

Freedom Tails

Stafford Creek Corrections Center – December 2015 Vol 7/No 13

Last Chance for a New Year's Pup!

Look at that face!!

BAILEY: is an approximately 1 year old Plot Hound Mix. This breed is quick to learn (attested to by one of her handlers who stated she is the most intelligent dog he has had the privilege to train), and is very loyal. Bailey is an extremely affectionate dog, loving the closeness of her humans and cuddling. She is friendly to all people, other dogs, & children, but needs a home without cats. Bailey is still a hound, so when outside her nose dictates. She takes quick potty breaks and is very low odor. It will be a lucky home to have this wonderful girl! (HAVA)

*Another beautiful face –
and a tail that wags too
fast for a camera!*

FIORA: at almost 1 year old, this gorgeous Heinz 57 mix, (could be 4-8 breeds – a DNA test would solve that!), is full of energy and is very playful. She loves all people, as she does food ☺, but she is driven more by attention than by a treat. Fiore has issues meeting new dogs, getting excited and sounding aggressive, but all is well when she settles down. Fiore does not shed, is very intelligent, and shows none of the horror her life held previously. She loves all people and is good with cats. This amazing dog is just waiting to meet you and have you take her into your forever home to give her all the attention she is so deserving of! (HAVA)

WARM Company Does More Than Keep Things Warm!

L: mats placed under chairs at graduation;
Center: teddy bears for distressed children; R: donated roll of batting along with finished mats.

Over a year ago, Freedom Tails was approached by a person (who prefers to remain anonymous) who would wanted to become a volunteer and had a great idea. We greedily took them under our wings! This person makes mats for each dog, each session! These mats are put in the crates or on the floors for the dogs. When graduation comes around, they are meticulously cleaned and given to the adopters. That way, the dogs leave with something comforting and the adopters have a little "something-something" from the program and SCCC. Recently, the volunteer was running shy on batting for the mats was having trouble finding it. Locating the material on sale, close-outs, etc., is extremely important as they do this project without the help of any funding. We already received batting material from The Warm Company for teddy bears*, so we contacted them regarding the mats. They were thrilled to help out! As one of their representatives, Lindsey Grand said, "I'm so delighted that we've been able to help such a very worthy cause and look forwarding to helping any way we can going forward!" The volunteer was able to go to the Warm Company directly and pick out exactly what they needed. We already have another batch of mats on their way for the upcoming class. We wanted to give a shout out to our anonymous volunteer and our wonderful donator! Thank you!!

*SCCC has a group of offenders that make teddy bears. These bears are then donated to the local police, sheriff, and fire departments along with such entities as Child Protective Services and Beyond Survival – a sexual assault resource center. At this time, we have donated over 300 teddy bears out to the local community!

When you access the HAVA website, slowly drop under the Freedom Tails tab...magically an application link appears!
