and die while honorably serving in the National Guard or military reserves during a period of war (as defined in statute) is extended.
Chapter 521, Laws of 2009 (ESSSB 5688)	Varies per section from 7/26/09 to 1/1/14	All systems and plans	Domestic partners registered with the state will be treated the same as married spouses, to the extent that treatment is not in conflict with federal laws.
Chapter 522, Laws of 2009 (ESHB 1445)	7/26/09	WSPRS 2	State-registered domestic partners of WSPRS members are granted the ability to receive the survivor and death benefits available to spouses.
Chapter 523, Laws of 2009 (EHB 1616)	7/26/09	LEOFF 2	Domestic partners of LEOFF 2 members are granted the same pension rights and options as spouses.
Chapter 80, Laws of 2010 (SB 6546)	3/17/10	LEOFF 2	The Director of Fire Protection, who was previously a member of LEOFF 2, now has the choice to continue membership in LEOFF 2 while employed in this role. This position is otherwise covered by PERS.
Chapter 21, Laws of 2010 (HB 1545)	6/10/10	PERS	Eligible employees of the Higher Education Coordinating Board now have the ability to participate in the Higher Education Retirement Plan instead of the Public Employees' Retirement System.
Chapter 50, Laws of 2010 (SB 6453)	6/10/10	LEOFF 2	Shared leave can now be treated as reportable compensation for LEOFF 2 members. Earnings can be used in the calculation of a member's benefit, and service credit will be earned according to hours reported.
Chapter 103, Laws of 2010 (HB 1541)	6/10/10	PERS 2 and 3, SERS 2 and 3	Half-time service credit is now granted to qualifying members who worked for an educational employer in school years prior to January 1, 1987.
Chapter 259, Laws of 2010 (SHB 1679)	6/10/10	LEOFF 2 and WSPRS	The payment of medical insurance premiums for qualifying LEOFF 2 and WSPRS members who are catastrophically disabled in the line of duty, and their spouses and dependent children will now be made for LEOFF 2 members and for WSPRS members.
Chapter 260, Laws of 2010 (SHB 2196)	6/10/10	LEOFF 1 and PERS 1	PERS 1 members who retired on or after January 1, 1998, can use any service transferred from LEOFF 1 to qualify for military service credit at no cost.
Chapter 261, Laws of 2010 (EHB 2519)	6/10/10	LEOFF and WSPRS	Additional benefits are provided to survivors of police officers, fire fighters and State Patrol officers killed in the line of duty.
Chapter 7, Laws of 2010 (ESSHB 2617)	Varies per section from 6/30/10 to 6/30/11	DCP, PERS 3, SERS 3 and TRS 3	The Employee Retirement Benefits Board is abolished and its former duties are transferred to the DRS director. Said duties include providing recommendations to the WSIB on self-directed investment options for defined contribution plans, determining the payment options for Plan 3 members, ratifying administrative charges assessed to members who participate in self-directed investment options and providing recommendations on investment options for DCP.

C. Funding Policy

With the exception of LEOFF Plan 2, the Legislature provided for minimum contribution rates for the pension plans (Chapter 561, Laws of 2009). The LEOFF Plan 2 Retirement Board provided for minimum contribution rates for the LEOFF Plan 2. These minimum rates will go into effect beginning with the 2011-2013 biennium.

The table at the end of this section provides the required contribution rates for all plans (expressed as a percentage of current year covered payroll) at the close of Fiscal Year 2010.

PERS: Each biennium, the state Pension Funding Council adopts Plan 1 employer contribution rates, Plan 2 employer and employee contribution rates, and Plan 3 employer contribution rates. Employee contribution rates for Plan 1 are established by statute at six percent for state agencies and local government unit employees, and at seven and one-half percent for state government elected officials. The employer and employee contribution rates for Plan 2 and the employer contribution rate for Plan 3 are developed by the Office of the State Actuary to fully fund Plan 2 and the defined benefit portion of Plan 3. All employers are required to contribute at the level established by the Legislature. Under PERS Plan 3, employer contributions finance the defined benefit portion of the plan, and member contributions finance the defined contribution portion. The director of DRS sets Plan 3 employee contribution rates. Six rate options are available ranging from five to 15 percent; two of the options are graduated rates dependent on the employee's age.

As a result of the implementation of the Judicial Benefit Multiplier (JBM) Program in January 2007, a second tier of employer and employee rates was developed to fund, along with investment earnings, the increased retirement benefits of those justices and judges that participate in the program. These new higher rates are also detailed in the table at the end of this section.

The methods used to determine PERS contribution requirements are established under state statute in accordance with chapters 41.40 and 41.45 RCW.

SERS: Each biennium, the state Pension Funding Council adopts Plan 2 employer and employee contribution rates and Plan 3 employer contribution rates. The employer and employee contribution rates for Plan 2 and the employer contribution rate for Plan 3 are developed by the Office of the State Actuary to fully fund Plan 2 and the defined benefit portion of Plan 3. All employers are required to contribute at the level established by the Legislature. Under SERS Plan 3, employer contributions finance the defined benefit portion of the plan, and member contributions finance the defined contribution portion. The director of DRS sets Plan 3 employee contribution rates. Six rate options are available ranging from five to 15 percent; two of the options are graduated dependent on the employee's age.

The methods used to determine SERS contribution requirements are established under state statute in accordance with chapters 41.35 and 41.45 RCW.

PSERS: Each biennium, the state Pension Funding Council adopts Plan 2 employer and employee contribution rates. The employer and employee contribution rates for Plan 2 are developed by the Office of the State Actuary to fully fund Plan 2. All employers are required to contribute at the level established by the Legislature.

The methods used to determine PSERS contribution requirements are established under state statute in accordance with chapters 41.37 and 41.45 RCW.

TRS: Each biennium, the state Pension Funding Council adopts Plan 1 employer contribution rates, Plan 2 employer and employee contribution rates, and Plan 3 employer contribution rates. Employee contribution rates for Plan 1 are established by statute at six percent for state agencies and local government unit employees, and at seven and one-half percent for state elected officials. The employer and employee contribution rates for Plan 2 and the employer

contribution rate for Plan 3 are developed by the Office of the State Actuary to fully fund Plan 2 and the defined benefit portion of Plan 3. All employers are required to contribute at the level established by the Legislature. Under TRS Plan 3, employer contributions finance the defined benefit portion of the plan and member contributions finance the defined contribution portion. The director of DRS sets Plan 3 employee contribution rates. Six rate options are available ranging from five to 15 percent; two of the options are graduated rates dependent on the employee's age.

As a result of the implementation of the Judicial Benefit Multiplier (JBM) Program in January 2007, a second tier of employee rates was developed to fund the increased retirement benefits of those judges that participate in the program. These higher rates are also detailed in the table at the end of this section.

The methods used to determine the contribution requirements are established under state statute in accordance with chapters 41.32 and 41.45 RCW.

LEOFF: Starting on July 1, 2000, Plan 1 employers and employees contribute zero percent, as long as the plan remains fully funded. Employer and employee contribution rates are developed by the Office of the State Actuary to fully fund the plan. Plan 2 employers and employees are required to pay at the level adopted by the LEOFF Plan 2 Retirement Board. All employers are required to contribute at the level required by state law.

The Legislature, by means of a special funding arrangement, appropriated money from the state General Fund to supplement the current service liability and fund the prior service costs of Plan 2 in accordance with the requirements of the Pension Funding Council and the LEOFF Plan 2 Retirement Board. However, this special funding situation is not mandated by the state constitution and this funding requirement could be returned to the employers by a change of statute. For Fiscal Year 2010, the state contributed \$51.4 million to LEOFF Plan 2.

WSPRS: Each biennium, the state Pension Funding Council adopts the employee and the state contribution rates, subject to revision by the Legislature. The preliminary employee and the state contribution rates are developed by the Office of the State Actuary to fully fund the plan. State statute also requires employees to contribute at a rate of at least 4.85 percent.

The methods used to determine the contribution requirements are established under state statute in accordance with chapters 43.43 and 41.45 RCW.

JRS: Contributions made are based on rates set in chapter 2.10 RCW. By statute, employees are required to contribute seven and one-half percent with an equal amount contributed by the state. In addition, the state guarantees the solvency of the JRS on a pay-as-you-go basis. Each biennium, the Legislature, through biennial appropriations from the state General Fund, contributes amounts sufficient to meet benefit payment requirements. For Fiscal Year 2010, the state contributed \$11.6 million.

Judges: Past contributions were made based on rates set in chapter 2.12 RCW. By statute, employees were required to contribute six and one-half percent with an equal amount contributed by the state. As of June 30, 2010, however, there are no active members remaining in the Judges Retirement Fund and member contributions are no longer collected.

The state guarantees the solvency of the Judges' Retirement fund on a pay-as-you-go basis. Each biennium, therefore, the Legislature, through appropriations from the state General Fund, contributes amounts sufficient to meet benefit payment requirements. For Fiscal Year 2010, however, no such appropriations or contributions were needed or made.

Required contribution rates (expressed as a percentage of current-year covered payroll) at the close of Fiscal Year 2010 were as follows:

Actual Contribution Rates:	Employer			Employee		
	Plan 1	Plan 2	Plan 3	Plan 1	Plan 2	Plan 3
PERS						
Members Not Participating in JBM:

D. Funded Status and Funding Progress

The funded status of each plan as of June 30, 2009, the most recent actuarial valuation date, is as follows:

(dollar amounts in millions)						
	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) – Entry Age (b)	Unfunded AAL (UAAL) (b–a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll (b–a)/c)
PERS Plan 1	\$ 9,775.6	\$ 13,984.5	\$ 4,208.9	70%	\$ 580.2	725%
PERS Plan 2/3*	\$ 18,260.4	\$ 18,397.9	\$ 137.5	99%	\$ 8,132.2	2%
SERS Plan 2/3*	\$ 2,503.2	\$ 2,493.2	\$ (10.0)	100%	\$ 1,466.5	(1)%
PSERS Plan 2*	\$ 69.2	\$ 63.8	\$ (5.4)	108%	\$ 223.4	(2)%
TRS Plan 1	\$ 8,146.2	\$ 10,820.0	\$ 2,673.9	75%	\$ 388.8	688%
TRS Plan 2/3*	\$ 6,160.0	\$ 6,048.4	\$ (111.6)	102%	\$ 3,957.3	(3)%
LEOFF Plan 1	\$ 5,612.1	\$ 4,491.7	\$ (1,120.5)	125%	\$ 33.3	(3,360)%
LEOFF Plan 2*	\$ 5,564.2	\$ 4,641.3	\$ (922.9)	120%	\$ 1,442.5	(64)%
WSPRS 1/2*	\$ 900.4	\$ 790.1	\$ (110.2)	114%	\$ 83.0	(133)%
JRS	\$ 1.8	\$ 89.3	\$ 87.5	2%	\$ 0.9	9,216%
Judges	\$ 3.3	\$ 3.4	\$ 0.1	97%	\$ –	n/a

* These plans use the Aggregate actuarial cost method which does not separately amortize Unfunded Actuarial Accrued Liabilities (UAAL). Therefore, as required by GASB 50, the Entry Age Normal Actuarial Liability method was used to determine the UAAL. This method is intended to serve as a surrogate for the funded status and funding progress of these plans.

Note: Totals may not agree due to rounding. Percentages are calculated using unrounded totals.

Source: Washington State Office of the State Actuary

The Schedules of Funding Progress, presented as Required Supplementary information (RSI) following the Notes to the Financial Statements, present multi-year trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

Additional information as of the latest actuarial valuation follows:

⁷ The Uniform COLA

Generally, all retirees over age 66 receive an increase in their monthly benefit at least once a year. The Uniform COLA amount is calculated as the last unrounded Uniform COLA amount increased by 3%, rounded to the nearest penny. These are some historical monthly COLA amounts per year of service:

<u>Date</u>	<u>COLA Type</u>	<u>Amount</u>
7/1/2002	Uniform	\$1.14
7/1/2003	Uniform	\$1.18
7/1/2004	Uniform	\$1.21
7/1/2005	Uniform	\$1.25
7/1/2006	Uniform	\$1.29
7/1/2007	Uniform	\$1.33
7/1/2008	Uniform	\$1.73
7/1/2009	Uniform	\$1.83
7/1/2010	Uniform	\$1.88

⁸ The Legislature prescribes the assumed rate of investment returns for all plans.

E. Defined Contribution Plans

Public Employees' Retirement System Plan 3: The Public Employees' Retirement System (PERS) Plan 3 is a defined benefit plan, with a defined contribution component, administered by the state through DRS. Eligible employees include: elected officials; state employees; employees of the Supreme, Appeals, and Superior Courts (other than judges currently in a judicial retirement system); employees of legislative committees; employees of community and technical colleges; college and university employees not in national higher education retirement programs; judges of district and municipal courts; and employees of local governments. PERS members who joined on or after October 1, 1977 and by either, February 28, 2002 for state and higher education employees, or August 31, 2002 for local government employees, are Plan 2 members unless they exercise an option to transfer their membership to Plan 3. PERS members who joined the system on or after March 1, 2002 for state and higher education employees, or September 1, 2002 for local government employees have the irrevocable option of choosing membership in either PERS Plan 2 or PERS Plan 3. The option must be exercised within 90 days of employment. An employee is reported in Plan 2 until a choice is made. Employees who fail to choose within 90 days default to PERS Plan 3. As of June 30, 2010, there are 659 participating employers in PERS Plan 3. See section B of Note 2 for PERS plan descriptions.

PERS Plan 3 has a dual benefit structure. Employer contributions finance a defined benefit component, and member contributions finance a defined contribution component. As established by chapter 41.34 RCW, employee contribution rates to the defined contribution component range from five percent to 15 percent of salaries based on member choice. There are currently no requirements for employer contributions to the defined contribution component of PERS Plan 3.

Membership in PERS Plan 3 consisted of the following as of the latest actuarial valuation date of June 30, 2009:

Retirees and Beneficiaries Receiving Benefits	920
Terminated Plan Members Entitled to but Not Yet Receiving Benefits	3,125
Active Plan Members Vested	9,744
Active Plan Members Nonvested	17,337
Total	31,126

PERS Plan 3 defined contribution retirement benefits are solely dependent upon the results of investment activities. Members may elect to self-direct the investment of their contributions. Any expense incurred in conjunction with self-directed investments are to be paid by members. Absent a member's self-direction, PERS Plan 3 investments are made in the same portfolio as that of the PERS 2/3 defined benefit plan.

For Fiscal Year 2010, employee contributions were \$92.7 million, and plan refunds paid out were \$41.7 million.

School Employees' Retirement System Plan 3: The School Employees' Retirement System (SERS) Plan 3 is a defined benefit plan, with a defined contribution component, administered by the state through DRS. Eligible employees include classified employees of school districts and educational service districts who joined PERS Plan 2 on or after October 1, 1977 and by August 31, 2000, and were transferred to SERS Plan 2 on September 1, 2000. Members transferred from PERS Plan 2 to SERS Plan 2 may exercise an option to transfer their membership to SERS Plan 3. SERS members joining the system on or after September 1, 2000, and before July 1, 2007, are members of SERS Plan 3. SERS members hired on or after July 1, 2007 have 90 days to choose between SERS Plan 3 and SERS Plan 2. Individuals who fail to make a choice will default to SERS Plan 3. As of June 30, 2010 there are 301 participating employers

in SERS Plan 3. See section B of Note 2 for SERS plan descriptions.

SERS Plan 3 has a dual benefit structure. Employer contributions finance a defined benefit component, and member contributions finance a defined contribution component. As established by chapter 41.34 RCW, employee contribution rates to the defined contribution component range from five percent to 15 percent of salaries based on member choice. There are currently no requirements for employer contributions to the defined contribution component of SERS Plan 3.

Membership in SERS Plan 3 consisted of the following as of the latest actuarial valuation date of June 30, 2009:

Retirees and Beneficiaries Receiving Benefits	1,759
Terminated Plan Members Entitled to but Not Yet Receiving Benefits	4,549
Active Plan Members Vested	16,590
Active Plan Members Nonvested	<u>15,687</u>
Total	38,585

SERS Plan 3 defined contribution retirement benefits are solely dependent upon the results of investment activities. Members may elect to self-direct the investment of their contributions. Any expenses incurred in conjunction with self-directed investments are to be paid by members. Absent a member's self-direction, SERS Plan 3 investments are made in the same portfolio as that of the SERS 2/3 defined benefit plan.

For Fiscal Year 2010, employee contributions were \$60.3 million, and plan refunds paid out were \$33.9 million.

Teachers' Retirement System Plan 3: The Teachers' Retirement System (TRS) Plan 3 is a defined benefit plan, with a defined contribution component, administered by the state through DRS. Eligibility for membership requires service as a certificated public school employee working in an instructional, administrative or supervisory capacity. TRS members

who joined on or after October 1, 1977 and by June 30, 1996 are Plan 2 members unless they exercised an option to transfer their membership to Plan 3. TRS members joining the system on or after July 1, 1996, and those who exercised their transfer option, are members of TRS Plan 3. As of June 30, 2010, there are 333 participating employers in TRS Plan 3. See section B of Note 2 for TRS plan descriptions.

TRS Plan 3 has a dual benefit structure. Employer contributions finance a defined benefit component, and member contributions finance a defined contribution component. As established by chapter 41.34 RCW, employee contribution rates to the defined contribution component range from five percent to 15 percent of salaries based on member choice. There are currently no requirements for employer contributions to the defined contribution component of TRS Plan 3.

Membership in TRS Plan 3 consisted of the following as of the latest actuarial valuation date of June 30, 2009:

Retirees and Beneficiaries Receiving Benefits	1,791
Terminated Plan Members Entitled to but Not Yet Receiving Benefits	5,345
Active Plan Members Vested	29,585
Active Plan Members Nonvested	<u>23,425</u>
Total	60,146

TRS Plan 3 defined contribution retirement benefits are solely dependent upon the results of investment activities. Members may elect to self-direct the investment of their contributions. Any expenses incurred in conjunction with self-directed investments are to be paid by members. Absent a member's self-direction, TRS Plan 3 investments are made in the same portfolio as that of the TRS 2/3 defined benefit plan.

For Fiscal Year 2010, employee contributions were \$254.2 million and plan refunds paid out were \$71.7 million.

Judicial Retirement Account: The Judicial Retirement Account (JRA) was established by the Legislature in 1988 to provide supplemental retirement benefits. It is a defined contribution plan administered by the state of Washington Administrative Office of the Courts, under the direction of the Board for Judicial Administration. Membership includes judges elected or appointed to the Supreme Court, Court of Appeals, and Superior Courts, and who are members of the PERS for their services as a judge. Vesting is full and immediate. At June 30, 2010, there were 11 active members and 186 inactive members in JRA. There are three participating employers in JRA.

From January 1, 2007 through December 31, 2007 any judicial members of the Public Employees' Retirement System (PERS) and the Teachers' Retirement System (TRS) eligible to participate in JRA were able to make a one-time irrevocable election to discontinue future contributions to JRA, in lieu of prospective contributions to the Judicial Benefit Multiplier Program (JBM). Beginning January 1, 2007 any newly elected or appointed Supreme Court Justice, Court of Appeals Judge or Superior Court Judge could no longer participate in JRA and would be enrolled in the JBM Program enacted in 2006. As of June 30, 2010, 189 JRA member judges have elected to enroll in JBM.

JRA plan members are required to contribute two and one-half percent of covered salary. The state, as employer, contributes an equal amount on a monthly basis. The employer and employee obligations to contribute are established per chapter 2.14 RCW. Plan provisions and contribution requirements are established in state statute and may be amended only by the state Legislature.

A JRA member who separates from judicial service for any reason is entitled to receive a lump-sum

distribution of the accumulated contributions. The administrator of JRA may adopt rules establishing other payment options. If a member dies, the amount of accumulated contributions standing to the member's credit at the time of the member's death is to be paid to the member's estate, or such person or persons, trust or organization as the member has nominated by written designation.

The Administrator of JRA has entered into an agreement with DRS for accounting and reporting services, and with the Washington State Investment Board (WSIB) for investment services. Under this agreement, DRS is responsible for all record keeping, accounting, and reporting of member accounts and the WSIB is granted the full power to establish investment policy, develop participant investment options and manage the investment funds for the JRA plan, consistent with the provisions of RCW 2.14.080 and 43.84.150.

F. Employer Contributions Required and Paid

The following table presents DRS' required contributions in thousands of dollars to cost-sharing plans in accordance with the funding policy. All contributions required by the funding method were paid.

	2010	2009	2008
(amounts expressed in thousands)			
PERS Plan 1	\$ 66.7	\$ 111.7	\$ 82.5
PERS Plan 2/3	632.3	981.2	717.2
Total	\$ 699.0	\$1,092.9	\$ 799.7

G. Deferred Compensation Plan

The state of Washington offers its employees and employees of those political subdivisions that elect to participate, a deferred compensation plan pursuant to RCW 41.50.770, in accordance with Internal Revenue Code Section 457. Under the plan, eligible employees elect to defer a portion of their salary until future time periods. The deferred compensation is not available to employees until termination, retirement,

disability, death or unforeseeable financial emergency. This deferred compensation plan is administered by DRS.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, are held in trust by the Washington State Investment Board (WSIB), as set forth under RCW 43.33A.030, for the exclusive benefit of the state deferred compensation plan's participants and their beneficiaries. Neither the participant, nor the participant's beneficiary or beneficiaries, nor any other designee, has any right to commute, sell, assign, transfer, or otherwise convey the right to receive any payments under the plan. These payments and rights thereto are nonassignable and nontransferable.

Employees participating in the state Deferred Compensation Plan self-direct the investment of the deferred portion of their income through the selection of investment options. These options are provided by the WSIB after consultation with the director of DRS. The WSIB has the full power to invest moneys in the state Deferred Compensation Plan in accordance with RCW 43.84.150, 43.33A.140, and 41.50.770. Pursuant to RCW 41.50.770, no state board, commission, agency, or any officer, employee or member thereof is liable for any loss or deficiency resulting from participant investments selected, or from reasonable efforts to implement investment directions.

The Deferred Compensation Plan offers a stable principal Savings Pool and twenty other investment options. The investment options consist of the following:

- Active U.S. Core Stock Fund
- Active U.S. Value Stock Fund
- Fidelity Growth Company Fund
- International Stock Fund
- Savings Pool
- U.S. Small Stock Index Fund
- U.S. Stock Market Index Fund
- Washington State Bond Fund
- Washington State Socially Responsible Balanced Fund
- 2000 Retirement Strategy
- 2005 Retirement Strategy
- 2010 Retirement Strategy
- 2015 Retirement Strategy

Note on PERS Plan 2/3, SERS Plan 2/3, PSERS Plan 2, TRS Plan 2/3, LEOFF Plan 2, and WSPRS Plan 1/2: These plans all use the Aggregate actuarial cost method which does not identify or separately amortize unfunded actuarial accrued liabilities. For this reason, the information about funded status and funding progress shown above for these plans has been prepared using the Entry Age actuarial cost method and is intended to serve as a surrogate for the funded status and funding progress information of these plans, as required by GASB 50.

Note for all plan schedules: Liability amounts and ratios/percentages are based on actual not rounded figures.

Schedule of Contributions from Employers and Other Contributing Entities

The following schedule covers the fiscal years ended 2005-2010.

	(dollars in millions)											
	Annual Required Contribution*						Percentage Contributed

* The Annual Required Contribution (ARC) changes each year with the experience of the plans. Factors influencing the experience include changes in funding methods, assumptions, plan provisions, and economic and demographic gains and losses. The methods used to derive the ARC for this accounting disclosure are different from the methods used to derive the actual contributions required by law. These differences include the use of different actuarial valuations (actual contributions may be based on an earlier valuation) and different actuarial cost methods. For these reasons, the actual contributions will not match the Annual Required Contributions. Starting in 2009, we calculated the ARC for PERS and TRS Plans 1 under the Entry Age Normal Cost method with a rolling 10-year amortization.

** PSERS Plan 2 became effective on July 1, 2006.

Investment Section

Report on Investment Activity

Prepared by the Washington State Investment Board

OVERVIEW

The Washington State Investment Board (WSIB) manages retirement fund assets to maximize return at a prudent level of risk (Chapter 43.33A.110 RCW). Investment decisions are made within the framework of a Strategic Asset Allocation Policy, and a series of written WSIB-adopted investment policies for the various asset classes in which WSIB invests.

The Retirement Funds, collectively called the Commingled Trust Fund (CTF), increased in value by \$5.2 billion during fiscal 2010 to \$52.6 billion. The CTF return was 13.22 % for the fiscal year.

Established on July 1, 1992, the CTF is a diversified pool of investments that invests in fixed income, public equity, private equity, real estate and tangible assets. Additional general information about the CTF includes:

- **Participant Concentration** – The DRS Retirement Funds make up 99.8% of the CTF. Their respective concentrations are:
 - PERS 1 (14.5%)
 - PERS 2/3 DB and DC plans (32.5%)
 - SERS 2/3 DB and DC plans (5.7%)
 - PSERS 2 (0.2%)
 - TRS 1 (12.2%)
 - TRS 2/3 DB and DC plans (15.1%)
 - WSPRS 1/2 (1.4%)
 - LEOFF 1 (8.7%)
 - LEOFF 2 (9.6%)
 - Judicial (0.0%)
- **External Managers** – The WSIB engages approximately 140 partnerships and external managers to assist in the management of the CTF's investments.
- **Risk** – The various risks of the CTF portfolio include interest rate risk, credit risk, concentration risk, and foreign currency risk, as described in Note 1 of the Financial Section of this report. The WSIB has not created a total fund risk profile for the CTF.
- **Leverage** – The WSIB does not leverage the CTF portfolio as a whole. Individual securities within the CTF do have leverage; however, the WSIB does not capture this information on a total basis.
- **Earnings** – The CTF does not distribute earnings directly to the owner funds. The Retirement Fund plans are allowed to purchase or sell units in the pool, based on the fair value of the underlying assets, on the first business day of each month. The net asset value includes interest and dividend income which is recognized on a trade date basis, and purchases and sales of investments which are recorded on a trade date basis.
- **Expense** – The CTF's expense ratio for the year ended March 31, 2010 was 0.7910%.
- **Yield** – The CTF's fixed income portfolio has a yield of 3.75%.
- **Weighted Average Maturity** – The CTF fixed income portfolio has a weighted average maturity of 6.20 years. Additional maturity information is available in Note 1 of the Financial Section of this report.

PERFORMANCE

The chart below shows the returns for the CTF on a total fund basis, as well as by asset class. Appropriate benchmark returns are provided for comparison purposes.

Periods Ending 6/30/2009

	1 Year	3 Year	5 Year
TOTAL FUND	13.22%	(4.80)%	4.08%
<i>Passive benchmark</i>	13.20%	(4.61)%	2.77%
Fixed Income	12.47%	8.92%	6.68%
<i>Barclays Capital Universal Index</i>	10.60%	7.22%	5.56%

<i>Dow Jones Wilshire Global Index</i>	13.80%	(9.74)%	1.99%
Private Equity	23.95%	(4.10)%	9.67%
<i>Russell 3000 (Lagged One Quarter) + 300 bp</i>	55.44%	(0.99)%	5.39%
Innovation	11.89%	n/a	n/a
<i>Custom Benchmark</i>	14.21%	n/a	n/a
Cash	0.17%	1.92%	3.01%
<i>90 Day T-bills</i>	0.16%	1.57%	2.77%

Performance information is compiled by the custodian, JP Morgan. Performance numbers are reported net of management fees, and are prepared using a time-weighted rate of return based on the current market value.

ASSET ALLOCATION

Investment performance is a result of two primary factors: individual asset selection and the allocation of the portfolio among asset classes (e.g. stocks, fixed income, real estate). Studies suggest that more than 90% of investment performance can be explained by asset allocation decision.

Accordingly, the WSIB sets a specific long-term target asset mix and adopts tight ranges around those targets to control the overall risk and return of the CTF. On a daily basis, the WSIB reviews the asset allocation in relation to the established ranges. The staff shifts assets whenever the allocation range for an asset exceeds the approved range or when cash is needed elsewhere. The WSIB reviews changes to the overall asset mix every three to four years.

The chart below shows the CTF's asset allocation as of June 30, 2010, as well as the long-term target allocations.

Current Asset Allocation and Long-Term Target Allocations

Asset Type	Target Allocation	Actual Allocation
Fixed Income	20.00%	21.89%
Tangible Assets	5.00%	1.16%
Real Estate	13.00%	14.21%
Global Equity	37.00%	34.71%
Private Equity	25.00%	25.76%
Innovation	0.00%	0.83%
Cash	0.00%	1.44%

PUBLIC EQUITY

The Public Markets equity investments are managed to the asset allocation targets and ranges adopted by the Board using a broad global equity benchmark, the Dow Jones Global Total Stock Market Index. This is a reflection of the globalization of capital markets. While the program is still being restructured, the current portfolio in the CTF remains a combination of separate United States (U.S.) and international components. In a world in which American companies like Coca-Cola get most of their revenue from overseas and many so-called foreign companies operate mainly in the U.S., distinctions between "U.S. stocks" and "international stocks" have become increasingly blurred. The WSIB believes that the future success of the program depends on investment managers finding the most attractive stock opportunities wherever they are in the world.

**Retirement Funds' Ten Largest Global Equity Holdings
As of 6/30/2010**

Exxon Mobil Corp.	1.10%	GlaxoSmithKline PLC	0.62%
Apple Inc.	0.86%	Johnson and Johnson	0.61%
Royal Dutch Shell PLC	0.76%	International Business Machines Corp.	0.59%
Microsoft Corp.	0.67%	Novartis AG	0.58%
Procter and Gamble Co.	0.65%	General Electric Co.	0.58%

**Retirement Funds' Ten Largest Global Equity Exposures by Country
As of 6/30/2010**

	CTF Weight	DJW Global Index Weight		CTF Weight	DJW Global Index Weight
United States	43.99%	41.32%	Switzerland	3.22%	2.97%
Japan	8.96%	9.93%	Germany	3.14%	2.82%
United Kingdom	8.48%	7.75%	Australia	2.83%	3.07%
France	4.05%	3.51%	Brazil	1.99%	1.96%
Canada	3.89%	4.38%	Netherlands	1.65%	0.99%

The ten largest country exposures comprise 82.20% of the portfolio versus the index at 79.22%.

U.S. EQUITY

The U.S. Equity portfolio is structured to capture the returns of the broad U.S. equity market as measured by the Dow Jones Total Stock Market Index (TSMI). The index is comprised of all U.S. domiciled common equities for which pricing information is readily available, and currently represents approximately 5,000 companies. The portfolio is managed externally using primarily passive management strategies that track the index. The remainder is invested in active enhanced strategies.

INTERNATIONAL

Approximately 75% of the International equity portfolio is invested in the developed markets with the remaining portion invested in the emerging markets. Portfolios are managed by external managers employing a combination of both active and passive management strategies.

FIXED INCOME

The Fixed Income portfolio is internally managed by WSIB staff with Barclays Capital Universal Index

as the performance benchmark. The management strategy is primarily one of the sector selection. The portfolio is structured to be over- or under- weighted relative to the benchmark's sectors: primarily treasuries, agencies, credit, mortgage backed securities and asset backed securities. The duration of the portfolio is slightly shorter than that of the Barclays Capital Universal Index.

**Retirement Funds' Fixed Income Sector Distribution
As of 6/30/2009**

<u>Investment Type</u>	<u>Barclays Capital Universal Index</u>	<u>WSIB Fixed Income</u>
Treasury Inflation Protected Securities (TIPS)	7.44%	0.00%
U.S. Treasury	5.85%	28.26%
U.S. Credit	59.04%	31.75%
U.S. Agency	0.00%	6.85%
Pass Through Mortgages	13.36%	30.06%
Commercial Mtge. Backed Securities (CMBS)	4.12%	2.83%
Collateralized Mortgage Obligations (CMO)	8.94%	0.00%
Asset Backed Securities (ABS)	1.21%	0.25%
Cash	0.04%	0.00%

PRIVATE EQUITY

The private equity portfolio, originated in 1981, is primarily invested in partnerships that acquire or create ongoing businesses or operating companies. The WSIB has investments in all stages of the business life cycle, from private start-up technology companies to large multinational public concerns. These are long-term investments, typically 10 to 12 years in life. They are expected to generate investment returns well in excess of public equity securities. At the portfolio company level, approximately 38% is invested in private equity outside the United States.

REAL ESTATE

The Real Estate portfolio is invested in a diversified group of properties including office buildings, retail facilities, apartments, warehouses and specialty properties. The majority of these investments have been made in partnerships with operating management groups. The WSIB invests in real estate both in the United States and internationally.

TANGIBLE ASSETS

The Board added Tangible Assets to its asset allocation in November 2007, and adopted an investment policy for the new assets class in January 2008. The long-term allocation target is 5%, plus or minus 2%, and the benchmark is the Consumer Price Index (CPI) lagged one quarter plus 400 basis points. The categories of investments in this asset class are agriculture, commodities, infrastructure, natural resource rights and timber. As this is a new asset class, the WSIB is still working towards building to its allocated target.

PORTFOLIO HOLDINGS

Summary of Investment Policies

The Washington State Investment Board (WSIB) has been authorized by statute as having the investment management responsibility for the pension funds. The WSIB manages retirement fund assets to maximize return at a prudent level of risk (RCW 43.33A.110).

RETIREMENT FUND ASSET ALLOCATION

WSIB establishes asset allocation targets that must be considered at all times when making investment decisions. The asset mix may deviate from the target. Deviations greater than predetermined acceptable levels require rebalancing back to the target. When an asset class exceeds its range, the goal of rebalancing will be to meet the target allocation within consideration of the other remaining asset classes.

Retirement funds are invested in the Commingled Trust Funds (CTF). The CTF's performance benchmark objective is to exceed the return of a policy benchmark consisting of public market indices weighted according to asset allocation targets. The asset allocation for the CTF is formally reviewed every three or four years. WSIB reviews the asset allocation in relation to the established ranges periodically.

PUBLIC MARKETS EQUITY

The Public Markets equity program seeks to:

- Achieve the highest return possible consistent with the desire to control asset volatility;
- Ensure protection for long-term liabilities, since shorter term liabilities are more suitably protected by lower volatility instruments such as fixed income securities; and
- Provide diversification to the WSIB's overall investment program.

The public markets equity portion of the Retirement Funds includes strategies in the U.S., developed international, and emerging markets. Since the U.S. equity markets are generally efficient, the domestic equity portfolio is 100% passively managed. Over time, the domestic equity portfolio should track the return of a broad U.S. market benchmark, the Dow Jones U.S. Total Stock Market Index (TSMI). Non-U.S. markets are generally less efficient than the U.S. market; therefore, more active management will be included in the approach taken with international markets. The weightings of the elements of the developed markets and emerging markets of the international equity program will be similar to the weightings of the MSCI All Country World ex. U.S. IMI Index which serves as the benchmark for the WSIB's entire international program.

FIXED INCOME

The WSIB's fixed income investments are actively managed with the goal of exceeding the return of the Barclays Capital Universal Index over the long term. The major permissible investments include U.S. Treasuries and government agencies, Treasury Inflation Protection Securities (TIPS), mortgage-backed securities, asset-backed securities, and credit bonds, both investment grade in quality and below investment grade.

The portfolio is constrained by policy from investing more than 1% of the portfolio's par holdings in any single issuer with a quality rating below investment grade, and from having a duration (the sensitivity of the portfolio's market value to changes in the level of interest rates) that is more than 20% different than the duration of the Universal Index. In addition, the major sector allocations are limited to the following ranges:

U.S. Treasuries and Government Agencies	10-45%
Credit Bonds	10-60%
Asset-Backed Securities	0-10%
Commercial Mortgage-Backed Securities	0-10%
Mortgage-Backed Securities	5-45%

PRIVATE EQUITY INVESTING

The WSIB can invest in any appropriate private equity investment opportunity which has the potential for returns superior to traditional investment opportunities and which is not prohibited by the WSIB’s policies or by law. As previously indicated, these investment types are divided into venture capital investments, corporate finance (including leveraged, management and employee buyouts), distressed, international and mezzanine investments. Private equity investments are made through limited partnership vehicles.

To meet the return and plan objectives, the private equity portfolio has diversified investments in companies in a variety of stages of growth. The portfolio also includes a broad cross-section of opportunities in different industries and geographic regions.

REAL ESTATE PROGRAM

The WSIB’s real estate program is an externally managed pool of selected partnership investments, intended to provide alternative portfolio characteristics when compared to traditional stock and bond investments. The majority of the WSIB’s partnerships invest in institutional-quality real estate assets that are leased to third parties. The combination of income generated from bond-like lease payments, coupled with the hard asset qualities of real estate, combine to generate returns that are expected to fall between the return expectations for fixed income and equities. The real estate portfolio is managed to deliver risk-adjusted returns that are consistent with the Board’s long term return expectations for the asset class. The WSIB’s real estate partnerships

typically invest in private real estate assets that are held for long term income and appreciation. Many of the WSIB’s investment partnerships do not involve co-investment with other financial entities, thereby providing the WSIB with control provisions related to liquidation, acquisition and ongoing operational decisions for annual capital expenditures.

Volatility within the real estate portfolio is minimized through a combination of factors. First, the majority of the WSIB’s partners own real estate assets in a private investment form which is not subject to public market volatility. Secondly, real estate capital is diversified among a host of partners with varying investment styles. Thirdly, partnership assets are invested in numerous economic regions, including foreign markets, and in various property types. Finally, WSIB partners invest at different points within the properties’ capital structure and life cycle.

The WSIB’s current benchmark for real estate is an 8% return over a rolling ten years. The National Council of Real Estate Investment Fiduciaries (NCREIF) property index lagged one quarter is still used for comparison purposes but is no longer the policy benchmark.

TANGIBLE ASSETS

The WSIB can invest in any tangible asset investment opportunity demonstrating acceptable risk-adjusted returns provided such opportunities are not prohibited by Board policy or by law. The WSIB will seek to establish a prudent and disciplined approach to achieving a well-diversified portfolio of tangible asset investments targeting appropriate risk-adjusted returns for the asset class. Staff will make best efforts to obtain significant co-investment from their investment partners in order to improve alignment of interests.

Staff will prudently seek to diversify the portfolio cognizant of each partner’s strategy and business plan. Investments will not be made solely to achieve product type or geographic diversification.

Actuarial Section

State Actuary's Certification Letter

Office of the State Actuary

"Securing tomorrow's pensions today."

September 17, 2010

Mr. Steve Hill
Director
Department of Retirement Systems
PO Box 48380
Olympia, Washington 98504-8380

RE: ACTUARIAL CERTIFICATION LETTER

Dear Steve:

We prepared the following information for inclusion in the 2010 Comprehensive Annual Financial Report (CAFR):

- ❖ Number of Participating Members.
- ❖ Schedule of Active Member Valuation Data.
- ❖ Schedule of Changes to Retiree and Beneficiary Rolls.
- ❖ Distribution of Membership.
- ❖ Schedule of Benefit Recipients by Type of Benefit.
- ❖ Schedule of Average Benefit Payments to New Service Retirees.
- ❖ Financial Information - Funding Paragraph and Footnote.
- ❖ Note 2C: Funding Policy.
- ❖ Schedule of Funding Progress.
- ❖ Additional Information for the Defined Benefit Plans.
- ❖ Note 2D: Employer Contributions Required and Paid.
- ❖ Schedule of Contributions from Employers and Others.
- ❖ Summary of Actuarial Assumptions and Methods.
- ❖ Solvency Test.
- ❖ Analysis of Selected Experience.
- ❖ The Governmental Accounting Standards Board (GASB) 45 Requirements.

The primary purpose of this information is to satisfy the actuarial reporting requirements of GASB and the Government Finance Officers Association (GFOA). Readers should not use this information for other purposes.

We perform annual actuarial valuations on the plans included in the CAFR. We performed the most recent actuarial valuation in 2010 with a valuation date of June 30, 2009.

GASB requires the disclosure of Annual Required Contributions (ARC) versus actual contributions collected. The ARC and actual contributions collected are likely based on contribution rates determined at different times. Because of these potential timing differences the percentage of ARC contributed may not represent a true comparison of the actual contributions collected and the contributions recommended by the Office of the State Actuary.

The state's funding policy is found in Chapter 41.45 RCW – Actuarial Funding of State Retirement Systems. It includes the objectives to:

- ❖ Continue to fully fund the retirement system Plans 2 and 3, and the Washington State Patrol Retirement System (WSPRS), as provided by law.
- ❖ Amortize fully the total cost of: the Public Employees Retirement System (PERS) Plan 1 and the Teachers' Retirement System (TRS) Plan 1 over a rolling ten-year period with minimum contribution rates starting in 2015; and the Law Enforcement Officers' and Fire Fighters' (LEOFF) Plan 1 not later than June 30, 2024.

All retirement system Plans 2 and 3, WSPRS, and LEOFF Plan 1 are fully funded as of the latest actuarial valuation. The 2009 Legislature enacted a new funding method for PERS Plan 1 and TRS Plan 1. The new funding method is based upon a variation of the Entry Age Normal (EAN) cost method. Provided the state and participating employers make the contributions required by the funding method, they will fully amortize the PERS Plan 1 and TRS Plan 1 unfunded actuarial accrued liability, as provided by law.

We prepared the required accounting disclosures in accordance with GASB statements 25, 27, 43, and 50. We prepared all other items in accordance with generally accepted actuarial principles and standards of practice as of the date of this letter.

We relied on participant data provided by your department to perform the latest actuarial valuation. We checked the data for reasonableness as appropriate based on the purpose of the valuation. The Washington State Investment Board, your department, and the Office of the State Treasurer provided financial and asset information. The financial and asset information was audited. The participant data was not audited. I relied on all the

Mr. Steve Hill
Page 3 of 3

information provided as complete and accurate. In my opinion, this information is adequate and substantially complete for purposes of this valuation. Please see the Actuarial Certification Letter in the *2009 Actuarial Valuation Report* for additional information on the certification of the latest actuarial valuation results.

I certify that the actuarial submissions in the 2010 CAFR meet the GFOA standards for actuarial reporting.

The undersigned, with actuarial credentials, meets the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein.

Sincerely,

Matthew M. Smith, FCA, EA, MAAA
State Actuary

Summary of Plan Provisions

A narrative summary of retirement plans managed by DRS is provided in Section B of Note 2 in the Financial Section of this CAFR. A tabular summary of key plan provisions as of June 30, 2010 is provided below.

Plan	Membership Eligibility	Vesting	Retirement Eligibility	Benefit
PERS Plan 1 (By 9/30/77)	State employees, elected officials, employees of local governments, legislative committees, community/technical colleges, classified employees of school districts, district/municipal court judges, and some employees of the Supreme, Appeals and Superior Courts	After five years of eligible service	After 30 years of service, or at age 60 with five years service, or at age 55 with 25 years of service	2% of average final compensation (AFC) per year of service, capped at 60% of AFC JBM Participants: 3.5% of AFC per year of service, capped at 75% of AFC
PERS Plan 2 (On or after 10/1/77)	Same as PERS Plan 1, except classified school district employees; new employees hired on or after 3/1/02 at state agencies and higher education, or on or after 9/1/02 at all other employers, must choose Plan 2 or Plan 3	After five years of eligible service	At age 65 with five years of service, or an actuarially reduced benefit at age 55 with 20 years of service	2% of AFC per year of service JBM Participants: 3.5% of AFC per year of service, capped at 75% of AFC
PERS Plan 3 (Varies by employer)	Same as PERS Plan 2; new employees hired on or after 3/1/02 at state agencies and higher education, or on or after 9/1/02 at all other employers, must choose Plan 2 or Plan 3	Varies	At age 65 if vested, or an actuarially reduced benefit at age 55 with 10 years of service (defined benefit portion)	1% of AFC per year of service (defined benefit portion) JBM Participants: 1.6% of AFC per year of service, capped at 37.5% of AFC The defined contribution portion depends on the member's contribution level and on investment performance.
SERS Plan 2 (By 8/31/00)	All classified employees of school districts or educational service districts. Also includes individuals first hired on or after July 1, 2007 with no past PERS Plan 2 service who chose Plan 2 within the 90-day window	After five years of eligible service	At age 65 with five years of service, or an actuarially reduced benefit at age 55 with 20 years of service	2% of AFC per year of service
SERS Plan 3 (On or after 9/1/00)	All classified employees of school districts or educational service districts. Also includes individuals first hired on or after July 1, 2007 with no past PERS Plan 2 service who chose Plan 3 within the 90-day window	Varies	At age 65 if vested, or an actuarially reduced benefit at age 55 with 10 years of service (defined benefit portion)	1% of AFC per year of service (defined benefit portion) The defined contribution portion depends on the member's contribution level and on investment performance.
PSERS Plan 2 (On or after 7/1/06)	All full-time public safety officers at select state agencies, counties and cities except Seattle, Spokane and Tacoma	After five years of eligible service	At age 65 with five years of service, at age 60 with 10 years of PSERS service, or at age 53 with 20 years of service reduced three percent for each year under age 60	2% of AFC per year of service
TRS Plan 1 (By 9/30/77)	All certificated public school employees who work in an instructional, administrative or supervisory capacity	After five years of eligible service	Any age with 30 years of service, or at age 60 with five years of service, or at age 55 with 25 years of service	2% of monthly AFC per year of service, capped at 60% of monthly AFC JBM Participants: 3.5% of monthly AFC per year of service, capped at 75% of monthly AFC

Chart continued on page 117

Chart continued from page 116

Plan	Membership Eligibility	Vesting	Retirement Eligibility	Benefit
TRS Plan 2 (On or after 10/1/77 and by 6/30/96)	All certificated public school employees who work in an instructional, administrative or supervisory capacity	After five years of eligible service	At age 65 with five years of service, or an actuarially reduced benefit at age 55 with 20 years of service	2% of AFC per year of service
TRS Plan 3 (On or after 7/1/96)	All certificated public school employees who work in an instructional, administrative or supervisory capacity	Varies	At age 65 if vested, or an actuarially reduced benefit at age 55 with 10 years of service (defined benefit portion)	1% of AFC per year of service (defined benefit portion) The defined contribution portion depends on the member's contribution level and on investment performance.
LEOFF Plan 1 (By 9/30/77)	All full-time, fully compensated law enforcement officers and fire fighters	After five years of eligible service	At age 50 with five years of service	20+ years of service: 2% of final average salary (FAS) per year of service 10-19 years of service: 1.5% of FAS per year of service 5-9 years of service: 1% of FAS per year of service
LEOFF Plan 2 (On or after 10/1/77)	All full-time, fully compensated law enforcement officers, fire fighters and, as of 7/24/05, emergency medical technicians	After five years of eligible service	At age 53 with five years of service, or a benefit at age 50 with 20 years of service reduced 3% for each year under age 53	2% of FAS per year of service
WSPRS Plan 1 (On or after 8/1/47 and by 12/31/02)	Commissioned employees of the Washington State Patrol	No requirement for active members; after five years of eligible service for inactive members	At age 55 or after 25 years of service	2% of average final salary (AFS) per year of service, capped at 75% of AFS.
WSPRS Plan 2 (On or after 1/1/03)	Commissioned employees of the Washington State Patrol	No requirement for active members; after five years of eligible service for inactive members	At age 55 or after 25 years of service	2% of AFS per year of service, capped at 75% of AFS.
JRS (On or after 8/9/71 and by 6/30/88 – New judges on or after 7/1/88 join PERS Plan 2 or 3)	Judges elected or appointed to the Supreme Court, the Court of Appeals and Superior Courts	After 15 years of service	At age 60	15 years of service: 3.5% of AFC per year of service, capped at 75% of AFC. 10-14 years of service: 3% of AFC per year of service, capped at 75% of AFC
Judges (By 8/8/71)	Judges elected or appointed to the Supreme Court, the Court of Appeals and Superior Courts	After 12 years of service	At age 70 with 10 years of service or any age with 18 years of service	1/2 of the monthly salary

DRS publishes handbooks describing the rights and benefits for each system and plan, including disability and survivor benefits. These handbooks are provided to members by their employers. They are also available from DRS and are on the DRS Web site at www.drs.wa.gov.

Summary of Actuarial Assumptions and Methods

1. ACTUARIAL ASSUMPTIONS AND METHODS SELECTION:

Economic Assumptions and Methods:

Developed in accordance with Washington State law and the Pension Funding Council.

Demographic Assumptions and Methods:

Derived by the Washington State Office of the State Actuary (OSA) and based on the 2001-2006 Experience Studies (adopted July 2008). Additional assumptions for subsequent events and law changes are current as of the latest actuarial valuation report.

2. INVESTMENT RETURN:

8.0% per annum

3. MORTALITY TABLES (page 1 of 3):

Mortality rates are based on the RP-2000 Combined Healthy Table and Combined Disabled Table (except LEOFF Plan 1) published by the Society of Actuaries. OSA recognized future improvements in mortality by projecting the mortality rates using 50% of Scale AA (published by the Society of Actuaries) beginning with the 2007 valuation. JRS utilizes the RP-2000 Combined Healthy Mortality Table with age offsets of -6 and 6, for males and females respectively.

Probabilities of mortality are illustrated in the following tables.

Projected Healthy Mortality

7. FUTURE SALARIES (page 1 of 2):

The following tables indicate the scale of relative salary values used to estimate future salaries for valuation purposes. In addition to increases in salary due to promotions and longevity, there is an assumed 4.0% per annum rate of increase in the general salary level of the membership. Exception: 4.5% in LEOFF Plan 2. The salary ratio describes the final salary over the current salary.

7. FUTURE SALARIES (page 2 of 2):

Relative Salary Values						
	PERS/SERS/ PSERS	TRS	LEOFF 1	LEOFF 2	WSPRS	JRS
Annual Percent Increase	5.30%	4.94%	5.30%	5.81%	5.30%	4.00%
Attributed to Growth In Active Group Size	1.25%	0.90%	1.25%	1.25%	1.25%	0.00%
Attributed to the Effects of Inflation on Salaries	4.00%	4.00%	4.00%	4.50%	4.00%	4.00%

8. OTHER SPECIFIC ASSUMPTIONS THAT HAVE A MATERIAL IMPACT ON VALUATION RESULTS:

- Members of the following plans increase their Average Final Compensation by an average stated below by cashing out sick leave or annual leave pay, or by increasing overtime:
PERS Plan 1 up to 4.5%, TRS Plan 1 up to 1.0%, and WSPRS Plan 1 up to 7.5%.
- Post-retirement cost-of-living increases are assumed to be 3.0% each year for all plans except:
LEOFF Plan 1 at 3.5%, and PERS Plan 1/TRS Plan 1 receive a uniform COLA.
- LEOFF Plan 2 members are assumed to disable or die due to duty-related injury or illness at a rate which varies with age. For more details, contact the Office of the State Actuary.
- Other assumptions include the probability of a vested terminated member not withdrawing his or her contributions from the plan, the probability of being married, military service, single life annuity refund on death, and beneficiary age. More details on these and other assumptions can be obtained from the Office of the State Actuary.

9. CHANGE IN ASSUMPTIONS:

Assumption Changes:

- Updated the LEOFF Plan 2 Early Retirement Factors, and Joint and Survivor Factors based on results of the 2001-2006 demographic experience study and adoption by the LEOFF Plan 2 Board.
- Changed the assumed ratio of survivors of WSPRS Plan 2 duty-related deaths selecting annuities to 60%, regardless of the member's age at death.
- Increased our assumed ratio of survivors selecting annuities in accordance with Chapters 521, 522, and 523, Laws of 2009.
- Changed the TRS general salary increase assumption to model the bonuses received by members who attain national board certification.
- Performed a LEOFF Plan 2 disability assumption experience study based on recent experience data. Both the disability rates and the percent of disabilities assumed to be catastrophic changed.

Method Changes:

- Implemented new benefits for survivors of PERS Plan 1 inactive deaths according to Chapter 111, Laws of 2009.
- Incorporated the cost of TRS Plan 1 supplemental death benefits into our valuation model. In prior valuations, the liability was estimated outside the valuation.
- Refined the LEOFF Plan 2 inactive death benefit in our model to include the survivor's option to select 150% of the member's savings in lieu of a monthly benefit.
- Removed the cost to reimburse medical premiums for LEOFF Plan 2 and WSPRS survivors of duty-related deaths from the pension plan. This cost will be valued separately and future benefits will be paid from a 401 (h) account.

10. ACTUARIAL COST METHOD:

Valuation assets are at market value with annual gains and losses recognized on a graded scale over an eight-year period. Additionally, the actuarial value of assets may not exceed 130%, nor drop below 70%, of the market value of assets. JRS and Judges use the market value of assets for valuation assets.

PERS Plan 1, TRS Plan 1, LEOFF Plan 1, JRS and Judges:

Funding (Actual Contributions): A variation of the Entry Age Normal (EAN) Cost Method is used for PERS Plan 1 and TRS Plan 1. The contribution toward the UAAL has been developed in the valuation as a level percentage of expected future covered payrolls which will amortize the UAAL over a rolling ten-year period. PERS Plan 1 amortizes the UAAL over all PERS, SERS, and PSERS payroll, including projected system growth. TRS Plan 1 amortizes the UAAL over all TRS payroll, including projected system growth. The UAAL rates have contribution rate ceilings effective 2009-2015. After 2015, PERS Plan 1 has a minimum UAAL rate of 5.25%, and TRS Plan 1 has a minimum UAAL rate of 8.00%. No contributions are required when the LEOFF Plan 1 is fully funded. JRS and Judges are funded on a pay-as-you-go basis.

Disclosure (Annual Required Contributions): The funding method described in the previous paragraph for PERS Plan 1 and TRS Plan 1 is not an acceptable method for the GASB Statement Number 25 disclosures since it includes payroll outside the plan. In order to meet GASB Statement Number 25 requirements, the Entry Age cost method has been used for these plans. The UAAL is amortized as a level dollar amount over the applicable amortization period. PERS Plan 1 and TRS Plan 1 use a rolling ten-year amortization period. We report annual required contributions for JRS and Judges under the Entry Age Cost Method with a rolling five-year amortization period.

PERS Plan 2/3, SERS Plan 2/3, TRS Plan 2/3, PSERS Plan 2, LEOFF Plan 2, and WSPRS:

The Aggregate Actuarial Cost Method is used to calculate the contribution rates. Under this method the unfunded actuarial present value of fully projected benefits is amortized over the projected earnings of the active group. The entire contribution is normal cost, and no UAAL exists. All gains and losses are amortized over future salaries of current active members. PERS Plan 2/3, TRS Plan 2/3, SERS Plan 2/3 and PSERS Plan 2 minimum contribution rates are based upon 80% of the Entry Age Normal Cost Rate (EANC). WSPRS minimum contribution rates are based upon 70% of the EANC. Similarly, LEOFF Plan 2 minimum contribution rates are based upon 90% of the EANC.

11. CHANGE IN FUNDING POLICY:

None

12. MATERIAL CHANGES IN BENEFIT PROVISIONS AND CONTRIBUTION RATES:

The GASB disclosure contribution rates are based on the latest actuarial valuations as of June 30, 2009.

The following laws, enacted in 2010, had an immediate impact on the latest actuarial valuation contribution rates:

- Higher Education Coordinating Board (Chapter 21, Laws of 2010)
- LEOFF Plan 2 Medical Premiums (Chapter 259, Laws of 2010)
- LEOFF Plan 2 Shared Leave (Chapter 50, Laws of 2010)
- Part-Time Service Credit (Chapter 103, Laws of 2010)
- Prior Military Service Credit (Chapter 260, Laws of 2010)
- Public Safety Duty Death Benefits (Chapter 261, Laws of 2010)

Note on PERS Plan 2/3, SERS Plan 2/3, PSERS Plan 2, TRS Plan 2/3, LEOFF Plan 2 and WSPRS Plan 1/2: The actuarial accrued liability (AAL) presented in these charts reflects the actual actuarial valuation method (Aggregate Cost) used to calculate the annual required contributions for these plans. This Aggregate Cost method does not separately amortize unfunded actuarial liabilities and, by definition, sets the accrued liabilities equal to the assets. Therefore, the funded status is always 100%. These AAL amounts differ from those presented in the schedules of funded status and funding progress included in the Notes to the Financial Statements in the Financial Section, where a different valuation method (Entry Age) was used as a surrogate.

Statistical Section

Statistical Section

This part of the Department of Retirement Systems' comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about DRS' overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends	149
These schedules contain trend information to help the reader understand how DRS' financial performance and well-being have changed over time.	
Demographic Information	160
These schedules contain demographic and historical information regarding membership and employer participation in the pension plans offered by DRS.	
Operating Information	180
These schedules contain detailed payment information to enhance the reader's understanding of the benefit services provided by DRS.	
Deferred Compensation Information	207
These schedules contain comprehensive information to enhance the reader's understanding of this optional program.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Deferred Compensation Program

Background

In 1981, the Washington State legislature established the Deferred Compensation Program (DCP) and created the Committee for Deferred Compensation (CDC) as the governing body. From 1981 to 1984, the CDC contracted with the National Plan Coordinators Inc. to provide administrative and marketing services. In 1985, the CDC took over responsibility for administering the program, and assumed marketing responsibility in 1986.

In 1989, the Committee began managing investments for the Judicial Retirement Account (JRA) as a result of an agreement with the Administrative Office of the Courts (AOC). On July 1, 1996, the merger of DCP and DRS took effect and DRS, via an inter-agency agreement, assumed the investing, accounting and reporting responsibilities of the JRA member accounts. These operational functions replicated those that were already in place for the DCP participant accounts. A subsequent agreement signed November 24, 1998 between DRS, AOC and the Washington State Investment Board (WSIB) transferred investing responsibilities to the WSIB.

What is DCP?

DCP is a voluntary retirement savings plan established for employees of the state and other political subdivisions, elected and appointed state officials, members of the state legislature, and some judges. The program meets the requirements of Section 457 of the Internal Revenue Code.

The intent of the program is to provide additional income to participants upon retirement. By deferring part of their income, participants can reduce their taxable income each year. Participants can choose to invest in a number of different investment options. The investments made each month grow tax free until they are withdrawn. The program provides participants with a means to easily save money and help supplement their other retirement income.

** Data not available. These funds have not been in existence long enough to have performance history for these periods.

¹Historic performance is not necessarily indicative of future investment performance, which could differ substantially. Total return assumes that an investment is made at the beginning of the period and redeemed at the end of the period after reinvestment of any dividends and capital gains distributions. Investment return and principal value may fluctuate so that your investment, when redeemed, may be worth more or less than the contributions to your individual account. All returns are calculated in U.S. dollars.

²Estimated returns the portfolio would have earned using the return data from the various components.
