DISCLOSURE REQUIREMENTS FOR CONTRIBUTIONS TO CANDIDATES AND POLITICAL COMMITTEES

Identification of Contributions: State law (RCW 42.17.120) provides that no contribution shall be made which in any manner conceals the identity of its source or in any other manner which effects concealment. State law (RCW 42.17.060) also provides that the campaign treasurer shall prepare and file with the public disclosure commission a statement containing the name of each person contributing the funds so deposited and the amount. Those not exceeding \$25 from any one person may be deposited without identifying the contributor.

State law (RCW 42.17.100) provides that any person who contributes in the aggregate amount of \$100 or more during the preceding 12-month period to any political committee not domiciled in the state of Washington or not otherwise required to report shall file with the commission within 3 days after the contribution was made a report signed by the contributor disclosing his or her name and address, the date, nature, purpose, amount and recipient of such contribution, and any instructions given as to its use or disbursement.

Candidate's and Treasurer's Duty to Report: On the day the campaign treasurer is designated, each candidate or political committee shall file with the commission and the county auditor of the county in which the candidate resides (or in the case of a political committee, the county in which the campaign treasurer resides) a report of all contributions received and expenditures made in the election campaign prior to that date, as provided by state law (RCW 42.17.080). Further reports shall be made on the 7th and 21st day immediately preceding the date of the election, within 21 days after the date of a primary election and within 21 days after the date of all other elections. This will be the final report if there is no outstanding debt or obligation and the campaign fund is closed.

The campaign treasurer shall maintain books of account reflecting all contributions within 3 business days of receipt. During the 8 days immediately preceding the date of the election, the books of account shall be kept current within 1 business day and be open for public inspection for at least 2 consecutive hours Monday through Friday, excluding legal holidays, between 8:00 a.m. and 8:00 p.m. For additional information, contact the Public Disclosure Commission, 403 Evergreen Plaza, FJ-42, Olympia, WA 98504, (206) 753-1111.

FEDERAL INCOME TAX CREDITS AND DEDUCTIONS FOR CONTRIBUTIONS

Contributions or gifts made to political parties or candidates may not be deducted as business expenses. In addition, expenses paid or incurred to take part in any political campaign on behalf of a candidate for public office are not deductible business expenses. Also, indirect political contributions, such as advertising for a political party or admission to a program with proceeds going to a political party or candidate, are not deductible as business expenses.

Presidential Election Campaign Fund Checkoff: Individuals, however, can make deductible contributions. For example, the Presidential Election Campaign Fund checkoff. This fund was established to help pay for presidential election campaigns. \$1 may be taken (\$2 on a joint return) from an individual's taxes to go to a general fund, not for any specific party, to meet the expenses of the 1984 presidential election. The contribution will not increase your tax or reduce your refund and may not be claimed as a partial credit for political contributions.

Political Contributions Tax Credit: A person may take a tax credit of up to \$50 (\$100 on a joint return) for half the political contributions he or she makes during the year. Only individuals may claim this credit. This credit may not be taken for the \$1 or \$2 amount checked on a return to go to the Presidential Election Campaign Fund.

A political contribution that qualifies for the credit is a contribution of money during the year to a qualified candidate for nomination or election to any federal, state or local office who announces his or her candidacy before the end of the following calendar year and uses the money to further the candidacy; a campaign committee operated exclusively to further the election of one or more candidates to public office; a national, state or local committee of a national political party; or a newsletter fund established and maintained by a person who holds, has been elected to, or is a candidate for public office. A contribution to the newsletter fund must be used by that person in preparing and circulating the newsletter.

A written receipt is required to prove contributions. Cancelled checks will in most cases meet this requirement. If a book is bought from a committee of a national political party at a price greater than the fair market value of the book, the contribution that may qualify for the credit is the difference between the sales price and the fair market value of the book. The amount paid to a political candidate or campaign committee for a ticket for a raffle, lottery or similar drawing for valuable prizes does not qualify for the credit. Contributions for political activities not directly related to a nomination or election campaign does not qualify for credit. For additional information, contact the local office of the Internal Revenue Service.

INTRODUCTION TO THE 1984 VOTER'S PAMPH

WASHINGTON STATE LIBRARY

A60004 707470

FELLOW WASHINGTONIANS,

On November 6, you will have the opportunity to vote for President and Vice President of the United States, on three state ballot measures and federal and state offices. I know this pamphlet will be useful in helping you make your decisions on the critical issues and candidates facing all of us this election year.

Washington, in 1914, was one of the first states in the Union to prepare a voters' pamphlet for its citizens. We remain in the vanguard of voter information. Editions of the Voters' Pamphlet are available on tape cassette, in braille, and in a Spanish language version. For additional copies of any version of the Voters' Pamphlet or other voter information, please call our **Voter Information Hotline**, Monday through Friday, 12 noon to 8:00 p.m., **1-800-824-VOTE!**

I want to take this opportunity to thank the many Washingtonians who help with our elections — the hundreds of volunteer voter registrars, our county auditors and their staffs, the poll workers and election day volunteers, and others who work so hard to see that our elections run smoothly.

Initiative Measure 456

TO THE PEOPLE

NOTE: The ballot title and explanatory statement were written by the Attorney General as required by state law. The complete text of Initiative Measure 456 is contained on page 10.

Statement for

Ten years ago, before the Boldt decision, our state's salmon season stretched from April to October. This year the season lasted only 9 days! It's clear the present management system doesn't work . . .

A NEW APPROACH IS NEEDED

The record shows there are simply too many agencies and "self-regulating" Indian tribes involved in the chaotic mismanagement of our fisheries.

The multi-million dollar pricetag for this flawed "co-management" system is passed along to the state's taxpayers, while businesses are going bankrupt in record numbers (especially marine and tourist-related industries) at a time when we need to create jobs.

THERE CANNOT BE TWO SETS OF STANDARDS

For conservation's sake, catch limits and season closures should apply equally to all! Commercial netting by Indians of the spawning stocks in our rivers, lakes, and streams must stop — no one has the right to destroy our state's renewable natural resources.

CONGRESS CAN CHANGE THIS!

456 will encourage Congress to acknowledge the severe problems inherent to the present unworkable system. Congress has acted to resolve similar problems in other states, such as Alaska and Maine.

MORE THAN FISH

This isn't an isolated, regional issue — and it involves more than fish! Congress must address questions related to property rights, water and mineral claims, timber, game, hydroelectric power . . . plus unregulated gambling, illegal fireworks, untaxed cigarette and liquor sales on Indian reservations, *contrary to treaties!*

Official Ballot Title:

Shall Congress be petitioned to decommercialize steelhead, and state policies respecting Indian rights and management of natural resources be enacted?

The law as it now exists:

State law prohibits the commercialization and sale of steelhead. However, that prohibition does not apply to persons who have federally-secured treaty fishing rights. All citizens are entitled under the United States Constitution to equal protection of rights, privileges and immunities which must be recognized by the state. Federally-secured Indian treaty rights must also be recognized and respected by the state.

ALL CITIZENS MUST BE TREATED EQUALLY UNDER THE LAW

The principle of equal rights, as guaranteed under the Fourteenth Amendment to the U.S. Constitution, is the basis of "liberty and justice for all." There cannot be two classes of citizens in America. Special rights by reason of race have no place in an open, democratic society, and actually violate United States Constitutional principles.

VOTE YES ON 456 FOR EQUAL RIGHTS AND OPPORTUNITY

Rebuttal of Statement against

456 has been endorsed by such "good government" groups as the Washington State Grange, Washington State Republican Party, Washington State Sportsmen's Council . . . plus hundreds of others. Why? Because it isn't a question of breaking treaties but, rather, interpreting them *accurately* and enforcing them *fairly*.

With 456, *all* citizens (including Indians) will have full access to our resources — *on an equal treatment basis according to sound conservation policies!* No longer would there be special privileges or burdens placed upon citizens of any ethnic group. **Vote Yes!**

Voters Pamphlet Statement Prepared by:

A. L. "SLIM" RASMUSSEN, State Senator; MARY MARGARET HAUGEN, State Representative; DALE WARD, Chairman, Steelhead & Salmon Protection Action for Washington Now.

Advisory Committee: CARL CROUSE, Former Regional Director, National Wildlife Federation; DON AHRENHOLTZ, Executive Vice President, Washington State Farm Bureau; REVEREND JAMES W. SHAW, Pastor, Bellevue Baptist Church; RICHARD DALE SMITH, Former Director, Port of Tacoma; DAVID A. WELTS, Attorney and Former President, Washington State Bar Association.

The effect of Initiative No. 456, if approved into law:

This initiative would petition Congress to provide as a matter of federal law that steelhead be classified as a national game fish. Such action by Congress would prohibit the commercialization and sale of steelhead by any persons.

The initiative declares it to be state policy that natural resources, including land, water, timber, fish and game should be the management responsibility of the state alone and that such responsibility shall be exercised for the purposes of conservation, enhancement and proper utilization while fully respecting private property rights.

The initiative would also declare as a matter of state law that all citizens, including treaty Indians, have equal rights. Such a declaration, however, does not change the federally-secured treaty rights.

Statement against

456 seeks to accomplish what neither the U.S. Constitution, the U.S. Congress, nor the U.S. Supreme Court has allowed in more than 100 years . . . namely, break the promises (treaties) written by the U.S. government, signed by a U.S. President, and forced upon the Indians when millions of acres of land acknowledged to be theirs were taken from them.

INITIATIVE 456 IS UNCONSTITUTIONAL

Treaty fishing rights are protected by the U.S. Constitution. 456's requirement of exclusive state management of our natural resources unconstitutionally usurps federal law, treaties, and international agreement.

INITIATIVE 456 IS UNFAIR

456 would unfairly take property that belongs to treaty Indians without paying for the property taken. It is no different than someone taking your home or car without paying for it.

INITIATIVE 456 IS ANTI-CONSERVATION

456 would destroy the very important and recent progress made in increasing and saving our salmon runs. This progress resulted from cooperation between our state government, sport and commercial fishermen, environmentalists, and Indian tribes.

INITIATIVE 456 IS IRRESPONSIBLE

456 would destroy the basic culture and heritage of Native Americans and break contracts (treaties) made with them by our federal government. It is so irresponsible, unfair and unconstitutional that it is opposed by both candidates for governor, the Washington Association of Churches, most daily newspapers in the state, the Washington Charter Boat Association, and other important fishing groups. 456 is opposed by

Senator Dan Evans, and most of our state's U.S. congressional delegation.

A CONTRACT IS A CONTRACT

The United States entered into these treaties to gain tribal lands for early pioneers. These treaties are contracts. To break a valid contract is wrong!

VOTE "NO" ON INITIATIVE 456

Rebuttal of Statement for

Initiative 456 has become known statewide as the *Condemned Initiative* — *Condemned* by every major church denomination because *it's immoral*; *Condemned* by sports fishing organizations because *it won't grow one fish*; *Condemned* by organized labor because *it won't provide jobs*; *Condemned* by constitutional lawyers because *it's unconstitutional*; *Condemned* by republican and democratic congressmen because *it's unworkable*; *Condemned* because, if passed, *it would cost non-Indian taxpayers millions upon millions of dollars!*

Initiative Measure 464

TO THE PEOPLE

NOTE: The ballot title and explanatory statement were written by the Attorney General as required by state law. The complete text of Initiative Measure 464 is contained on page 10.

Official Ballot Title:

Shall the values of trade-ins of like kind property be excluded from the selling price for the sales tax computation?

The law as it now exists:

State and local sales and use taxes are based on the selling price of the items involved which includes the value of any trade-in as well as payments in money.

Statement for

Initiative 464 is a bipartisan effort to correct and modify an existing sales tax inequity. Currently, an allowance for the trade-in value is not subtracted before computing sales tax on a purchase.

Many consumers resent having to pay sales tax on an amount that is *higher* than the net purchase price. To use an example, on the purchase of a \$6,000 car with a \$2,000 trade-in, most people feel it would be reasonable to pay sales tax on the \$4,000 difference, not on the \$6,000 as the current law demands.

Forty states either allow credit for trade-ins when computing sales tax, or have no sales tax at all. Of the ten states that operate the way we do now, *Washington has the highest sales tax rate.*

We believe that giving an allowance for the trade-in value before computing sales tax would stimulate sales and would offset any possible loss of revenue.

Initiative 464 would give a significant break to consumers by reducing the amount on which sales tax is paid by excluding the trade-in value of like-kind property from the amount taxable. "Like-kind" is defined as: car for car, tractor for tractor, appliance for appliance, part for part, etc. Initiative 464 would apply to any purchase whether it be new or used.

This is a tax modification that is fair and long overdue. We urge you to vote YES for Initiative 464.

Rebuttal of Statement against

The latest revenue projection for the next biennium is \$9.9 billion, and current expenses are \$8.1 billion. *Washington can afford I-464!*

This is *not* a tax preference for special interests. I-464 will help *every household in the state*, even do-it-yourselfers who repair their own cars. It is *not* limited to vehicles and luxury items.

Consumers already pay sales tax once on a trade. *Paying again is a double tax.*

Vote YES I-464.

Voters Pamphlet Statement Prepared by:

AL BAUER, State Senator; EUGENE PRINCE, State Representative; PAUL ZELINSKY, State Representative.

Advisory Committee: GLYN CHANDLER, State Representative; H. A. (BARNEY) GOLTZ, State Senator; GARY NELSON, State Representative; IRV NEWHOUSE, State Senator; LOIS STRATTON, State Representative.

The effect of Initiative No. 464, if approved into law:

If approved, this initiative would exclude from the selling price, for sales and use tax purposes, the value of a trade-in of property of like kind to that which is being purchased. Thus, for example, when an automobile is traded in on the purchase of another automobile, the value of the trade-in automobile would be excluded from the sales and use tax computations.

Statement against

TAX LOOPHOLE FOR THE BIGGEST SPENDERS

This is another big tax loophole giving the most benefit to the biggest spender. The largest exemption will go to the guy who buys a luxury car and trades in frequently. The least goes to the buyer of a lower priced car who holds it longer than the present average of seven years.

HELP FOR JAPAN AND DETROIT?

This initiative is proposed in the name of economic development, principally to stimulate automobile sales. This may help Japan and Detroit, but not Washington. Even Michigan repealed its trade-in exemption this year because the loss far exceeded the gain! And any incentive to buy foreign cars only worsens our trade deficit.

WILL HIGHER EDUCATION BE CUT BY THE \$50 MILLION LOSS?

This initiative will slash state revenues by \$50 million in 1985-87 according to the Department of Revenue. (Local government loses another \$9 million.) The higher education budget is the most vulnerable to cuts because it is not protected by the Constitution or legal mandates. That could mean reductions for community colleges, University of Washington, Washington State University, and regional universities. Cuts will threaten our newest programs designed to encourage high technology training and jobs.

WILL THIS LOOPHOLE RESULT IN HIGHER SALES AND B & O TAXES?

The past record is clear. Tax preferences for special interests forced big increases in sales and business and occupation

taxes during the recent recession. The damage to our economy of high rates and narrowing tax base is nationally recognized, and even featured in *The Wall Street Journal*. It could get even worse—if the Legislature raises taxes to avoid the \$50 million cuts.

Rebuttal of Statement for

It isn't "fair" — and it doesn't make sense — to give the biggest tax break to the person who can afford to trade in last year's luxury car, or yacht, for this year's model, while keeping the same high sales tax on necessities like children's shoes and school supplies.

Initiative Measure 471

TO THE PEOPLE

NOTE: The ballot title and explanatory statement were written by the Attorney General as required by state law. The complete text of Initiative Measure 471 is contained on page 10.

Statement for

Initiative 471 does not change the abortion law. That law was passed by vote of the people in 1970. They wanted to give women the right of choice but did not expect to have to foot the bill!

RESPECT FOR MORAL BELIEFS

Out of respect for those who are steadfast in their belief that abortion is morally wrong, it is only fair that they are not forced to support what they are strongly opposed to.

A BETTER USE FOR YOUR MONEY

In the last two years, 2.6 million dollars was spent to abort over 8,000 unborn babies in this state. This money should be used instead to prevent and fight child abuse.

35 OTHER STATES DO NOT FUND WELFARE ABORTIONS

Passage of 471 would simply add Washington to the list of other states and the federal government which do not fund welfare abortions—excepting to save the life of the mother. The U.S. Supreme Court has ruled that medically unnecessary abortions need not be funded. We think it is time Washington gets out of the abortion business!

471 WILL NOT INCREASE WELFARE COSTS

Those who promote abortion say costs will go up on the basis that the poor are better "dead than fed." The Washington State House Social and Health Services Committee staff made a survey recently of states which have stopped funding welfare abortions. The survey found that there was no evi-

Official Ballot Title:

Shall public funding of abortions be prohibited except to prevent the death of the pregnant woman or her unborn child?

The law as it now exists:

Subject to limitations, state law permits the premature termination of pregnancies even though the purpose of the termination is to prevent the development and birth of a child. There is a state-funded program, for those who are eligible, to pay the costs of termination of such pregnancies.

dence that those states have experienced any increase in welfare costs.

471 would prevent the spending of tax dollars to fund welfare abortions. Medical services to save the life of the mother or her unborn child, in case she were in critical condition, would still be funded.

VOTE YES ON INITIATIVE 471

Rebuttal of Statement against

• *YOU OPPONENTS* have made *FALSE* statements against 471. You hope to confuse and panic the voters. That is dishonest and *WRONG!* • 471 does *NOT* prohibit abortions! • It does *NOT* prevent funding when a mother's life is endangered! • It does *NOT* raise welfare costs! • It is *NOT* extreme!

Teenage daughters of *WEALTHY PARENTS* also qualify for *ABORTION FUNDING!* *YOU* who refuse to love and care for your innocent babies, *DON'T MAKE ME PAY FOR YOUR ABORTIONS!!!*

Voters Pamphlet Statement Prepared by:

MARGARET HURLEY, State Senator; ELLEN CRASWELL, State Senator; MIKE PADDEN, State Representative.

Advisory Committee: A. L. "SLIM" RASMUSSEN, State Senator; STEVE FUHRMAN, State Representative, ROGER VAN DYKEN, State Representative; STEVE LARGENT; JOHN HURLEY.

The effect of Initiative No. 471, if approved into law:

This initiative would not change the conditions under which pregnancies can legally be prematurely terminated. However, public funds could no longer be used by the State of Washington, its agencies or local governments to pay for or reimburse the costs of prematurely terminating a pregnancy unless the medical services involved are for the purpose of preventing the death of the pregnant woman or to protect the life of the unborn child.

Statement against

BEWARE OF INITIATIVE 471's BALLOT TITLE: IT DOES NOT TELL THE TRUTH—

Contrary to the official ballot title promise, approval of 471 would instantly prohibit *all* legally funded abortions in Washington State. It does not obligate the Legislature even to consider funding abortions when a pregnant woman's life could be lost.

471 IS TOO EXTREME—

471 immediately eliminates presently legal abortion funding for low-income women . . . • *even when a pregnant woman's life is in danger;* • *even when a pregnant woman's health is threatened;* • *even when a woman's pregnancy is caused by rape;* • *even in cases of severe genetic defects;* • *yes, even when a young girl's pregnancy is caused by incest.*

471 IS TOO EXPENSIVE—

471 is an extremist proposal for which *all* taxpayers would pay heavily. 471 prohibits state payment for safe legal abortions for low-income women. Last year, Washington State paid \$1,281,202 for 4,067 legal abortions for low-income women. If 471 were law, and those same low-income women were forced to complete their pregnancies at taxpayers expense, the cost would be in excess of \$8,500,000 for delivery alone.

471 IS UNJUST—

471 does not affect rich women's abortions, it ends medically safe abortions *only* for the poor. 471 would force *only* poor women to bear unwanted children they cannot provide for. 471 denies *only* to poor women the right to act according to their own religious beliefs.

Rebuttal of Statement for

• It's not true or realistic that taxpayers only need to support government expenditures with which they agree. • It's not true that abortion to save the life of the mother *would* be funded under 471. • It's not true that the state is in the "abortion business" when it funds both maternity care and abortion. • It's not true that the state expects no increase in welfare costs if 471 passes.

COMPLETE TEXT OF Initiative Measure 456

AN ACT Relating to state government; and creating new sections.
BE IT ENACTED BY THE PEOPLE OF THE STATE OF WASHINGTON:

NEW SECTION. Sec. 1. The people of the state of Washington declare that an emergency exists in the management of salmon and steelhead trout resources such that both are in great peril. An immediate resolution of this crisis is essential to perpetuating and enhancing these resources.

NEW SECTION. Sec. 2. The people of the state of Washington petition the United States Congress to immediately make the steelhead trout a national game fish protected under the Black Bass Act.

NEW SECTION. Sec. 3. The people of the state of Washington declare that conservation, enhancement, and proper utilization of the state's natural resources, including but not limited to lands, waters, timber, fish, and game are responsibilities of the state of Washington and shall remain within the express domain of the state of Washington.

While fully respecting private property rights, all resources in the state's domain shall be managed by the state alone such that conservation, enhancement, and proper utilization are the primary considerations. No citizen shall be denied equal access to and use of any resource on the basis of race, sex, origin, cultural heritage, or by and through any treaty based upon the same.

NEW SECTION. Sec. 4. The people of the state of Washington declare that under the Indians Citizens Act of 1924, all Indians became citizens of the United States and subject to the Constitution and laws of the United States and state in which they reside. The people further declare that any special off-reservation legal rights or privileges of Indians established through treaties that are denied to other citizens were terminated by the 1924 enactment, and any denial of rights to any citizen based upon race, sex, origin, cultural heritage, or by and through any treaty based upon the same is unconstitutional.

No rights, privileges, or immunities shall be denied to any citizen upon the basis of race, sex, origin, cultural heritage, or by and through any treaty based upon the same.

NEW SECTION. Sec. 5. The secretary of state shall transmit copies of this act to the president of the United States senate, the speaker of the United States house of representatives, and each member of congress.

NEW SECTION. Sec. 6. If any provision of this act or its application to any person or circumstances is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

COMPLETE TEXT OF Initiative Measure 464

AN ACT Relating to sales taxation; amending section 82.08.010, chapter 15, Laws of 1961 as last amended by section 1, chapter 55, Laws of 1983 1st ex.sess. and RCW 82.08.010; and creating a new section.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF WASHINGTON:

NEW SECTION. Sec. 1. The purpose of this initiative is to reduce the amount on which sales tax is paid by excluding the trade-in value of certain property from the amount taxable.

Sec. 2. Section 82.08.010, chapter 15, Laws of 1961 as last amended by section 1, chapter 55, Laws of 1983 1st ex.sess. and RCW 82.08.010 are each amended to read as follows:

For the purposes of this chapter:

(1) "Selling price" means the consideration, whether money, credits, rights, or other property except trade-in property of like kind, expressed in the terms of money paid or delivered by a buyer to a seller ((-and-)) without any deduction on account of the cost of tangible property sold, the cost of materials used, labor costs, interest, discount, delivery costs, taxes, or any other expenses whatsoever paid or accrued and without any deduction on account of losses; but shall not include the amount of cash discount actually taken by a buyer; and shall be subject to modification to the extent modification is provided for in RCW 82.08.080.

When tangible personal property is rented or leased under circumstances that the consideration paid does not represent a reasonable rental for the use of the articles so rented or leased, the "selling price" shall be determined as nearly as possible according to the value of such use at the places of use of similar products of like quality and character under such rules as the department of revenue may prescribe;

(2) "Seller" means every person, including the state and its departments and institutions, making sales at retail or retail sales to a buyer or consumer, whether as agent, broker, or principal, except "seller" does not mean the state and its departments and institutions when making sales to the state and its departments and institutions;

(3) "Buyer" and "consumer" include, without limiting the scope hereof, every individual, receiver, assignee, trustee in bankruptcy, trust, estate, firm, copartnership, joint venture, club, company, joint stock company, business trust, corporation, association, society, or any group of individuals acting as a unit, whether mutual, cooperative, fraternal, nonprofit, or otherwise, municipal corporation, quasi municipal corporation, and also the state, its departments and institutions and all political subdivisions thereof, irrespective of the nature of the activities engaged in or functions performed, and also the United States or any instrumentality thereof;

(4) The meaning attributed in chapter 82.04 RCW to the terms "tax year," "taxable year," "person," "company," "sale," "sale at retail," "retail sale," "sale at wholesale," "wholesale," "business," "engaging in business," "cash discount," "successor," "consumer," "in this state" and "within this state" shall apply equally to the provisions of this chapter.

COMPLETE TEXT OF Initiative Measure 471

AN ACT Relating to abortion; and adding a new section to chapter 74.09 RCW.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF WASHINGTON:

NEW SECTION. Sec. 1. There is added to chapter 74.09 RCW a new section to read as follows:

Public funds shall not be used by the state of Washington, its agencies, or political subdivisions to pay or otherwise reimburse, either directly or indirectly, any person, agency, or facility for the performance of any induced abortion: PROVIDED, that the state legislature may authorize and appropriate funds for otherwise eligible beneficiaries to be used for those medical services necessary to prevent the death of either a pregnant woman or her unborn child under circumstances where every reasonable effort is made to preserve the life of each.

THE OFFICE OF PRECINCT COMMITTEEMAN

In addition to the various state and county offices which will appear upon the general election ballot, most voters will have the opportunity to vote for the office of "precinct committeeman".

WHO IS ELIGIBLE

State law (RCW 29.42.040) provides that any person who is a registered voter and a member of a major political party may become a candidate for the office of precinct committeeman by filing a declaration of candidacy and paying a \$1 filing fee to the county auditor. Since voters do not register by political party in Washington, a candidate declares himself or herself to be a Democrat or a Republican at the time he or she files for the office. The filing period for the office of precinct committeeman begins at the same time as the filing period for other partisan offices (the last Monday in July in even-numbered years), and lasts for three weeks, ending on the third Friday following that date.

ELECTION OF PRECINCT COMMITTEEMEN

Candidates for precinct committeeman do not appear on the primary ballot but rather are placed directly on the general election ballot, and the candidate receiving the most votes in his or her precinct for each political party is declared elected. State law (RCW 29.42.050) does provide, however, that to be declared elected, a candidate must receive at least 10% of the number of votes cast for the candidate of his or her party receiving the greatest number of votes in that precinct.

TERM OF OFFICE AND VACANCIES

The term of office for anyone elected to the office of precinct committeeman is two years, and commences upon the official canvass of election returns by the county canvassing board. Should a vacancy occur in the office (caused by death, disqualification, resignation, or failure to elect), the usual process is for the chairman of the party central committee to fill the vacancy by appointment. Appointments to fill vacancies cannot be made between the state general election and the organization meeting of the county central committee, which must be held prior to the second Saturday in January following the election of precinct committeemen.

DUTIES OF PRECINCT COMMITTEEMEN AS MEMBERS OF THE COUNTY AND STATE CENTRAL COMMITTEES

1. Each precinct committeeman is a member of the county central committee. The county central committee has the authority to fill vacancies on the party ticket for partisan county offices and for legislative offices in districts entirely within that county when no candidate files for such a position or when a candidate or nomi-

nee dies or is disqualified leaving no candidate of that party for such an office; they may also nominate persons for appointment to these offices if an incumbent of that party resigns.

2. The state central committee has the authority under state law (RCW 29.42.020) to:
 - Call caucuses and conventions.
 - Provide for the election of delegates to national nominating conventions.
 - Fill vacancies on the party ticket for any federal, state or legislative office which encompasses more than one county.
 - Nominate persons to fill vacancies in state or legislative offices caused by resignation or death of an incumbent of that party.
 - Provide for the nomination of presidential electors.
 - Perform other functions inherent in such an organization.

NON-STATUTORY DUTIES AND RESPONSIBILITIES OF PRECINCT COMMITTEEMEN

Specific duties and responsibilities of a precinct committeeman are usually determined by either the county or state central committees. The following duties are commonly assigned to precinct committeemen by their party organization:

- Keep informed on current issues and candidates, study the party platform.
- Attend meetings of county committees and actively participate in fund-raising activities.
- Obtain lists of registered voters from the County Auditor's office.
- Canvass the precinct and become acquainted with the voters residing therein.
- Establish a record of eligible voters and party members within the precinct.
- Encourage voter registration within the precinct.
- Distribute party election materials during election campaigns.
- Recommend party members to work as precinct election officers.
- Encourage voters to get out and vote on election day.
- Encourage the use of absentee ballots.
- Hold precinct caucuses at certain selected times for the purpose of adopting resolutions and selecting delegates to the county conventions.

Individuals who are interested in serving as precinct committeemen should contact the chairman of the county central committee of their party or the state committee office of that party. Their addresses are as follows:

When I took office in 1981, America was in the worst economic mess since the Great Depression.

Years of government overspending and overtaxation were taking their toll. Productivity, industrial production and real wages were down. The only things going up were prices, taxes and the size of government. Double-digit inflation and increasing taxes reduced the reward for hard work, thrift and entrepreneurial risk taking.

In 1981, we offered a bold, new plan for economic recovery. The result has been the strongest economic recovery in over 30 years. We have achieved what the cynics said could never be done: real economic growth and lower inflation and unemployment rates.

Six million new jobs have been created in the last 20 months, and Americans are now looking to the eighties as a decade of growth and opportunity.

Of course, no issue is more important than keeping the peace and reducing the level of nuclear arms. By rebuilding America's defenses, we have made America safer, and we're hopeful the Soviets will join us in arms reduction agreements.

The last four years have been a real success story for America. Now we can look forward and offer the American people a vision of opportunity and progress based on a four-year record of success.

Back in 1976, the Democrats came up with a gimmick to rate the economy. They added the inflation and unemployment rates, and got what they called a "misery index." In 1976, it came to 12.6 percent. But in the 1980 election, they didn't mention the misery index.

That's because they drove the misery index up over 20 percent. In 1984, you probably won't hear our opposition mention the misery index either. That's because it's down to 11.6 percent — below where it was 11 years ago — and dropping.

America is moving forward into a decade of prosperity and opportunity for all Americans. We are on the edge of a new frontier in high technology as vast as the very frontier of space. We have regained optimism and faith in ourselves, our families and our nation.

Although we've accomplished much in the last four years, there is still much to be done.

Some people ask why I don't just retire and go to that ranch Nancy and I love so much. But that would mean quitting before the job is done, and I've never been a quitter.

I see four great goals that we can unite behind to keep America free, secure and at peace for the eighties. First, we must ensure steady economic growth without inflation; continue our program of tax relief and get a handle on government spending.

Second, we must develop space, America's next frontier, through the construction of a permanent manned space station, and the promotion of private sector investment in space.

Third, we must strengthen our traditional values of faith, family, work and neighborhood.

And finally, we must pursue a lasting and meaningful peace with the Soviet Union while helping develop stable democratic institutions around the world.

The future of the United States is at stake on November 6, 1984. On this election day, Americans will have the opportunity to choose between two different visions of that future.

Peace: Walter Mondale and Geraldine Ferraro believe that they can freeze nuclear arms, reduce the number of weapons, and ensure that not one of them ever goes off.

We are a strong nation, and we will always defend our cherished freedom. But, in a world with 50,000 nuclear warheads, a President must work for peace. Instead, Ronald Reagan has dangerously escalated the arms race. He is the first President since the bomb went off not to negotiate an arms control agreement.

Walter Mondale and Geraldine Ferraro will follow President Kennedy's example by challenging the Soviets with tough arms control proposals that increase our security and protect our future.

Economy: Our current President's tax cuts for the rich, and his blank check for the military, have caused the largest budget deficits in American history. Walter Mondale and Geraldine Ferraro know that these deficits have created record-high real interest rates at home and an overvalued dollar abroad. As a result, America has lost its competitive edge in foreign trade markets.

Mondale and Ferraro understand the Northwest. They know that foreign trade is especially important to the Northwest economy, and have clearly stated how they will cut deficits and bring interest rates down.

Environment: Walter Mondale and Geraldine Ferraro share the Northwest's concern for the environment. They are committed to cleaning up our polluted air and water and dangerous toxic waste dumps. Ronald Reagan has shown a complete disregard for the health of our environment.

Fairness: Americans want a President who serves all the people, not only the rich. Walter Mondale and Geraldine Ferraro will lead us on a humane and decent course again.

Walter Mondale and Geraldine Ferraro have a lifelong commitment to ensuring that our elderly are treated with respect and dignity. Ronald Reagan intends to make further cuts into the already meager provisions of Social Security and Medicare.

Walter Mondale and Geraldine Ferraro believe that education is essential to America's economic strength, that equal educational opportunities must be provided for all.

Walter Mondale and Geraldine Ferraro want an America in which our children will look forward to the years ahead of them. When you vote for President this November, think about the future.

The independent campaign of Dennis Serrette for President and Nancy Ross for Vice President carries forward the social vision for jobs, peace and justice fought for by Reverend Jesse Jackson in the democratic primaries. Actively backed by many of Jackson's key state

and local supporters, it is reaching out to the millions of Jackson voters who saw democratic leaders in San Francisco ignore their demands for enforcement of the Voting Rights Act, for a break in diplomatic and commercial relations with apartheid South Africa, for a 25% slash in the awesome military budget, and for a renewal of the Democrats' former promises of a war on poverty.

Now on the ballot in 33 states, the "Rainbow Alliance" campaign is fueled by thousands of volunteers who are conducting a referendum with the use of "Pledge Cards," millions of which will be signed by November by people pledging their votes to Mr. Serrette. By signing a card, people are saying that they voted in the primaries not for Jackson the *Democrat*, but for Jackson the *Independent* leader who voiced their aspirations *against* the big business controlled party bosses.

Longstanding collusion between Democratic and Republican national leaders has resulted in massive slashes in social services, jobs and health care, while spending on nuclear weapons has mushroomed. A majority of Congressional Democrats voted on appropriations which have doubled the Pentagon's budget in the past four years and approved the placement of cruise and Pershing nuclear missiles on European soil. The Democratic Party also sanctioned the invasion of Grenada by U.S. Marines and the current massing of American troops in Central America as a threat to the socialist republic of Nicaragua and the people of El Salvador, who face daily brutalities at the hands of an American-supported military dictatorship. Behind the "lesser of two evils" public relations image of Walter Mondale and the Democrats, they have embraced the agenda of conservative right, Mondale's platform calls for a 5% increase in Reagan's own "Star Wars" military budget, guarantee *no* jobs programs at a time of mounting unemployment, and promises *not* to restore any significant funding to child nutrition programs, legal services to the poor, education, housing programs or welfare benefits.

Mr. Serrette is uniquely qualified to lead a campaign that will carry on after November towards the creation of a *permanent* third party movement for America's Blacks, Latinos, women, gay people, working and poor families. A cofounder of the Coalition of Black Trade Unionists, he served as Chairperson of the National Committee to Overturn the Bakke Decision and led a 20,000 strong March Against Racism in Boston in 1974 to protect Black school children being bussed to South Boston schools. In New York City, Mr. Serrette was Chairperson of the Coalition to Save Sydenham Hospital and was the first elected Vice President of Local 1101, Communications Workers of America. Also a founder of the South Africa Freedom Day Coalition, Mr. Serrette has spearheaded efforts to support liberation movements in southern Africa.

The central issue in U.S. politics today is Washington's drive toward a new Vietnam war in Central America and the Caribbean. This coming regional war — a war in defense of corporate profits and against workers and farmers fighting for the right to control their countries and their lives — has already begun. The CIA-financed attacks

against Nicaragua, all out support to the murderous dictatorship in El Salvador, the blockade and war hysteria against Cuba, massive war "games" and naval "exercises" in the Caribbean and Honduras, the invasion and continuing occupation of Grenada — these are all aspects of this war. In addition, this war — begun under the Carter-Mondale administration — is completely bipartisan.

This is a war with two fronts, however. The second front is right here at home, and consists of all the attacks against our rights and living standards that have been taking place throughout the "takeback decade": union-busting and concession contracts, blows to the rights of Blacks and women, stepped-up deportations of undocumented workers, the driving of farmers from their land, and a vicious assault on democratic rights in general.

The principal message of our campaign is that all the problems facing us have a common source: the capitalist system. The same tiny class of corporate billionaires and bankers, using their government and their two political parties — the Democrats and Republicans — is waging this war at home and abroad. We cannot look to the Democrats or Republicans for change. Gains that working people won in the past were not the result of elections, but of organized struggles in our own interests. We need to replace the current government of big business with a government run and organized in the interests of workers and farmers. To fight for such a government we need our own political party, a labor party based on a fighting union movement that champions the struggles of workers, farmers, Blacks and women, and that leads the resistance to Washington's war drive.

We propose: *Bring U.S. troops in Grenada and Central America home now!* Stop the war against Nicaragua. End the blockade against Cuba. Cut all ties with the dictatorship in El Salvador. Unilateral U.S. nuclear disarmament. No draft. *Stop union busting.* No government interference in union affairs. *Jobs for all.* Shorten the work week with no cut in pay. With the billions now spent on war, launch a public works program to build schools, hospitals, roads and childcare centers to provide jobs at union wages. *Stop racist attacks.* Affirmative action, including quotas, in education and employment. Desegregate schools, including through busing. Stop the deportation of undocumented workers. *Defend democratic rights.* Stop government and employer attacks on constitutional liberties. Abolish the death penalty. *Defend women's rights.* For safe, legal abortion rights. Support the ERA. *Stop farm foreclosures!* For a moratorium on all debts. Extend low-interest credit for machinery, seed and fertilizer. Guarantee family farmers an income adequate to meet their costs of production and sustain a decent living.

In 1776, Thomas Jefferson wrote, "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty, and the pursuit of happiness." These words summed up the motives and ideals of the American revolutionaries. David Bergland and Jim Lewis are saying the society can and *should* be run by these ideals. Individuals have the right to control their own lives, and must

take responsibility for their actions. Government today is run according to the opposite principle. Individuals are treated as the property of the state and are taxed, regulated, and prevented from acting according to their own judgment. Peace and prosperity are threatened every day by bureaucratic meddling at home and overseas, whether the President is a Democrat or a Republican. Libertarians offer a real change: full respect for your independence and integrity as an individual, an end to government trespassing on your property, and security for all your peaceful and honest activities in your business, family life, church or temple. The dynamic Libertarian movement brings together people who see that economic and personal liberty are two sides of the same coin and who are willing to stand up for their beliefs.

Mr. Bergland, 49, was Editor-in-Chief of the Law Review at the University of Southern California, served as a law school professor, and has represented many clients against IRS oppression. He was a candidate for Vice-President in 1976.

Mr. Lewis, 50, a Connecticut businessman, is President of a public policy organization promoting free market solutions to local problems.

Let's look at some of the issues:

There was no permanent income tax before 1914, and the country prospered. Since then, the federal bureaucracy has been our major growth industry. Government waste, corruption, inefficiency, and failure are a result of financing programs via taxes — a process which robs our wallets while it removes any true measure of accomplishment and all incentive to improve productivity. Inflation is caused by the Federal Reserve Bank. Those on pensions and earning wages are the victims. We need to halt the printing of paper money and return to a dollar that's sound and honest.

Despite Reagan's 1980 promise to end draft registration, he has instead prosecuted and jailed young men who have not registered. The use of slaves to defend freedom is intolerable. The present U.S. military buildup is robbing Americans blind and threatening the destruction of the world. Instead, we must take active steps toward mutual arms reduction, including sensible steps on our own such as retirement of all U.S. land-based missiles. These missiles are simply tempting targets that invite an attack on our homeland. Our foreign policy must protect the liberty of the American people by guarding American territory from attack. Instead, the U.S. government is trying to act as the world's policeman. An estimated \$229 billion (75% of Reagan's 1985 military budget) is devoted to meddling and entanglements overseas in Western Europe, the Far East, the Middle East, and Central America.

Over 50 Libertarians holding public offices across the country are proof that principle and practicality can mix, and that our candidates do live up to their promises and actually solve problems. A vote in 1984 for either the Republican incumbent or his Democratic challenger will simply tell these traditional politicians that you're pleased with what they've been doing to you for years. A vote for either is wasted.

an end to intervention; an end to violence against women; genuine human rights for everyone — including jobs, education, housing and health care; decentralization of economic power; a healthful, nonnuclear environment for all species.

Dr. Johnson is the first alternative party candidate and the first woman in this country's history to receive primary matching funds from the federal government. On August 15, 1984, she filed a complaint with the Federal Communications Commission to protest exclusion of alternative candidates and their views from the nationally televised presidential debates.

An outspoken critic of Reagan's foreign policy, Sonia travelled to Honduras, Nicaragua and El Salvador in December 1983 as a member of a women's delegation. In Geneva, Switzerland in the Spring of 1984, she cofounded the Women's International Disarmament Alliance, a network which brings women together from many countries to plan unified action for peace. For many years, Sonia has participated in protests across the country for peace and equal rights. She was excommunicated from the Mormon Church in December 1979 for her outspoken support of the Equal Rights Amendment.

She received her doctorate from Rutgers University in 1965 and taught English and education at American and foreign universities. Her book *From Housewife to Heretic*, was published November 1981 by Doubleday. Dr. Johnson is 48 years old and lives in Arlington, Virginia with her children.

Richard Walton has been active in the Citizens Party — which is the official sister of the West German Green Party — since its early days.

Walton is best known for his books critical of American foreign policy. Perhaps the most widely known of these is *Cold War and Counter-Revolution: The Foreign Policy of John F. Kennedy*, published by Viking Press in 1972. It was the first book-length study critical of Kennedy from the left. It is widely used in college history and political science courses.

Walton has also written on political and social questions for such publications as the New York Times, The Nation, The New Republic, The Washington Post, Village Voice, Chicago Tribune, Newsday, The Saturday Review, and the Providence Journal. He was the principal United Nations correspondent for the Voice of America from 1962-67. Earlier, he was producer-host of VOA's "Report to Africa," and travelled widely through Africa interviewing leading African statesmen.

Walton received his Bachelor's degree from Brown University in 1951 and his Master's from Columbia Graduate School of Journalism in 1954. He is 56 years old and lives in Warwick, Rhode Island.

Local contact for the Citizens Party is Ellen Christensen, 145 North 77th Street, Seattle 98103.

Sonia Johnson and Dick Walton are endorsed by the Socialist Party of Washington.

Sonia Johnson is a feminist and peace activist, lecturer and author. Her unique contribution to this year's political discussion is that feminism, far from being a "single issue," is a way of looking at all the issues, a perspective based upon the principles of nonviolence, cooperation and nurturance. She presents a widely-shared progressive perspective on the critical issues: drastic cuts in the military budget — including an immediate freeze of all manufacture and sale of arms and

Lyndon H. LaRouche, Jr., an American System economist, is an independent Democratic candidate for the office of the President of the United States. He was a candidate for the 1980 U.S. presidential nomination of the Democratic Party, and is chairman emeritus of the

Advisory Board of the National Democratic Policy Committee. He is also a founder and contributing editor of the international political intelligence newsweekly, the Executive Intelligence Review. Because of his monetary-reform proposals and his total opposition to neo-Malthusian doctrines, which he has described as "genocidal," he has become a target of bitter controversy.

Mr. LaRouche's running mate for the office of Vice President is Billy Davis. Mr. Davis is a family farmer from Laurel, Mississippi. A prominent farm leader, he received a law degree in 1966 and has taught history in junior high school.

The President of the United States must master these five deadly crises: 1. The Soviet drive to establish world domination by 1988; 2. A world-wide financial collapse; 3. A continuing collapse of agro-industrial output; 4. The eruption of a famine-level world-wide food shortage during 1985; 5. The accelerating erosion of those distinctive features of Judeo-Christian culture upon which Western Civilization is based. No solution for any of these crises can be found except as progress is accomplished in mastering all five. The LaRouche-Davis ticket proposes that we meet these crises with the following program:

1. Ending the strategic crisis: For the past seven years, Mr. LaRouche has promoted the crash development of defensive directed-energy beam weapons systems — the Strategic Defense Initiative. These defensive systems would be capable of destroying nuclear-armed missiles.

2. Preventing a financial crisis: LaRouche and Davis are calling for the return of our nation's credit-generating powers to the Congress, as specified in Article I, Sections 8 and 9 of the Constitution. This means federalizing the Federal Reserve System to create the Third National Bank of the United States.

This national bank would issue gold-reserve denominated currency notes through the private banking system, to be lent at interest rates of 2-4% to finance production of industrial goods and agricultural commodities.

LaRouche and Davis propose that the U.S. disassociate itself from the International Monetary Fund and aid in the reorganization of the unpayable debts of the developing sector through the creation of long-term, low-interest, gold-backed bonds. They characterize the IMF's austerity policies in the developing sector as illegal violations of national sovereignty and genocidal in intent and effect.

3. Ending the economic and agricultural crises: A massive infusion of low-interest credit to U.S. industry and agriculture through the reorganized banking system. If the debts of the developing sector are relieved, a huge market for American exports can be created overseas immediately, and unemployment can be ended here at home. Development of the U.S. and its neighbors, should proceed through investment in broad-scale Great Projects such as the second Panama Canal.

Vote for people before profits. Worried, angry about Reagan? You needn't feel powerless. We are the majority, and together we can turn our concern and anger into movements and actions that can turn our country around. There *are* solutions: A massive federal program to rebuild our cities. Enact a program of full employment; extend benefits for the *full* period of unemployment. In the public good, take over and manage industries like steel, machine building, auto, rubber, the energy complex of oil, coal and nuclear power. Establish a six-hour day with no cut in pay. Roll back and cap all prices, rents and interest rates. Eliminate taxes on family incomes under \$30,000 a year. Make all racist and anti-Semitic practices criminal offenses. Establish verifiable affirmative action programs, with quotas, in every area of life. Enact no-interest government loans, free crop insurance and 100% parity for small family-size farms and bring an immediate halt to all foreclosures on family farms. Reverse and replace social security cuts, increase payments 25%; end all federal, state and city taxes on social security. Pass an emergency National Youth Act providing jobs, education and training for all youth. Pass the ERA and a law for equal pay for comparable work, and enact a federally funded child care program. Enact a \$50 billion federal program to clean up pollution, and make the corporate polluters foot the bill. Pass a National Health Act. Enforce the Voting Rights Act, eliminate the double primary. Strengthen and enforce OSHA. Make *all* working people eligible for all social services.

Where will the money come from? Make the rich, the corporations and banks return the \$750 billion tax swindle Reagan gave them since taking office. Close the tax loopholes of the rich and end the \$120 billion interest payments on the national debt. End the nuclear madness of Reagan's policy of war and confrontation, save trillions *for people's needs*. The turnaround platform of Gus Hall, a founding organizer of the steelworkers' union, and Angela Davis, leading Afro-American activist and scholar, shows the way to victory over Reaganism and corporate superprofits — the fighting unity of the people. Gus Hall and Angela Davis hold that only a socialist United States can *finally* eliminate capitalism's war, poverty and racism. But we don't have to wait for socialism to curb the warmakers and monopolists — we must do it *now*. A vote for Hall and Davis is the vote with the most clout. Their program is a living answer to the dangerously insane anti-communism that Reagan has used to justify all his foreign and domestic policies. It is a vote to safeguard peace and turn our country around from policies of war, poverty and racism. *Vote people before profits. Vote for Gus Hall and Angela Davis.*

Larry Holmes was raised in Harlem and lives in New York City. Holmes, a GI resister inside the Army during the Vietnam war, participated in the first official Vietnam veteran's group to Nicaragua last

year. In 1981, he was the Chairperson of a rally of 100,000 at the Pentagon against U.S. intervention in Central America.

Chicano activist Gloria LaRiva is a militant trade unionist and was a key leader in the 1983 Chicano Moratorium March in San Francisco. In 1982, she joined the Native occupation to keep California's only Native college open, and also helped build a march of 2,000 against the Nazis in Oroville, CA. Both Holmes and LaRiva supported the Rainbow Coalition and the Campaign for Jesse Jackson.

If you're for jobs or income for everyone, including youth, seniors, and the disabled, if you're for union rights, and an end to racism and inequality, if you're for no wars or interventions, if you're for cutting the Pentagon budget and expanding social services, if you're for full rights for women and no discrimination against lesbians and gays, then you're for Holmes and LaRiva.

Workers World Party stands for a socialist society, where the wealth is shared, not monopolized by a small clique of billionaires.

Workers World Party is for solidarity among all peoples and Nationalities. That means fighting racism, sexism, anti-semitism and discrimination.

Workers World Party is for building a unified movement against exploitation and union busting, against the bosses, bankers and military-industrial complex.

Workers World Party is for dismantling the military monster and living at peace with the world.

Make your vote count for what you want, not for Mondale's so-called "lesser evil."

The strongest vote against Reaganism is a vote for socialism and a multi-racial, struggle oriented working class party.

Holmes and LaRiva represent the interests of the poor and working people. But they are not campaigning to promise you anything, or like the Democrats and Republicans, to lie to you to get your vote. The most important part of their campaign is to remind you of what you know already — that the elections in this country never change anything.

Despite efforts by the government, the media and the candidates to convince you that you actually have a choice, there's not much difference between the Democrats and the Republicans. Big business runs and finances both the Democratic and Republican parties. Both have given bipartisan support to the cutbacks, to the biggest peacetime arms budget in history, and to the profit mad capitalist system that throws workers by the millions on the scrapheap.

Holmes and LaRiva reject this two-party trap. Workers and poor people need their own party, united in an on-going struggle to fundamentally transform society so that it serves their needs.

The newly organized Populist Party of the United States has nominated Bob Richards of Waco, Texas, winner of two Olympic gold medals and nationally known businessman and lecturer, as its presidential nominee, and Maureen Kennedy Salaman of San Francisco, California, president of the National Health Federation and renowned author and talk show moderator, as its vice presidential nominee.

These outstanding Americans bring to the voters of the United States an unequalled opportunity to change the course of history and bring to all the citizens an America-First administration whose policies will ensure more jobs, less taxation and more financial security than has been offered in the past fifty years.

Their populist platform consists of these five answers to critical issues facing the people of the United States at this time:

1. Repeal of the graduated income tax on individuals. The income tax is paid almost entirely by the middle class. The super rich pay very little of it. The personal income tax is not necessary to operate the government. In fact, the United States functioned well without a federal income tax for 125 years.

2. Abolition of the privately owned Federal Reserve system which manipulates interest rates to effectively stop home ownerships by young and old alike. Congress has surrendered this authority to the Federal Reserve and we have ever higher interest rates, inflation, and depression at the whim of the international bankers.

3. Enactment of tariff laws which will rebuild American industry and help maintain a high standard of living of our working men and women. There are two ways to cut the floor out from under the standard of living of American working men and women. One is to import cheap foreign labor to take American jobs; the other is to import the slave-wage product of foreign toil.

4. Restriction of immigration to protect the jobs of American workers. There are now an estimated 15 million illegal aliens in the U.S.

5. Restoration of the America-First tradition of noninvolvement in useless foreign wars which have cost many thousands of American lives and billions of tax dollars.

You can help accomplish these goals by casting your vote for the slate of electors in your state pledged to Bob Richards, President and Maureen Kennedy Salaman for Vice President.

I am running for Congress because I want to represent you. I have listened to the concerns of voters and agree with you that our highest priority must be to bring the cost of running the Federal government

under control. I have been elected twice by my community as a County Commissioner where we had to balance our budget. I have also been a small businessman, farmer and a volunteer firefighter.

Your present representative is part of the Mondale, Tip O'Neil group that thinks raising taxes and more government programs are what this country needs. I disagree. There's too much fat in the Federal government. No one's taxes should be raised as long as there is any waste in the budget.

If you vote for me, I will vote to stop growth of the Federal bureaucracy, vote to hold the line on personal taxes, vote to end the give aways to special interest groups and vote against wasteful military spending. I'll even vote to cut the cost of running Congress itself.

I want to force Federal government to employ businesslike, common sense approaches to balancing the budget; I want to protect our electric power bills from the costly mistakes of W.P.S.S.; I want to assure that all citizens have equal opportunity and equal treatment under the same laws.

We need to return this country to the basics that made it great and give individuals the freedom to be creative, industrious and self reliant. I believe government can't solve all our problems; nor should it.

By getting back to basics, we can enjoy a high quality of life and still take less out of the pockets of working people. That's my goal.

Al Swift's record shows both concern and action: accomplishments, not promises. During the past two years, he has...

... gone to the mat with the Federal Communications Commission to stop a telephone rate hike it wanted to mandate...

... taken on all three national network news operations over their practice of projecting elections before we have even finished voting here on the West Coast...

... turned the Federal Emergency Management Agency around, changing its policy that would have interfered with local planning in Whatcom and Skagit Counties...

... worked closely with dairy people throughout the district, making sure that legislation reflected concerns of Northwest dairy-men...

... gotten land back from the National Park Service for the City of Forks for its new Timber Museum...

... obtained a commitment from the Coast Guard to keep the cruiser in Port Angeles instead of taking it away for four years.

Al Swift works hard, every day, representing you. He continues to work to...

... keep rail transportation vital on the Peninsula...

... extend the deep draft port in Grays Harbor...

... keep the border stations open for citizens and visitors and safer for Customs and Immigration officers...

... coordinate planning to deal with the influx of tourists for Expo '86...

... assure that careful planning will result in Snohomish County getting the maximum benefits from the coming of the Navy Task Force.

Al Swift is there when you need him. Let's keep him there.

Populist

Gary Franco is a family farmer and longtime resident of the Second Congressional District. Gary Franco is concerned about these issues: *Government*—Gary Franco believes government is best which governs the least. "Today, the supply of government exceeds demand." *Taxes*—Gary Franco knows too many of your tax dollars are

taken from your pockets. "More of your tax dollars must stay home for local economic development." *I.R.S.*—Gary Franco is concerned about the growing power of the I.R.S. "President Reagan's 25% tax cut brought our country out of recession and into recovery. Let us cut taxes further." *Deficits*—Gary Franco knows the budget must be balanced now! "You and I must live within our means, so must government." *Interest Rates*—Gary Franco understands long-term economic recovery is impossible at 14%, and rising, interest rates. "National anti-usury legislation should be considered." *Energy*—Gary Franco fought Al Swift's special interest energy legislation for seven years. "This pro W.P.S.S./Wall Street Power Bill doubled your electric rates and threatens your public utilities with bankruptcy. Washington's economic recovery can't happen under Swift's bill. I will go back to Washington, D.C., and ask that this bill be rescinded." *Working Citizens*—Gary Franco believes the family farmer, family businessman and our working people are America's backbone. "A government working against our interests can be turned around." *Foreign Policy and Nuclear Arms*—Gary Franco believes in our American tradition of armed neutrality. "America first, untangling ourselves from affairs of other nations, and a nuclear arms freeze that is mutual and verifiable are three principles our future depends on." *Spiritual/Moral*—Gary Franco believes a strong nation must have a strong moral fabric. "In a civilized society, nothing is more sacred than human life."

Your interest, not special interest, is Gary Franco's priority.

I am a 59 year old widower with two grown children and two grandchildren. Born and raised in Chehalis, Washington. Homeowner in Thurston County. Served honorably in World War II with service in the European Campaign.

I am not a politician and have never had any political grooming.

Don BONKER Democrat

Currently serving his fifth term, Congressman Don Bonker has worked tirelessly to revitalize and expand Southwest Washington's economy.

As Chairman of the House subcommittee handling all export trade issues, Bonker has aimed his efforts at creating expanded markets for our area's products like high technology, timber, agricultural commodities and fish. Increased trade will bring thousands of jobs, new capital investment, a broader tax base, and sorely needed economic diversification to our region.

During the last session of Congress, Bonker authored the Export Trading Company Act, which experts believe will revolutionize trade

But then I never helped to create double digit inflation or a \$200 billion deficit or a \$1.8 trillion national debt. I am just a common man who loves God and his country and the principles which made America great.

We are a Constitutional Republic ruled by law and not a democracy ruled by a majority as our elected representatives would like us to believe. If America is to return to greatness, we must once again re-establish our Constitution as the supreme law of the land.

We need to stop exporting our raw material and technology and become a producing nation instead of a consuming nation. We need to put things back into the hands of private enterprise, which will give us a better product at a fair price which will promote the phrase "Buy American" and strengthen the economy, which will help eliminate unemployment.

We need total foreign aid reform and reduction.

I believe that all taxpayer funds used for abortion must be stopped.

I believe all federal involvement in education should be eliminated and education be returned to the states and local control.

I favor abolishing the Federal Reserve system (private corporation) and returning this nation to a constitutionally sound money system.

We need tax reform that is fair and equal to all, one that will encourage economic growth that is constitutionally sound, also by reducing government spending and growth, we can reduce taxes.

Thanking you in advance for your vote — *may God bless you!*

by allowing many small firms to get their products to overseas markets. This year, Congressman Bonker is working on a comprehensive re-write of the Export Administration Act in an effort to eliminate unreasonable restrictions on American exporters.

To revitalize Washington's hard-hit wood products industry, Congressman Bonker has worked to obtain contract relief for loggers on federal lands, an answer to ever-increasing Canadian imports, and elimination of trade barriers that keep our state's finished wood products out of foreign markets.

To assist the Northwest's depressed fishing industry, Congressman Bonker has succeeded in preserving the Columbia River salmon and steelhead hatcheries. Over Administration opposition, Bonker helped to obtain House approval of Small Business Administration disaster assistance to fishermen devastated by the El Niño climatic disruption.

Bonker understands the threat of huge budget deficits to sustained economic recovery so he strongly backed a three-year, \$182 billion deficit reduction plan.

He is committed to arms control, quality education, and environmental protection. As Chairman of a subcommittee of the Aging Committee, he is a leader in ensuring the rights of our senior citizens.

Finally, Don Bonker works hard to keep in touch, by conducting town hall meetings, meeting with countless local groups, and, with his staff, helping thousands of constituents with their problems with government.

**John
SPELLMAN**

Good times are back from a bad recession. But not for all. I want to finish the job I began four years ago — putting Washington back to work.

We are moving strongly out of the recession with pioneering programs. The state's first Housing Finance Commission. The first industrial development bonds. The first tourism effort. The first wine marketing programs. The first centers for international marketing of forest products and agriculture. The first Tokyo office, and our first formal relationship with The People's Republic of China. The first Office of Women and Minority Business Enterprises.

We did it all for jobs today, and for prosperity tomorrow. We've laid the foundations for a generation of prosperity.

We are on course. We have made good progress. As a result of quiet and competent leadership, business is optimistic and 120,000 more people are working today than when I took office. But . . .

But there are still too many unemployed. It is my belief that the best welfare is a good job. We need more good jobs in forest products and fisheries especially, but across our state.

Agriculture and small business deserve more respect. They are the bedrock of our economy. The sales tax and B & O tax rates are too high. I plan to cut them to create jobs.

We must grow to create prosperity. But we must grow with grace, loving and protecting this wonderful place where many of us were born and where all our children will grow up.

Our children's future is also tied to education. It is fundamental to their and our economic future. I will propose my second Excellence in Education Act this January.

I ask for your vote on November 6. I try to be a progressive and an honorable man, a good Governor.

I can get our government working again, and our people back to work.

John Spellman has not done the job. He promised us no new taxes, and then signed into law the most regressive tax of all, a tax on food. He has done little to encourage economic development, yet suddenly, he is telling us that that's what he'd work for. He has given lip-service to protecting our environment.

Every month, there is a new horror story about how Spellman appointees have misspent our hard-earned tax dollars. Instead of using our taxes well, he has given us a top-heavy management.

I've done better.

At a time when Pierce County was almost \$5 million in debt, I made government lean and efficient by streamlining procedures, weeding out duplication, training managers to perform better, freezing the salaries of the highest-paid officials, and restricting the use of county cars. Without raising taxes, we balanced the budget.

But this campaign is not about the past. It is about the future.

As Governor, I will help create new jobs by broadening our economic base. I've proposed a detailed eight-point plan to create new jobs, but the heart of the plan is this: We need a Governor who can get businesses to listen, who can talk its language, who can persuade new businesses to locate here and encourage "home-grown" new and innovative companies.

I believe that new jobs for Washington and protecting our beautiful state are not incompatible. Maintaining our good environment is just good economics, and I will take the necessary action to clean up Puget Sound, protect our inland waters, clean up toxic wastes and restore our fisheries.

A key to creating new jobs is maintaining and improving the quality of our schools. The Governor must be an activist for education.

Since childhood, Eleanor Lee has been chosen by people to serve as their leader. Nearly 30 groups have asked her to serve as their chief presiding officer. She is also a successful businesswoman. Ten years ago, she was elected a State Representative and then State Senator.

Senator Eleanor Lee's fairness, intelligence and ability earned her leadership roles in the Legislature and the most powerful committee assignment available to the minority party — ranking member of the Senate Ways and Means Committee. Last session, she was the most successful Senate Republican lawmaker.

Senator Eleanor Lee was asked by her colleagues to run for Lieutenant Governor. They chose someone who could ably fulfill the requirements of the office — substituting for the governor, presiding over the Senate, serving on required committees and performing ombudsman duties.

However, the vast potential of the office has not been fully utilized for 50 years. Eleanor Lee says, "The office has been primarily ceremonial long enough. As the official next in line to the governor, the lieutenant governor should help solve this state's problems, as done in other states. It can be done with existing powers and budget, but it requires an experienced new person as lieutenant governor."

During his 28 years in public office, John Cherberg has earned a reputation for outstanding integrity, ability, accomplishment, fairness and firmness.

Cherberg has acquired invaluable knowledge about state government as President of the Senate, Acting Governor 1,336 days, statutory member of the State Finance Committee, State Capitol Committee, Health Care Facilities Authority, Data Processing Authority and seven other committees.

Cherberg has used his knowledge wisely in his role as "ombudsman" for thousands of citizens who turned to him for help in solving their problems in workmen's compensation, industrial insurance, pensions, public assistance and in cutting "red tape."

The people whose business it is to know and report on state government have singled out John for praise:

"Cherberg's gavel has saved billions of dollars for the state." Jack Pyle, Tacoma News Tribune; *"Cherberg is an official of impeccable integrity with broad experience in state government."* Seattle Times; *"Few are better informed on the inner workings of state government."* Yakima Herald-Republic; *"Cherberg earned and has maintained a reputation for fairness and impartiality as the senate's presiding officer."* Adele Ferguson, Bremerton Sun; *"A conservative with a heart."* Washington Teamster.

John Cherberg's record truly merits your vote for his re-election as Lieutenant Governor.

Campaign Address:
Citizens for Ralph Munro

Seattle, WA 98104
Telephone: (206) 467-8683

Ralph Munro has demonstrated leadership and creativity as Secretary of State over the past four years. Munro introduced legislation to end "exit polling," which enabled TV networks to project election results from interviews conducted *inside* polling places.

Munro has made tremendous improvements to coordinate the work of his office with the Business License Center, thereby improving the handling of corporate and non-profit registrations and the tens of thousands of annual renewals.

Munro has introduced legislation dealing with clearer ballot titles and accurate reporting of campaign contributions, among many others. The voters pamphlet has been distributed earlier, and Braille and tape versions have provided complete voter information to handicapped people for the first time.

"One of our greatest accomplishments," says Munro, "is that we have proven that voting district boundaries can be drawn by an independent redistricting commission instead of being a recurrent political football in the Legislature. The constitutional amendment approved by voters is the most significant change in Washington's political system in the past four years."

Re-electing Ralph Munro means four more years of responsible, hardworking leadership. Endorsements by newspapers, business and labor organizations across Washington confirm the importance of returning Ralph Munro as our Secretary of State.

Telephone: (206) 754-9704

Twenty years in office are too long for anyone. If elected, I would serve twelve years.

The current treasurer gets most of his campaign money from the big city banks — about half from out-of-state. This is a conflict of

interest. We want a treasurer who represents us, not big banks. I will take no money from out-of-state banks.

The treasurer's long-term investment record was so poor the legislature took this job away from him. He caused state government to lose its credit rating. This cost taxpayers \$200 million. The treasurer let state government borrow from pension funds to solve his cash flow problems. This cost us \$200 million. He didn't warn us about WPPSS.

I fought for fiscal responsibility as a government watchdog for 18 years. As Washington Research Council former president and legislative financial consultant, I have a proven record of concern for our state.

We must stop passing the buck for uncontrolled government spending, taxes and pension costs to our children. I have the experience to get the job done.

I will work to: improve state's credit rating, require legislature to fund pensions, improve investment return on workers' compensation trust funds, fight higher taxes, encourage long-range economic planning.

Robert S. O'BRIEN Democrat

Campaign Address:
P.O. Box 1963
Olympia, WA 98507

As a public treasurer for many years, Robert S. O'Brien has established an unblemished record of integrity. Nearly \$50 million passes through the State Treasurer's Office daily, and these funds have been

handled wisely and well. In addition, O'Brien's record of investing the state's funds earned the taxpayers a record \$370 million over the past five years alone.

Treasurer O'Brien believes in investing first within our own state's financial community. This constitutes a major effort to provide funds to stimulate our state's economy. His success in managing investment returns enables the state to stretch its revenue further and, ultimately, to ask that much less from taxpayers.

O'Brien's record of success in investing state dollars, promoting concepts of efficiency, and dealing with the investment community has earned him an outstanding reputation in both state and national financial communities. Treasury officials in more than two dozen states have adopted O'Brien's policies and techniques, ensuring high interest earnings while guaranteeing integrity and safety of state funds.

O'Brien has served as President of the Washington County Treasurers' Association and the Association of Elected County Officials, and as President of the National Association of State Auditors, Comptrollers and Treasurers, and the Western State Treasurers' Association.

Mack Barnette is the only candidate with the necessary professional training and experience for reliable implementing of budgetary restraint.

Mack Barnette, a Certified Public Accountant since 1964, has 11 years comptroller experience in commercial banking, 5 years treasury work in insurance, 11 years comptroller/treasurer/director experience in consumer finance. Mack now owns and manages his accounting firm, established for 8 years. Mack Barnette is the only Certified Public Accountant in the race and has over 30 years experience in finance, accounting, and comptrolling.

Barnette's qualifications are emphasized, because the State Treasurer's office is in dire need of state-of-the-art monitoring of a skilled, fiscally disciplining professional. He sides with irate taxpayers in not accepting the incumbent's association with the WPPSS bonds debacle, a faltering State Treasury, and runaway budgets.

Mack Barnette is not only capable of instituting sound financial management of the State Treasury, but also he has the skills to do the job. He is the only candidate with *both* a solid commitment to taxpayers' relief and the technical accounting-comptrolling experience.

For professional integrity you can trust, *elect Barnette.*

State Auditor

**Bob

Republican

Bob Keene has worked nineteen years in accounting. As a Certified Public Accountant, he commands a working knowledge of business and public finance, with two degrees in accounting from Washington State University. Bob was awarded the *bronze star* for excellence in auditing and accounting in Vietnam.

The 1980's have been an economic disaster for Washington State which demands that the State Auditor take an active role as our first line of defense against waste, fraud, and abuse.

Since 1980, our electric bills have increased 250%. WPPSS spent approximately \$10 billion, yet only one nuclear power plant is operating. WNP-2 cost 672% of original estimates, and you and I are footing the bill. The State Auditor has the responsibility to refer the abuse of our money to the Attorney General, but the incumbent has failed. In 1979 the State Auditor stated that the bondholders of WNP-4 and 5 had security, but the security was dismissed in court for being unconstitutional.

As State Auditor, Bob Keene will work to *save Washington from bankruptcy*. He will put strict controls on state funds. *Asotin, Benton, and Kitsap Counties* have had money missing; Bob will find it. Bob will work to restore Washington's good credit rating. *It's time for a change!!!*

Bob Graham's outstanding service as auditor provides Washington voters a window into government operations. His professional, evenhanded administration of the office has been recognized by the press:

"The office monitors the spending of all state and local offices, and Graham is known for calling things as he sees them, regardless of whether the office being audited is held by a Democrat or Republican." (Robert Cummings, Olympia Correspondent)

His broad experience in the governmental finance field has earned him the rating "Certified Internal Auditor" and national recognition by his peers. The U.S. General Accounting Office has declared the Washington State Auditor's office among the top ten in the nation. His work in developing accounting systems won Mr. Graham an appointment to the National Council on Governmental Accounting and he was twice elected as chairman of that prestigious body.

Beyond technical expertise, the State Auditor must have leadership ability. The National Association of Government Accountants awarded Bob Graham their "Distinguished Leadership Award" and he has been nominated by a federal agency for yet another national leadership award.

Bob's dedicated public service career warrants his re-election, in recognition of "a record of outstanding service" to the citizens of Washington.

Campaign Address:
Re-Elect Ken Eikenberry
Box 24591 T/A
Seattle, WA 98124
Telephone: (206) 587-0777

Attorney General Ken Eikenberry's record is impressive and is testimony to his leadership, independence, professionalism and integrity.

Vigorous, effective enforcement of Consumer Protection laws produced over \$13,000,000 for Washington's people and public offices in three years, a 300% increase over the previous three years. Ken promoted important consumer legislation and won the resources to champion the consumer's interest in power and telephone rates.

Under Ken Eikenberry, the Attorney General's Office continues to maintain its independence, fairness, professionalism, and non-political approach to the law. "What's right, what is fair, and what is the law," is Ken's officewide goal.

Ken Eikenberry made history by winning authority to actively investigate and prosecute crimes. This authority, coupled with Ken's 25 years of legal experience, including having been an FBI agent and King County Deputy Prosecutor, gives Ken Eikenberry and the Attorney General's Office the tools to substantially help law enforcement throughout the state.

The victims of crime must be protected. Ken Eikenberry continues to lead the effort for victims rights, particularly in domestic violence and child abuse cases.

Ken Eikenberry has done a great job as AG. That's why former Attorney General, Senator Slade Gorton, enthusiastically endorses Ken's re-election.

Phil Talmadge knows that we depend on the Attorney General to protect the quality of life we enjoy in Washington.

When companies are caught dumping hazardous wastes, we want the Attorney General to enforce our environmental laws. When contractors rip us off on major public projects like WPPSS, we want the Attorney General to prosecute them.

Fighting crime, protecting consumers, representing ratepayers, enforcing laws against discrimination, keeping the workplace safe — these are only a few of the critical responsibilities of the Attorney General.

Phil Talmadge's record of accomplishment as a lawyer and legislator makes him uniquely qualified to be Attorney General.

A tireless and effective State Senator, Phil has sponsored 80 bills which have been enacted into law — a truly remarkable achievement.

The issues he has worked on are wide-ranging: Puget Sound water quality, the right of workers and communities to know about exposure to dangerous, toxic materials, and criminal sentencing reform, to name a few.

Phil Talmadge is a partner in a large Seattle law firm. He has successfully argued numerous cases for individuals and businesses before state and federal appellate courts.

Phil and his wife Darlene have four children and are lifelong residents of West Seattle.

Commissioner of Public Lands

Brian BOYLE Republican

Campaign Address:
100 Colman Building
811 First Avenue
Seattle, WA 98104
Telephone: (206) 343-0500

Incumbent Land Commissioner Brian Boyle delivered on his 1980 promise to bring new leadership to the Department of Natural Resources.

Boyle, 43, said his background as a former Cowlitz County Com-

missioner and metals industry engineer and manager helped him direct state land management to serve the public interest.

"Two of my most important accomplishments were to make state land management more responsive to the public and to protect public land and water from environmental damage," Boyle said.

Boyle has diversified state land investments in oil and gas, agriculture and urban properties to assure more jobs, property tax relief, and income for schools, universities and counties.

In the next four years, Boyle's public and private sector experience is critical to protect the state's natural resources while producing land income so higher taxes will not be needed to build and run schools in the future.

The state also must help our timber and wood products industry. "This is a critical crossroad for our most important industry's recovery," he said, "and it needs continuity and leadership."

Boyle's policies will ensure future generations will gain the same benefits of recreation, jobs, environment and income that we have received from state lands.

Gene WIEGMAN Democrat

Almost without notice by the public, the number two industry in Washington State — *the forest products industry* — is rapidly being devastated by a combination of factors, i.e., skyrocketing industrial insurance rates, huge contractual obligations incurred in 1978-79 & 80

to cut public timber, Canadian imports, and rail freight rate increases.

Dozens of smaller timber related companies have either closed down, taken bankruptcy, or drastically cut back. Hundreds of employees have already lost their jobs, *and thousands of layoffs are pending.*

The impact of the crisis will have a tragic effect on the funding of school construction, and those county services dependent on monies from the Trust Fund.

Immediate solutions must be forthcoming if the remaining small and middle sized wood products companies are to survive! The problem is monumental and can only be solved by coordinated efforts of industry, labor, consumers, and government. The Lands Commissioner must take the *leadership* responsibility and "in-action" replaced by "action"! The time for promises, talking, and stalling ran out two years ago!

As former Commissioner of Employment Security, and before that as the President of Pacific Lutheran University, Gene Wiegman, 54, has a proven record as an administrator, leader, and chief executive officer.

I am running as an Independent for Land Commissioner as part of a slate of candidates headed up by Lyndon H. LaRouche, Jr., Independent, U.S. presidential candidate.

The state land revenues are an economic victim of Paul Adolph Volcker's usuriously high interest rates. The result of this policy has been a wave of bankruptcies and layoffs in timber, farming, mining, transportation and industry. There are no meaningful local correctives that will see us achieve more than a slowdown of economic collapse. Therefore, any candidate for office who does not address the national and international origins of these problems is only accepting the "which arm or leg next" economics of Volcker and his controllers in international banking. My tenure in office would use the institution of the Washington State Department of Natural Resources as a vehicle for demanding a policy for 2-4% interest rate loans to be issued solely for rebuilding America's productive powers.

It is a great irony that revenues generated from our state lands fund education and simultaneously grow marijuana which damages our students' brain functions. The capabilities of the Landsat satellite to spot even small plots of marijuana would be used to assure the end of this practice.

Tumwater, WA 98501

Every year over 135,000 people contact my office seeking information and help with their insurance problems.

Several thousand others have attended our *free* insurance information clinics held mostly in shopping malls all over the state, or have been aided by our volunteer Senior Health Insurance Benefits Advisors (SHIBA) started by my office and now recognized nationally. We also regulate and audit the 1300 insurance companies doing business in the state to make sure they are solvent and able to pay any claims you may have. We test and license the 23,000 agents and brokers selling insurance here and collect approximately \$60 million per year in fees and taxes. This money goes directly into the state's general fund to help defray the cost of running the state. In addition, as State Fire Marshal, my office has two major responsibilities: 1. inspection of hotels, nursing homes, hospitals, day care centers, etc., for safety purposes and 2. conducting arson investigation.

Our staff is committed to helping people with their insurance problems. There is much yet to be done, particularly in the areas of insisting that insurance policies become more readable and in keeping health care costs down. I ask for your continued support.

**James E. (Jim)

Consumers of Washington are entitled to a fresh and vigorous Insurance Commissioner who is sensitive and responsive to the needs of its citizens.

James Hoffman is the superior candidate needed to resolve consumer issues and others plaguing an insurance-confused public. His campaign slogan is "People Are My Priority" and he has "experience . . . where it counts."

As a career employee for nearly 19 years with the State Insurance Commissioners' office he served with Commissioners, William Sullivan, Lee Kueckelhan, Karl Herrmann, and incumbent Dick Marquardt. A veteran insurance investigator, he worked as a Trust Fund Examiner on Hospital/Medical/Surgical programs and Pension/Profit Sharing plans. James was a Claims Analyst Deputy in both Seattle and Spokane branch offices. Later as an Insurance Company Examiner, he investigated insurance operations both within and outside the state. He also served as the insurance Commissioner's Personal Examiner and Trouble Shooter. He has been an outspoken Consumer Advocate (Democrat) during his nearly 19 year span with the State Insurance Commissioners' office. Since leaving the department *involuntarily*, he has worked constantly to improve consumer relations for policyholders both within and outside the State of Washington.

Dr. Frank "Buster" Brouillet, incumbent Superintendent of Public Instruction, is the state's leading advocate for school quality. He has pushed for increased state funding for basic education. During his tenure state funding has been increased from under 50% to 78% of local school district budgets.

Brouillet has been an advocate of school excellence. Graduation requirements have been raised twice since he took office.

Buster has received national recognition as an advocate for children with special learning problems. Under his leadership vocational enrollments have doubled and new programs have been developed for bilingual, remedial, migrant, gifted and handicapped students.

Brouillet has been endorsed by the Washington Labor Council; AFL-CIO; the Federation of State Employees; and the Washington Education Association. Buster's work as a member of the state's Board of Natural Resources won him the Washington Environmental Council's Environmental Public Official of the Year Award. His work won him an honorary doctoral degree from Seattle University. His counterparts in the 50 states elected him the president of their nationwide council last November.

GALLOWAY**
Nonpartisan

Shirley Galloway has devoted 24 years to education, children and youth. She is admired for her convictions, respected for her courage and trustworthy as a leader. She always provides strong leadership.

Served in the Legislature for 6 years (vice-chair and current chair of House Education Committee; co-chair Pupil Transportation and Child Abuse Committees; 4 years on Revenue Committee; Actuary Committee). She is on State Council to Prevent Child Abuse.

Galloway knows how to get things done through planning, setting measurable goals and working with groups in an even-handed manner. Her pro-active approach to problem solving avoids crisis and provides stability. Her knowledge and skills established major community events; curriculum council; aided in school district dispute settlements; consultant on remedial education; started youth agency cooperative programs; mentor to gifted children; headed efforts to improve reading programs; church education committee chair, ecumenical youth organizer.

She and her husband Wayne have raised 5 children. Galloway went back to school earning an A.A. & S., Clark College, 1978; B.A., The Evergreen State College, 1980; school finance training, WSU; extensive training in negotiations and dispute settlement, American University and American Arbitration Association.

Galloway has strong convictions that the student's educational success must be top priority in all decisions regarding public education.

State Supreme Court Position 1

**William C.
GOODLOE**
Nonpartisan

Judge William C. Goodloe has been a Superior Court Judge for 12 years. He has the endorsement of over 60 of his fellow judges. As a practicing attorney, he has 24 years of extensive trial work in all courts.

Judge Goodloe served eight years as a Washington State Senator. He is a Navy veteran who served in combat in *all* theaters of World War II. He has been a faculty advisor for the National Judicial College and a consultant on several judicial publications. As a public service, he has given over 300 color-slide lectures on "Great Americans".

The Seattle Post Intelligencer said, "*Goodloe states and pursues his own convictions without fear of repercussions. Goodloe is one of the most courageous and independent thinkers in the Legislature.*" (Comments while he served in the State Senate)

Judges cannot campaign on issues, seek party endorsements or make commitments which amount to prejudgments. A judge cannot rule until the evidence has come in and the law has been presented. Judge Goodloe will serve the people of the state of Washington with impartiality, integrity and ability.

Campaign Address:
Phelps Gose,
Treasurer
E. 220 Wellesley
Spokane, WA 99207
Telephone: (509) 487-2774

Experienced Appellate Judge — only candidate with Appellate Judge experience, Judge Green has served 15 years on the Court of Appeals, Division III, twice as Chief Judge. He needs no on-the-job training. *Experienced lawyer* — 19 years private and public law practice. A skilled trial lawyer, his practice included the entire spectrum of law. He knows the impact of appellate decisions on lawyers, clients, and law enforcement agencies. Judge Green brought the lawyer's viewpoint to the first Court of Appeals.

Experienced prosecutor — a former U.S. District Attorney, he knows the practicalities of criminal law. *Professor* — 6 years teaching Appellate Practice at Gonzaga Law School.

Practical and consistent judge — rules of law should be fair and practical — the kind people can live with. They should be consistently followed so lawyers can reasonably predict for their clients the consequences of given conduct. When law becomes impractical due to permanent change in society's needs, the law should change to meet those needs.

Involved — Chairman, Committee on Judicial Ethics; member, Pattern Jury Instruction Committee; Judicial Administration Section, American Bar Association; active church member; Rotarian; Mason. No. 1 in lawyer's poll.

Elect experience!

State Supreme Court

Position 3

**Keith
CALLOW**
Nonpartisan

Experience: Judge of the Court of Appeals for 12 years; former Superior Court Judge; served as Deputy Prosecutor, law clerk for the Supreme Court and as Assistant Attorney General. Private law practice for 14 years. As Presiding Chief Judge of Court of Appeals, co-founded a national organization dedicated to the improvement of the administration of courts.

Recognition: The Brandeis-Judge of the Year-Award ("For Excellence Characterized by Reasoned Fairness and Judicial Leadership") from the Trial Lawyers Association; the Governor's Award ("For Outstanding Public Service in Accident Prevention") from Evergreen Safety Council and Thanks Badge (for service to Girl Scouting) from the Totem Girl Scout Council. Serves on Executive Board of the Boy Scouts. Bar poll overwhelmingly supports election.

Position: Experience and practical common sense are essential for a Supreme Court Justice, as is understanding the problems of each county. The criminal law should work so the guilty are convicted, the innocent acquitted, so that law enforcement officers can keep us safe by performing their work effectively and yet protect our freedom and privacy. Each person should be able to make the most of their abilities and each individual is entitled to respect.

**Edward
HEAVEY**
Nonpartisan

Edward Heavey has a distinguished record of service. As attorney, District Court and Superior Court Judge Pro Tempore, as well as Superior Court Arbitrator, he has acquired the breadth and depth of experience needed to be an outstanding Supreme Court Justice.

As Member of the King County Council, Heavey authored these major reforms: the first County Campaign Disclosure Ordinance, the first Code of Ethics of County Officials and Employees, the first Public Defender System in the state, and the first County-City Ombudsman program.

Heavey has served on the Washington State Bar Association's Civil Rights and Legislative Committees, and the Environmental Law and Real Property and Probate Section. He's been an Associate Member of the Urban Land Institute and member of the Environmental Defense Fund.

Edward Heavey is endorsed by the Washington Education Association, the Washington State Women's Political Caucus, Washington State Labor Council and Washington State Employees.

Edward Heavey says a Supreme Court Justice must not only comprehend legal complexities and render just decisions, but should work actively for judicial reform. "Our courts must be more concerned with protecting citizens, and less with protecting criminals. As State Supreme Court Justice, I'll be tough — but I'll also be fair."

Superior Court Mason-Thurston Position 1

**Rick
STROPHY**
Nonpartisan

Judge Rick Strophy currently serves as Thurston County District Court Judge, elected in November, 1982 by over 70% of the vote.

His candidacy for Superior Court is endorsed by the Olympia, Lacey and Tumwater Police Guilds; the Washington Federation of State Employees, Local 443; and the Thurston-Lewis County Labor Council, AFL/CIO.

Judge Strophy was a trial attorney in the Thurston County Prosecuting Attorney's Office for 11½ years, serving as Chief Criminal Deputy and Chief Civil Deputy. He has tried many civil, juvenile and criminal cases, including capital murder cases, and successfully argued cases at all court levels, including our State Supreme Court.

As District Court Judge, Strophy has presided over numerous civil and criminal trials. He is a graduate of the National Judicial College and a member of the District and Municipal Court Judges Association.

Judge Strophy and wife Barbara have three sons and reside in Olympia. Active in his community, he serves as a member of the Criminal Justice Advisory Board, St. Martin's College, teaches criminal law and evidence at college level, and is past president of his church council.

Judge Strophy serves in the Army National Guard as a Major in the Judge Advocate General's Corps.

I am a lifetime resident of Thurston County, Marine Corps veteran of World War II and graduate of St. Martin's College and University of Washington Law School.

I am also a former Prosecuting Attorney and City Attorney of Olympia. I am an active trial lawyer with more than thirty years experience in Superior Court in virtually every type of case, civil and criminal. In a secret poll, I was selected by an overwhelming vote of the practicing lawyers of Thurston and Mason Counties as the most qualified candidate for Superior Court, Position One.

With three experienced judges leaving office, it is now, more than ever, imperative that a judge with wide trial experience, knowledge of the law and mature judgment be elected to Position One. I am the only candidate with those necessary qualifications at the superior court level.

If elected, I pledge to devote all of those qualifications to the cause of dispensing justice fairly, honestly and speedily. I believe the only real deterrent to crime is swift and sure justice.

ROBINSON**
Republican

Campaign Address:
129 South 176th, Suite 6
Spanaway, WA 98387
Telephone: (206) 531-1114

Leadership and Community Involvement: Ted Robinson works hard and he always has. As a teenager, Ted led the largest 4H Club in the state of Oregon and held the highest position in the Oregon Juvenile Grange.

Today, Ted has over 30 years of membership in the Grange. Ted is Vice-President of the Parkland/Spanaway Chamber of Commerce and he is active in Rotary and the Transportation Brokers Conference of America.

Experience In Business And Labor: At 22, Ted Robinson was elected to the Board of Directors of the Office Employees International Union and served as President of his local — then the 3rd largest in the United States.

Today, Ted is a successful independent businessman. Since 1981, Ted and his wife Yvonne have owned and operated Best Ways Express, Inc. in Spanaway. *Ted's company provides jobs for over 25 families in his community.*

A Commitment To People: — Voting for reduced government spending and *against* tax increases are "people" votes. It's been a long time since the people of the 2nd District have had these votes cast for them. Ted Robinson will bring back representation to the people of the 2nd District.

Telephone: (206) 847-5610

After three terms as the Second District's State Senator, the list of R. Ted Bottiger's accomplishments is extensive. A brief summary includes: spearheading a campaign to enforce proper use of handicapped parking and to expand the definition of "handicapped" to include persons with disabling cardio-respiratory conditions; leading the fight to install badly needed traffic lights and middle turn lanes on the Second District's increasingly busy roads; actively supporting a program of 23 proposals to revitalize Washington's sluggish economy, twelve of which became law and are now fueling the state's economic recovery; was a major sponsor of the Mobile Home Landlord/Tenant Act, defining the rights and responsibilities of both parties in rental agreements and disputes.

The need for good legislative representation is ongoing. Regardless of his past accomplishments, Ted isn't ready to rest on his laurels. He realizes there is still plenty to do if this district is to continue to grow and prosper.

A look at the past shows the kind of leadership we will need in the future. Ted has served the Second District well over the last twelve years. He is just the person to serve us well for the next four years.

Ken has a Master's Degree in Business and was the State Chairman for Governmental Affairs for the Jaycee's. He is a Vietnam veteran.

Ken wants to work towards changing the property tax to current use appraisal, work towards bettering our education system and work towards creating a better business climate for existing business and new business.

State Senator Twentieth Legislative District

**W. H. (Bill)
FULLER**
Republican

A legislator of quiet strength and determination, State Senator Bill Fuller has built a solid reputation throughout Lewis and Thurston Counties for honesty, integrity and common sense.

Bill and his wife Claire are involved in civic activities including: the United Way, 4H Clubs, community food banks and community concert programs.

A family man and former member of the school board, Bill Fuller is deeply committed to improving the quality of education and vocational training in our public schools.

Bill Fuller is a successful independent businessman with experience meeting a payroll and putting people to work.

Bill Fuller believes working people should keep as much of their hard earned money as possible — to spend as they see fit. That's why Senator Bill Fuller consistently votes against high taxes and wasteful government spending.

In the State Senate, Bill Fuller has been working to uphold the traditional values — hard work, self-reliance and a strong sense of people's individual worth and dignity.

Senator Bill Fuller is committed to a brighter, more prosperous future for the people of Thurston and Lewis Counties; a future with more jobs, quality education for our children, a safe, clean environment, lower taxes and a more responsible state government.

It's time for a change. The voters are no longer being represented by the incumbent who sponsored a bill to take away the people's right to vote for United States Senators and give the selection to the party bosses in the legislature. "*Politicians are better judges of politicians than the voting public,*" he said in support of his bill. Stu Halsan doesn't agree.

Look at the record. The incumbent voted to raise interest rates on consumer credit that had been limited by the voters; he voted to slap back on the food tax only a few years after the voters had taken it off and after promising not to raise taxes; and he voted time and again in support of WPPSS as it nearly bankrupted the state, even stating "*Nuclear power is absolutely necessary whether people like it or not*" all the while personally owning over \$5,000 in WPPSS bonds.

A Centralia attorney, Stu Halsan is 32, married with one son. Vice-Chairman of the House Natural Resources Committee; Stu has sponsored legislation to promote new employment, help the unemployed, and fight Computer crime and D.W.I.

The 1983 Alexander Grant survey ranked Washington 38th out of the 48 contiguous states in its attractiveness to manufacturers. Of the reasons given by these companies, right at the top were the regulatory environment and the excessive tax burden placed on new businesses starting up operations in our state.

Our ability to finance quality education, provide jobs, and sustain essential state programs, all depend on a vibrant and growing economy.

We can, we must attract new businesses to our state by *sensible deregulation* and *tax incentives*.

Since 1974, Phil has worked for the State of Washington and, since 1979, has been Assistant Director for Renewable Resource Programs in the State Energy Office.

Phil is genuinely concerned about 20th District problems and will work hard to solve them, utilizing the same imagination and leadership that he has employed in tackling the state's tough energy issues.

State Senator

Twenty-second Legislative District

**Dick
HEMSTAD**
Republican

When Dick Hemstad was elected to the Senate in 1980, he pledged to represent the needs and concerns of *all* the people of the 22nd District.

Senator Dick Hemstad has kept that promise. Lobbyists know that Senator Dick Hemstad only votes for the public interest, not narrow special interests.

"We're working for the future" says Dick "for more jobs, for a quality environment, a clean Puget Sound, and for excellent schools."

As an attorney in private practice, as legal counsel to Governor Evans, as the Director of the Office of Community Development, and as our State Senator, Dick Hemstad has distinguished himself as a dedicated public servant. He also teaches law at the University of Puget Sound Law School.

Both Dick and Micki Hemstad, who have been married for 28 years and have raised four children, are active in community affairs.

Judiciary Committee Vice-Chairman Dick Hemstad championed tougher drunk driving laws and stiffer, surer criminal sentencing. And, he has consistently opposed permanent tax increases.

People from all walks of life — Democrats, Republicans and Independents — are voting for Dick Hemstad. Hemstad doesn't let political party, or any special interest group interfere with his pledge; to represent *all* the people.

**Mike

Democrat

Mike has worked hard for eight years as a State Representative to represent you, our district and the people of the state.

Your vote is one which should be based upon the effectiveness of the job he has done. This will be a gauge as to what you can expect of him in the Senate. Mike suggests this approach because he is proud of the job he has done. He has introduced and secured passage of legislation to assist children, the elderly, consumers, handicapped and taxpayers. Mike has exposed misuse of state funds that forced the resignation of a state department director and eased the voting procedure for the blind. To all this, he adds the many hours of effort in behalf of individuals who needed his help in getting answers to their questions or cutting through government red tape. He enjoys his public service.

As your next State Senator, Mike will have a better opportunity to represent your interests. There are many problems yet to be addressed. We need jobs, a cleaner environment, improved education, lower health care costs and much more. As a State Senator, Mike will be even more effective.

How to Obtain an Absentee Ballot

Any registered voter who cannot vote in person may apply to the county auditor or department of elections for an absentee ballot. Any *signed* request with the necessary information will be honored. For your convenience, an application form is reproduced on the following page. The addresses of the auditors or departments of elections are also listed below. In order to be certain that an absentee ballot request is authentic, the election laws require that the signature on the application be verified by comparison with the signature on the voter's permanent registration record. For this reason, if a husband and wife both wish to vote by absentee ballot, both must sign the application form or separate, signed requests should be submitted. *In order to be counted, an absentee ballot must be voted and postmarked no later than the day of the election.* If you intend to vote an absentee ballot, make your request as soon as possible to allow sufficient time for an exchange of correspondence with the county auditor or department of elections. Absentee ballot requests may be presented in person at the office of the county auditor or department of elections up until the day of the election. No absentee ballots may be issued on the day of the election, **except** to a voter who is confined to a hospital on election day and was admitted no earlier than five days before the election. A member of the family or an authorized messenger may pick up and return the voter's absentee ballot. If you need such a ballot, contact the hospital administrator, county auditor or department of elections.
